Product's overview

In our mattress range PIRATA is the most versatile item as it can have two positions (1 2), just like the sun bed that can lower its backrest. There is also a headrest pillow, tied to the item with two buttons that will make the raised position comfortable. It consists of 3 parts: seat, backrest and headrest (3). It has a plywood base to give more stability to the foam rubber and 6 feet that lift it slightly from the ground and allow it to be ventilated, so as not to have a direct contact with spa floors, poolside. Inside there is a soft high density foam rubber padding.
