

UNNATURAL

Bomber Striped MT1

Bomber jacket in black coated canvas, stone-washed with pumice for a deep, worn-in texture.

Inspired by the iconic MA-1 bomber from the U.S. military, this piece has been reimagined with an oversized fit and bold details that truly make a difference. Its structure is strong, its volume intentional — designed for those who want a statement piece with attitude.

The contrasting zig-zag stitch outlines the collar with a sharp graphic motif, drawing from military workwear references and translating them into a modern streetwear aesthetic. Ribbed 3x3 cuffs add depth and definition, while inside lies a hidden surprise: a wild animal-print lining, echoed in the exterior zip pull for a striking, unexpected contrast.

Minimal on the outside, untamed on the inside.
