Langa Spirit presents

BARÒ GIN

– PREMIUM DISTILLED DRY GIN –

Barògin results from research on the birth of Italian gin, starting from the alchemical manuals of 1550, when **wine** and **juniper** were the basis of gin.

Hence the idea of re-emerging the ancient flavors, but characterizing the gin with the pleasant **spicy** and **fruity hints** of contemporary red wine.

FRAGRANCE

OF LANGA

The link with our territory has led us to the most famous wine in the world, the king of all wines: Barolo, which gives unique notes thanks to its important and complex structure.

Just like Barolo, Barògin is a **living product**: each production will give different characteristics. It will be the vintage, as for great wines, to define the nuances of our productions.

The design of the recipe took **15 months**, elaborated following the most ancient art of distillation and the traditional production methods: Barolo wine, raw material of prestige, and a discontinuous copper alembic from the 1700s fueled by a wood fire.

Barògin is handcrafted in small batches, without using artificial flavors, dyes or essential oils. Slightly filtered.

Gin Name: **Barògin**

Gin and tonic easy to pair, recommended a neutral Tonic to bring out the best flavors.
Very pleasant for smooth lovers.

Barògin has a dark red color with orange reflections. Traditional Gin: Alpine juniper immediately stands out on the palate, freshness given by coriander and cardamom is perceived.

Towards the end, the whole structure of Barolo opens up with excellent persistence of aromas; vanilla, pepper and various everyday spices are easily distinguished.

On the nose, in addition to juniper and the fresh citrus notes of coriander and cardamom, there is a pleasant bouquet of floral and fruity hints of the wine.

Well balanced, easy to drink.
