Ljubljana, October 8th, 2026

Italian Trade Agency (ITA)

ITA-Italian Trade Agency is the Government agency that supports the internationalization of Italian companies and promotes the attraction of foreign investment in Italy, in line with the strategies of the Ministry of Foreign Affairs and International Cooperation. ITA works to develop, facilitate and promote Italy's economic and trade relations worldwide, with a strong focus on SMEs, innovative enterprises, and strategic partnerships.

With headquarters in Rome and an office in Milan, since 1926 - marking 100 years of activity this year - ITA operates through a worldwide network of overseas offices coordinated by Italian diplomatic missions, working closely with local authorities, Chambers of Commerce, trade associations, and public and private stakeholders.

On this occasion, together with ANCMA (Italian Two Wheels Industry Association) and Assosport (Italian Sporting Goods Industry Association), ITA supports a selected delegation of thirteen Italian companies in the cycling sector, to explore new business opportunities in Slovenia.

ANCMA

Since 1920, ANCMA has been the trade association that brings together, protects, and promotes Italian companies - and now foreign ones as well - involved in the sectors of two - and three - wheeled vehicles, quadricycles, bicycles, and related parts and accessories.

ANCMA is a member of Confindustria and, as such, plays a key role in the representative system of Italian industry.

"Only through unity and cohesion can one be strong and competitive in the global market today".

Cicli Adriatica

Founded in 1946, Cicli Adriatica is an Italian bicycle manufacturer celebrating its 80th anniversary in 2026.

Based in Pesaro, the company combines long-standing cycling tradition with modern production and a strong focus on the Adriatica brand.

Our range covers bicycles for all ages and uses, from children's and junior bikes to city, trekking and mountain bikes for adults. In recent years, Adriatica has also developed an increasingly broad range of e-bikes, offering solutions for urban mobility, leisure, trekking and off-road use.

With production and assembly in Italy, Adriatica stands for experience, reliability and a constantly evolving product range.

FIVE

FIVE is an Italian company, based in Bologna, that designs, assembles and distributes eBikes with 4 brands:

- Wayel,
- Italwin,
- Garelli and
- Armony.

FIVE also distributes eScooters.

Gregario

Gregario is an Italian engineering lab dedicated to cycling innovation. Alongside its B2B services, Gregario is establishing a B2C boutique atelier utilizing proprietary technology to produce integral monocoque frames tailored to rider dimensions.

Built on a patented variable-geometry mold, the Gregario VERA platform serves as the foundation for a range of discipline-specific products, starting with the VERA AR (Aero-Road).

By overcoming the limits of traditional carbon wrapping and co-molding, Gregario preserves fiber structural continuity, eliminating bonded joints and parasitic weight. Each framekit is custom-crafted through direct consultation with riders and bike fitters or via digital anthropometric mapping.

