

ARMERIA MESCHIERI

MADE IN ITALY

## OUR STORY

Valcarengi is our family name, ages ago, we took in charge the historical Armeria Meschieri with much personal commitment.

Hunting weapons and fishing rods soon were placed side by side with clothing and accessories where our customers can find the high quality we represent. Belts, ties and shirts are now the main products we focus on and research for quality really enriched our proposal, now we offer unique pieces made up from our own artisans.

The use of high quality materials so as the attention to details and to finishes gave us the results we are pleased to introduce.

## OUR BELTS

Belts really well represent our Armeria Meschieri. Extraordinary quality of the leather used, plaits from the best artisans and pure brass buckles with special lasting finishing. We do not use any kind of screw because they are the opposite of what artisan product means. It is 100% hand made in Italy.

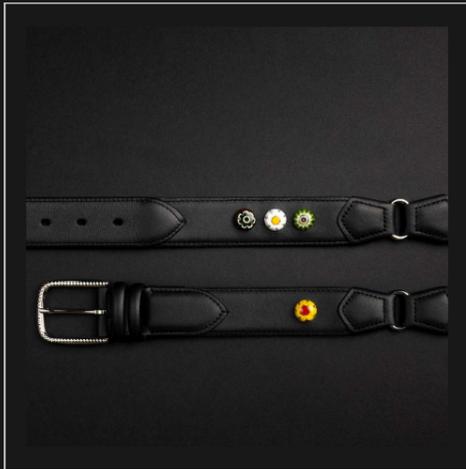

# VENICE

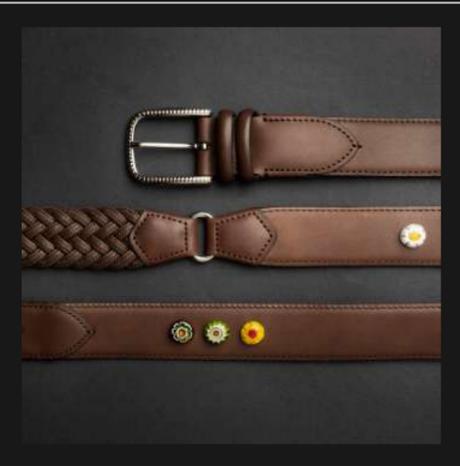

100% leather + Murrine glass  
made in Murano, Venice
