MADE IN ITALY

BENVENUTI!

Dear visitors,

I would like to welcome you to the joint booth of the Italian Trade Agency at Heimtextil 2026, the leading international trade fair for home and contract textiles and textile design.

This year 16 Italian companies will exhibit in Halls 3.1, 4.0, 5.1 and 6.1. The spectrum ranges from established, internationally successful traditional companies to up-and-coming newcomers. With their innovations in the sectors of decorative & furniture fabrics, fibres & yarns, smart bedding, bed, bath & living and textile design, they will provide visitors with information about their products, emphasizing the creative flair of the Land of fashion and design.

According to data released by Confindustria Moda, the Made-in-Italy textile sector closed 2024 with total turnover of €7 billion, down 8.8% compared to the previous year. In the first quarter of 2025, woven fabrics recorded a 6.9% decline. Knits, however, showed clear signs of recovery: after a sharp 20.7% drop in the first quarter of 2024, they grew by 11% in the same period of 2025. Textile exports recorded an overall decline of 2.3%, bringing foreign turnover to €754 million, despite increases of 1.1% for cotton, 1.2% for linen and 1.6% for silk. There was a slight increase in non-EU markets, while EU markets recorded a decline, with France and Germany remaining the top two destination markets.

Heimtextil 2025 saw an increase of 10% in visitors and 96% of international participation among exhibitors. The content programme centered on AI-driven design, sustainable production processes and future interiors.

In renewing my wishes for a successful participation at Heimtextil 2026 and fruitful new business prospects, our Berlin Office remains at your disposal for any information and assistance you may require.

Yours sincerely,

Ferdinando Fiore

Director ITA Berlin Office