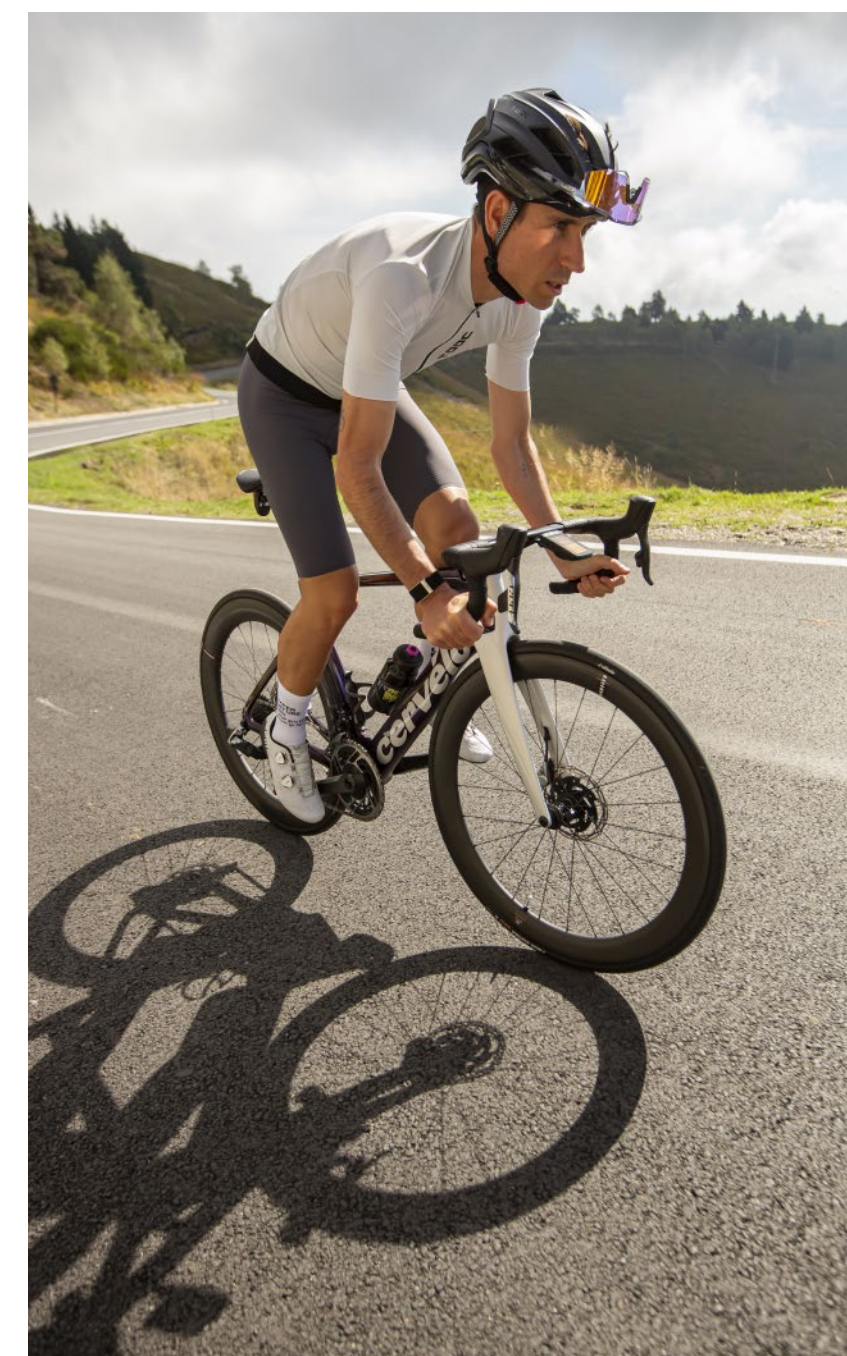

Mandelli

We started as a garage for mopeds in 1945. Over time and with great dedication, we became pioneers in the wholesale distribution of Cycle and Moto products in the 1980s, until establishing ourselves in the new millennium as leaders in the Italian two-wheeler market.

Today, with our 5 Premium Brand of our own, Tucano Urbano, T.ur, TAAC, Eleveit, and Brera Cicli, we are a solid reference point for the sector, both nationally and internationally.

Driven by Passion and guided by Concreteness, we embed Innovation and Value in each of our products. With one goal: to encourage as many people as possible to choose two heels every day.

