WELCOME

Dear visitors,

It is with great pleasure that I would like to welcome you at Ambiente 2024 in Frankfurt am Main - the most important international trade fair for home furniture and interior design sectors worldwide.

This year, the Italian Trade Agency will participate with a delegation of 30 Italian exhibitors, who will exhibit through ITA in Halls 3.0 and 3.1. With their innovations in the fields of interior design and interior decoration, they will provide information about their products, emphasizing the creative flair of the land of design. Among the products showcased are home furniture, ornamental articles, designer lamps and chandeliers and home textiles.

After a two-year period of exceptional growth, the furniture sector still seems to show a positive trend in 2023, although tending toward a slowdown. The Mediobanca Research Area analyzed the economic-financial data of 286 domestic manufacturing companies with a turnover of more than 10 million euros in 2021: despite the many uncertainties due to the geopolitical environment and the inflationary push, 57 percent of companies had increased sales and exports in 2023 as well.

We would be delighted if you would use our presence at Ambiente 2024 as a starting point to know more about Italy's home interior design and decoration industry, beginning with the companies of our delegation.

In renewing my wishes for a successful participation at Ambiente 2024 and fruitful new business prospects, I would like to remind you that our Berlin Office is at your disposal for any required information and assistance.

Warmest wishes,

Francesco Alfonsi

CNA, the Italian Confederation of Craft Trades and Small- and Medium-Sized Enterprises, has been representing the interests of craft companies, SMEs, and all forms of self-employed workers for over seventy years.

The mission of CNA is to enhance crafts and SMEs, acting as their partner for development, promoting economic and social development. This objective is pursued through a structured organization, a system of companies providing services and tailored consulting to enterprises. This modern structure provides its members with assistance, information and innovative solutions.

Founded in 1946, the CNA – the Italian Confederation of Craft Trades and Small- and Medium-Sized Enterprises – has over 621,000 members who employ over 1.2 million people. The CNA represents artisans, business owners, professionals, the self-employed and small and micro businesses in the tourism, services and industrial sectors. The broad reach of the crafts industry, in both major cities and small municipalities, is reflected by the CNA's widespread presence: over 8500 workers at its 1100+ sites, 19 of which regional and 96 local.

A presence that guarantees services, consultancy and information with credibility and professionalism, fully aware of the active role it plays in the success of small businesses and the development of a segment which continues to create jobs and new businesses on its own. The CNA comprises 10 national unions: CNA Food, CNA Artistic and Traditional trades, CNA Wellbeing and Health, CNA Communication and Advanced Services, CNA Construction, CNA Federmoda (Fashion), CNA FITA (Transport), CNA Installation and Systems, CNA Production, CNA Community Services. There are 45 subcategories and 5 interest groups: CNA Youth Enterprise, CNA Women's Enterprise, CNA Tourism and Trade, CNA Industry, CNA Cinema and Audiovisual. In addition there are also CNA Professions, CNA Citizens and CNA Brussels.

CNA has qualified representatives at key positions within Chambers of Commerce and it has founded two Italian foreign Chambers of Commerce in France and UAE.

All over the world it is known that Italy is rich not only in enchanting natural beauties, but also in an extraordinary artistic heritage. An important part of all this is the tradition of Capodimonte ceramics and porcelain which, since 1743, have embellished the homes of royalty and collectors. Since 1842, the Mollica family has signed some of the most significant objects of this esteemed production, marked by the crowned "N", symbol of the Bourbon manufacture. From father to son, and up to the present day, the Mollica family has expressed the best of the artistic and traditional production of Capodimonte. Precious vases decorated and shaped by hand, centrepieces decorated with flowers and fruit, lamps and pottery of the most exquisite workmanship, up to the latest collections signed by Antonio Fullin Mollica who drew inspiration from the sea to design new lines. With the shells, these wonders of nature, he invented this new style of decoration where each item is unique and unmistakable, where the search for detail accompanies us with class in his "Planet Sea"!

With "I BORBONE" history and tradition continue to be present in the most qualified shop windows all over the world, from Rome to London, from Paris to Shanghai, from Seoul to Tokyo, from New York to Madrid, from Dubai to Moscow, with taste! Taste is invention, it is the search for beauty, it is culture, it is the study of one's own tradition, it is the targeted choice and not the acceptance of everything that is proposed. Taste is creation and art.

"I BORBONE", artists in Campania since 1842, are still today the cradle of all this.

Stilfibra® by STL Benefit company is the first brand to furnish with vegetable fibre and its natural scent. On the occasion of the Ambiente fair, we present 'ERBI' the multifunctional chair with a shell composed of a blend of regenerated post-industrial polypropylene and vegetable fibre residue from agricultural processing and food industry. The materials come from a 100% Italian controlled recycling chain and are subjected to analysis with state-of-the-art devices to guarantee their absolute healthiness. Everything in Erbi had a previous history, but today it is actually a new product. Moreover, during the moulding process, we found that the vegetable fibre retains its original fragrance. Our chair consists of 2 elements - shell and frame - for optimal disassembly and recycling. In addition, at the end of use the shell material can be reprocessed and reused with the same initial performance. This is why Stilfibra is a so-called 'closed-loop' project.

Finally, Stilfibra is also a social project: part of the profits from the sale of Erbi are donated to the WomenForFreedom Association for the 'At school with Chiara' schooling project <https://www.womenforfreedom.org/scolarizzazione/>

Wave Murano Glass is a modern glassblowing factory situated on the island of Murano, led by glass master Roberto Beltrami. The company combines ancient Murano techniques with new technologies, ranging from the creation and reinterpretation of classic icons to contemporary lighting projects. Wave has gained recognition for its ability to collaborate with designers and luxury brands to bring their artistic visions to life. The company is strongly committed to sustainability, developing new, toxic-free colors and switching to new high-tech efficient kilns. By preserving Murano's millenary tradition while embracing innovation, Wave is helping to shape the future of glassmaking.
