

Re-Freshing & Go

TONING +
ENERGIZING +
MOISTURIZING ESSENCE

FACE MIST

The Re-Freshing & Go spray combines plant waters, extracts, and moisturizing actives to provide instant freshness and well-being. Its antioxidant ingredients protect against free radicals and delay signs of aging. This all-in-one spray refreshes, hydrates, and balances the skin and scalp, making it ideal for use anytime without rinsing, and it enhances the effectiveness of other treatments. Designed for active women, it seamlessly fits into any beauty routine, with over 97% plant-based ingredients and a light, quick-absorbing texture. The citrusy, floral scent adds a pleasant sensory touch.

Re-Freshing & Go

KEY INGREDIENTS

Hydropom®: an upcycling-derived ingredient obtained from tomato peel waste grown in Italy. It is rich in lycopene, an antioxidant molecule widely studied for its protective effects against stresses caused by environmental pollution* and for its ability to deliver the right amount needed to keep your skin UV quickly, efficiently and evenly protected.

Mannaferm®: an upcycling-derived ingredient obtained from the sap that escapes from the bark of ash trees grown on top of the Madonie Mountains in Sicily through a modern hyper fermentation technology that allows the phytocomplex of manna to be enhanced in its antioxidant and amino acid components, both fundamental for your skin well-being.

A true beauty “godsend” as it protects osmotic stress skin cells, gets your skin 24 hours hydrated from the very first application, increases skin firmness and visibly reduces wrinkles while getting it smoother. **

Propanediol: hydrophilic moisturizer, brings water to the skin.

Panthenol: hydrophilic moisturizer, skin regenerator.

Mallow water: rich in moisturizing and softening mucilage.

Chamomile water: soothing calming.

Centella glyceric extract: regenerating anti-aging.

Green tea glyceric extract: revitalizing antioxidant.

Olive glyceric extract: anti-stress antioxidant.

Red grapevine glyceric extract: anti-aging capillary protective antioxidant.

*Anti-pollution effect (+40% in vitro test).

**Enhanced epidermis cohesion (+41%) (in vitro test);

Skin more hydrated for 24 hours from the very first application (in vivo test);

Deep hydration (+17%) and long term (+15.5%) (in vivo test);

Reduced skin flaking (-34%) (in vivo test);

Reduced wrinkles (-40%) making skin smoother (+9%) (in vivo test).

A woman with dark, wavy hair is shown from the chest up, holding a small, amber-colored glass bottle of 'Re-Freshing & Go' product. She is looking down at the bottle with a gentle expression. The bottle has a white pump dispenser and a label that reads 'Re-Freshing & Go', 'TONING + ENERGIZING + MOISTURIZING ESSENCE', and 'ELELÜ'. The background is softly blurred, showing green leaves and orange flowers.

Re-Freshing & Go