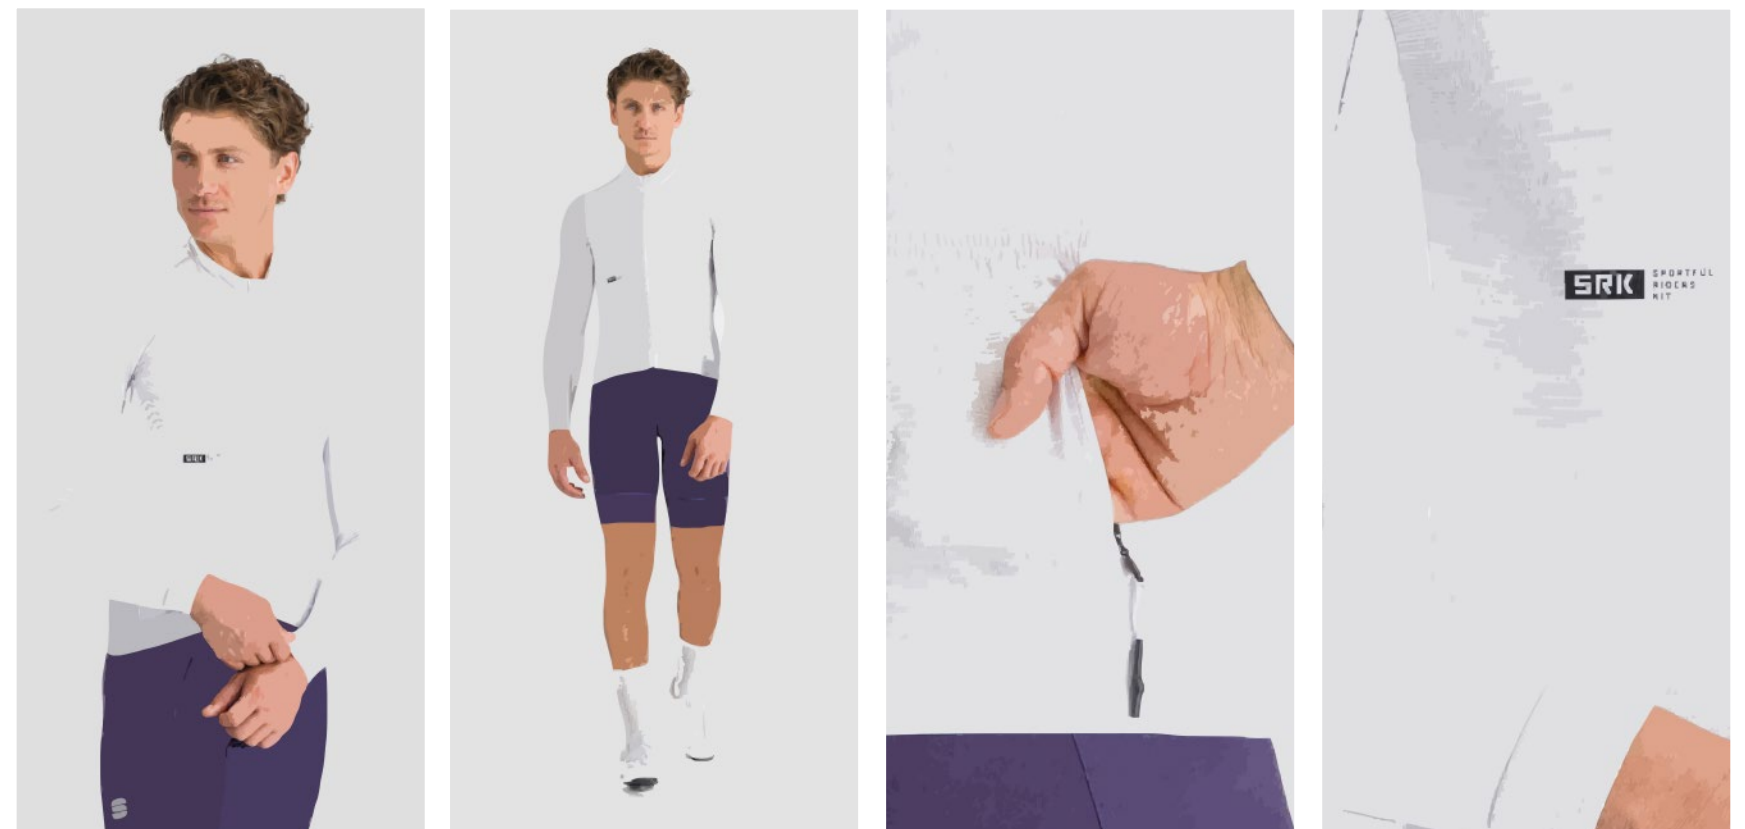

Manifattura Valcisman

Manifattura Valcisman is an Italian leader in technical sports apparel, internationally recognized for quality, innovation, and design.

Through its brands Castelli, Sportful, and Karpos, the company develops collections that blend advanced materials, performance, and style for cyclists, outdoor athletes, and sport enthusiasts.

Castelli stands for excellence in professional cycling, Sportful delivers technical solutions for cycling and winter sports, while Karpos focuses on the outdoor world.

The company continues to grow while maintaining a strong bond with its territory and manufacturing heritage.

Rudy Project

Founded in 1985, Rudy Project is recognized worldwide for its performance eyewear, engineered for optical clarity, adaptability, and impact resistance, and its bike helmets, developed with a focus on protection, aerodynamics, and comfort.

In addition to sunglasses and helmets, Rudy Project has achieved excellence in the development of prescription solutions for sports. Our advanced optical technologies and customizable systems have set new standards in the industry, making high-performance vision accessible to athletes with corrective needs.

These products have not only enhanced the performance of countless sports enthusiasts but have also made Rudy Project a highly recognized and sought-after brand in optical stores around the world.

Saby Sport

Saby the passion of true "Made in Italy".
This is the slogan that sets us apart.

Pride to be Italian, and to propose in the globalized world the beauty the quality, the comfort thanks to the craftsmanship of a garment designed, conceived, developed and completely produced in Italy.

A true Made in Italy that opens and closes its production cycle within the company, that is, at Km zero having attention to detail thanks to the research, selection and choice of the best materials, highly technical, innovative, increasingly lightweight and performance, comfortable breathable and ergonomic pads.

Santini

Santini was founded in Bergamo in 1965, driven by the passion of Pietro Santini. Since then, we have been designing and manufacturing technical cycling apparel in Italy, managing every stage of the process in-house, from design to production.

Designers, pattern makers, seamstresses, technicians, and production specialists work side by side every day. It is through this combination of different skills, together with our ongoing dialogue with the world of cycling, that our garments come to life.

For over sixty years, we have worked according to the same principles: fit, performance, comfort, and durability. These principles guide our choice of materials, our product development, and the way we manufacture every garment. The experience we have built over time is the foundation from which we continue to evolve.

Schiano

SCHIANO BIKES – OVER 100 YEARS OF PASSION FOR CYCLING

Founded in 1923 in Frattaminore, Italy, Schiano Bikes is a historic Italian bicycle manufacturer with more than 100 years of experience in the cycling industry. Today, three generations of the Schiano family continue to develop the company with the same passion for bicycles, combining Italian heritage, manufacturing experience, innovation and attention to market trends. Schiano offers a wide range of bicycles designed to meet the needs of different riders and markets, from city and trekking bikes to mountain bikes, children's bicycles and electric bikes (e-bikes). Our product development focuses on design, reliability, functionality and an excellent quality-to-price ratio, with solutions suitable for both everyday mobility and leisure cycling. Particular attention is dedicated to the development of e-bike solutions, combining modern electric assistance systems, carefully selected components and contemporary design to provide comfortable, practical and accessible mobility. With a strong focus on international markets, Schiano Bikes works with distributors, retailers and commercial partners across Europe, offering a flexible product portfolio and a long-standing expertise in the bicycle sector. From Italy to Europe, since 1923.
