# Italian Participation at FIND Design Fair Asia 2023

21 – 23 September 2023

Level 1, Sands Expo & Convention Centre,  
Italian Pavilion @ G13-G14 & G23-G24

## AMBASSADOR'S MESSAGE

We are thrilled to be once again part of FIND – Design Fair Asia 2023, and witness the next generation of consumers being captivated by the sheer brilliance of Italian craftsmanship and contemporary interiors.

This year's edition will spotlight Italy's prominent position as a top exporter of furniture to Singapore, including a special section dedicated to Italian exhibitors: "The Italian Design Futures Capsules", organized by The Italian Trade Agency (ITA), with the support of the Embassy of Italy in Singapore. Designed by the prestigious architecture studio Stefano Boeri Interiors, the Italian Pavilion will showcase the latest and most innovative designs by 29 Italian companies, while offering visitors the opportunity to participate in workshops and masterclasses curated by industry experts and opinion leaders.

I am also pleased to announce that new to this year's edition will be the unique exhibition "Italia Geniale", created by the Italian Industrial Design Association (ADI) and supported by the Italian Embassy and the Italian Trade Agency in Singapore. The collection includes a selection of over 80 world-famous icons of Italian design, many of which have been recognized with the prestigious "Compasso d'Oro" award".

**DANTE BRANDI**

Ambassador Designate of Italy to Singapore

The interior design market is a thriving industry. Last year Italy ranked 1st as the European supplier of furniture to Singapore, with an export value of 59.8 million euros, recording a significant growth of 16.7% compared to 2021. Between January to April 2023, Italy maintained its top position, with a total furniture export of 20.1 million euros, marking a growth of 10.63% compared to the same period in 2022.

FIND – Design Fair Asia 2023 promises to be a remarkable platform for the entire regional architecture and design community to draw inspiration, network, and foster business opportunities between Italian and Asian stakeholders.

I wish to thank Fiera Milano, DMG events, Singapore Exhibition & Convention Bureau and the Design Singapore Council whose support was crucial to the realization of the event.

ITALIAN TRADE AGENCY

## Italian Trade Agency

**ITA - Italian Trade Agency** is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion, and training to Italian small and medium-sized businesses. Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

The network. Through its headquarters in Rome, an office in Milan, and a global network of 79 offices in 65 countries, linked to Italian embassies and consulates, the Italian Trade Agency provides information, assistance, promotion, training, and cooperation in the industrial, consumer goods and services sectors. The Italian Trade Agency collaborates with Italian

Regions, Chambers of Commerce, Industry and Trade Associations and other public and private organizations.

Every year, ITA worldwide offices carry out hundreds of promotional projects and provide personalized services and assistance to thousands of Italian companies. The Italian Trade Agency also assists and supports foreign companies that want to establish or expand business and trade relations with Italian companies or to invest in Italy.

The main services offered to Italian companies by the Italian Trade Agency to increase the flow of exports and investments between Italy and the rest of the world are:

- information and assistance
- identification of commercial partners
- visits to international trade shows and industrial districts
- support for investments abroad

Our company HISTORYA is based near Venice, Italy.

For over thirty years we have been working to enhance the environments with the interior and exterior decoration made entirely by hand for commercial and residential projects.

In the location, skilled craftsmen add various finishing touches, enhancing the beauty of the artwork and giving the opportunity to the end customer to assist the artist in action.

### Products

We can create bespoke and exclusive paintings for any modern or antique space. We can work with you to ensure we create a piece of art in line with either your personal taste or the brand guidelines.

Our paintings are crafted on canvas with natural pigments, that guarantee the longevity of the artwork. Once the masterpiece is completed, the canvas is carefully rolled, shipped, and applied on-site.

We are Syntarqui, a company focused on the development of high-tech fabrics for architecture and design. Over 10 years ago we created Arquifil, a range of fabrics specifically engineered to solve the problems with metallic meshes, filling the technological gap in this sector.

Our made in Italy manufacturing guarantees the quality and craftsmanship typical of traditional Italian weaving.

### Products

Our mission is to provide innovative, high-performance metallized fabrics to achieve the best aesthetic and functional results in your glass projects.

With Arquifil, we offer a unique combination of technical performance, enabling the realization of cutting-edge architectural projects.
