ITA - ITALIAN TRADE AGENCY

Italian Trade Agency
Trade Promotion Section of the Italian
Embassy

A CENTURY OF PROMOTING MADE IN ITALY WORLDWIDE

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy, through "Invest in Italy", a project operated with Invitalia. With a motivated and modern organization and a global network of 87 offices in 74 countries, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses in the industrial, consumer goods and services sectors.

Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world. Every year, ITA worldwide offices carry out hundreds of promotional projects and provide personalized services and assistance to thousands of Italian companies. The Italian Trade Agency also assists and supports foreign companies that want to establish or expand business and trade relations with Italian companies or to invest in Italy. The Italian Trade Agency collaborates with Italian Regions, Chambers of Commerce, Industry and Trade Associations and other public and private organizations.

Mariarosaria Fragasso

Head of External and International Relations and Economic Department

Federazione ANIE, member of Confindustria, represents the Electrical Engineering and Electronic companies operating in Italy.

With over 1,100 member companies, the ANIE system supplies technologies for public and private infrastructures in strategic markets such as energy, industry, building, infrastructures and transports.

Electrical Engineering and Electronic technologies represent the heart of the twin transition - green and digital. They are drivers of innovation and are essential for the modernization of existing infrastructure.

The main ANIE Industry Figures:

- 112 billion Euros of total turnover
- 480,000 employees
- 4% intra-mural R&D expenditure on total turnover

Company profile

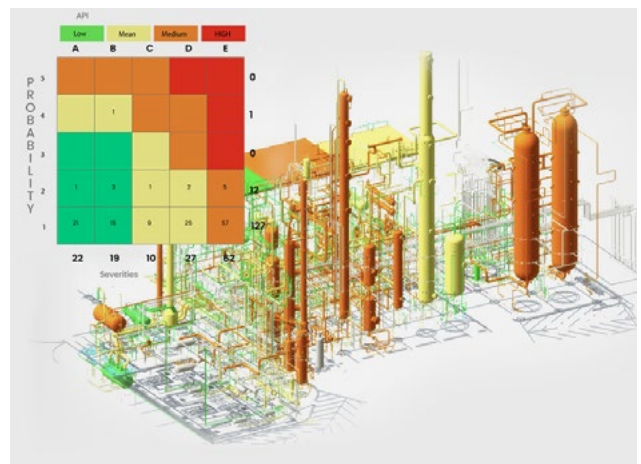

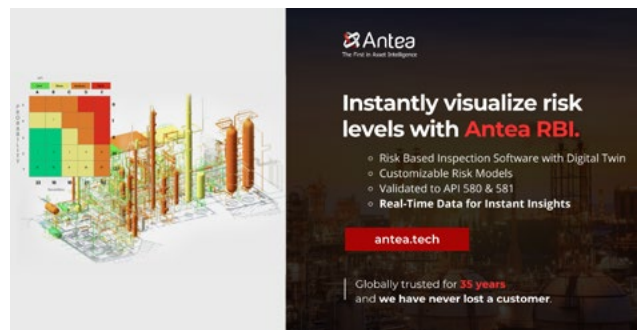

Antea specializes in RBI-driven asset integrity management software with 3D digital twin and mobility. Since 1989, Antea has facilitated digital transformation for operators of process plants in the oil & gas and petrochemical industries worldwide. The company's innovative engineering and IoT technologies deliver one-click access to intelligent asset data for improved maintenance, reliability, and risk mitigation. Their solutions are backed by unparalleled data management services, delivering complete support from implementation through to sustainable operations.

Unique value Point

Our company has been in business for 37 years serving single and multi-site operators. Our platform's IDMS & RBI modules are fully integrate. Antea Platform offers intelligent 2D P&ID, PFD, Maps, 3D models, 3D Point Cloud (digital twin) and integrates to ERP/EAM/CMMS and other third-party platforms to create a single version of the truth. We also offer a Mobile Suite for data collection.

Company profile

Your trusted partner for control valves and topside valves for FPSOs. For 40 years, our business has been about regulation. We produce valves in all materials, except cast iron and plastics. We support you through every stage, from preliminary sizing to final delivery, ensuring full and personalized support. In-house production: the entire process is done internally (excluding heat treatments and NDE) for maximum quality control.

Unique value Point

Key features:

- Flexibility: adaptable processes and products to meet every need.
- Speed: quick responses and fast deliveries.
- Tailored solutions for specific process conditions on request: custom valves available on request.
- After-sales support: on-site and remote assistance to ensure business continuity.
- Size optimization: we simplify the final design step, easing the workload for EPCs.
- Economic efficiency: reduction of Total Cost of Ownership, from purchase to maintenance.
