il Gin del Vicolo®

MORO ENTERPRISE S.R.L.S.

OUR GIN

Gin del Vicolo® is a London Dry Gin created in the Eternal City—Rome—near the historic Villa of Livia, wife of Emperor Augustus.
It contains no added sugars and has an alcohol content of 42%.
It's distilled in a discontinuous alembic using the bain-marie method, universally recognized as the finest technique for crafting high-quality spirits.
The botanicals used, in addition to juniper, are staples of Roman cuisine: bay leaf, Roman mint, rosemary, and… others.

OUR MISSION, 1

Together, we build a better future.
Every drop of our handcrafted juniper distillate tells a story of passion, sustainability, and solidarity.
For every 10 bottles sold, we plant a tree —and we bring joy to an animal in need by donating 3% to the shelter **Il Rifugio delle Code Felici.**
Join us on this journey! Our forest, the shelter, our future.
One tree, one better future.

OUR MISSION, 2

With every bottle of Il Gin del Vicolo you enjoy, you help grow a little corner of paradise.
Because for us, love for the environment is a real commitment.
Every tree we plant, thanks to you, is a breath of life for our planet. It absorbs carbon dioxide, purifies the air, protects the soil, and creates habitats for countless species.
Imagine looking up at the sky and seeing a tree you helped plant—a tangible symbol of your dedication to a more sustainable future.
