Meet Italy at SMM

1-4 Sept. 2026

Discover
the Strength
of Italian Maritime
Industry
Hamburg Messe

WELCOME / BENVENUTI!

THE ITALIAN TRADE AGENCY (ICE) AT SMM 2026

Dear visitors,

I am very pleased to welcome you to **SMM 2026**, the world's leading trade fair for the maritime industry and the foremost international platform for innovation, technology and sustainable solutions for the global shipping and shipbuilding sectors.

This year, the **Italian Trade Agency (ITA/ICE)** is proud to participate together with **22 Italian co-exhibitors** in **Hall B3, Upper Floor, Stand 208, 210, 212, 214, 216, 218, 220, 222, 302, 304, 306-315, 317, 319, 321**, where they will showcase the excellence of Italian maritime technology to an international audience of industry professionals.

The participating companies represent a wide range of sectors across the maritime supply chain, including marine equipment and components, propulsion systems, automation and electronic systems, water filtration and treatment technologies, coatings and decorative finishes, as well as other innovative solutions designed to enhance efficiency, safety and sustainability in the maritime industry.

Italy continues to be one of the world's leading maritime manufacturing countries, combining engineering excellence, innovation and a strong tradition of quality. Italian companies play a key role in developing advanced technologies and sustainable solutions that contribute to the competitiveness and environmental transition of the global maritime sector.

Germany remained Italy's leading trading partner in Europe in **2025**, accounting for around **12% of Italy's total foreign trade** (ISTAT). At the same time, the Italian shipbuilding and boating industry continued to demonstrate remarkable strength, generating approximately **€13 billion in total value added**. With nearly **90% of its production exported** and shipbuilding exports exceeding **€4 billion**, the sector further consolidated Italy's position as a global leader in maritime manufacturing. Germany remains one of the most important export markets within the European Union.

I wish you a successful visit to **SMM 2026** and hope that your time at the Italian Pavilion will lead to valuable meetings, inspiring discussions and new business opportunities.

Should you require any further information, please do not hesitate to contact our Berlin Office or visit the **ICE-Desk at Stand 302 in Hall B3 Upper Floor**. We will be delighted to assist you throughout the exhibition.

Yours sincerely,

Ferdinando Fiore

Director

Italian Trade Agency – Berlin Office

ABOUT

The Italian Trade Agency is the Italian government organization working to develop, facilitate and promote economic and commercial relationships abroad and marketing Italian goods and services internationally. It further promotes the “Made in Italy” image around the world and Italy itself as a destination for foreign investment. The Italian Trade Agency operates under the authority and supervision of the Ministry of Foreign Affairs and International Cooperation (MAECI). Through its international presence, alongside the Italian diplomatic network, the Italian Trade Agency works together with business organizations and other public and private entities to offer coordinated support for businesses and Italian organizations involved in the globalization process. From its Rome headquarters,

with offices in Milan and around the world, the Italian Trade Agency provides information, assistance and promotion services to businesses and institutions, encouraging cooperation within the industrial, agricultural and agrifood sectors, distribution and tertiary businesses, to expand the presence of Italian companies on international markets. In order to support the Italian industrial and textile sector the Italian Trade Agency offers a wide range of initiatives worldwide, such as participation in trade fairs, presentations and bilateral workshops. In Germany, the Berlin office organizes many promotional events with Italian Regions, manufacturers associations, chambers of commerce, private companies and collective pavilions in international trade fairs.

CONFINDUSTRIA NAUTICA

Italian Marine Industry Association

ABOUT

Confindustria Nautica, Italy's Marine Industry Association, has represented the nation's yachting industry since 1967. Based in Genoa and Rome, it promotes maritime culture, nautical tourism and sector growth, engaging with Government, Parliament and international bodies. Its "Yachting Manufacturers Certificate – 100 % Original Made in Italy Quality" certifies members whose products embody Italian excellence, prestige and craftsmanship.

Since 2006, AWS Corporation delivers advanced air intake and moisture separation solutions for wind energy, offshore, and marine industries.

We specialize in the design and manufacturing of:

- Air Intake Systems
- Louvres
- Droplet Separators
- Mist Eliminators
- Protection Systems for HVAC and Turbines

Our solutions are designed to remove water droplets, salt mist, heavy spray, and moisture from incoming air streams, ensuring maximum protection and performance for turbines, HVAC systems, offshore substations, and marine installations.

Headquartered in Bergamo, Italy, AWS Corporation combines engineering expertise, custom manufacturing, and reliable technical support.
