COME DISCOVER A BRAND
NEW BATHROOM EXPERIENCE

Alice Ceramica is based in Civita Castellana, 50 km northeast of Rome, Italy. Since 1998 we have been perfecting our production of Italian washbasins, WCs, bidets and shower trays, all rigorously made in-house in our factory located among the gorgeous Tuscia hills. While we may be a young company, we pride ourselves for being creative and ambitious to challenge the traditional dogmas of the sanitary-ware industry. Captivating and never seen before lines, high attention to customer experience and a modern mindset have quickly earned us the reputation of a new key player in a town that is home to some of the leading brands of sanitary-ware in the world. It is no surprise that the heritage of the region and the long-standing traditions in ceramic-working heavily shaped Alice's ability to exceed any expectations in terms of design and reliability. Quality, innovation and a hint of pride makes our creations unique.

Our company was born in Italy a century ago, with a history of three generations. The work of our design is not only the product, but this product is influenced by the beauty of the works of Italian art and architecture present in our cities. One example is the Galileo armchair, whose back is inspired by the famous Piazza del Campidoglio in Rome. The new creations interpret the change of our time, expressing into new products, an aesthetic design innovation, joining good taste, elegance and preciousness. The company offers a wide selection of woods, which are wisely worked, following the knowledge of high cabinet making. Our company also contributes concretely to the respect and protection of our planet using reforestation woods. We produce tailor-made for our partners, maintaining the Carpanelli identity, thanks to our internal design studio. In this way we are able to offer an interiors design and high manufacture service."

Ceramiche Siciliane Ruggeri produces beautiful hand painted ceramics continuing the centuries-old tradition of Caleca in Patti. Creation, Design, Production is carried out in our modern Sicilian plant. We are specialized in tableware, home decoration, lava stone tables, tiles. In particular, the success of our tableware is due not only to the use of non-toxic colours but also to the special strength of our clay that make our products suitable for microwave, dishwasher, oven. Inside every piece made by hand there are the skills, the discipline, the creativity and imagination of our Italian artisans. Our ceramics, both in bright colours and in almost impalpable pastels, communicate a message of authentic love. The love of those who made them with their own hands, the love of those who buy them for themselves or as a gift, the love for Patti, the love as desire, passion and joy of living.

The lamps are intended to be a crossover between vintage style and latest lighting technology. They display original, unaltered bicycle components. The electrical system is equipped with a high capacity LED strip (23W x meter / 4000k / 1900 lm) and an internal wiring system with certification according to European and non-European standards. Marmi Faedo is an Italian company who works all kind of natural stone since 1962.

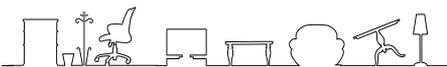

From many generations we own a quarry with the unique and exclusive GROLLA, a very hard limestone, similar to a granite for his technical characteristics. GROLLA is unique because it is quarried inside an old Volcano: water absorption is less than 0.3%; it does not stain; it is not attacked by salt and chlorine.

Above all its density makes it resistant to air pollutants keeping its beauty. Due to its hardness and density, we can work in any kind of weather condition and GROLLA is particularly suitable for very cold climate as well as buildings by the sea.

For all these reasons we can realize all kind of exterior and interior projects.

We can also work with 1 cm thickness, do special cut to size, solid pieces and in very large panels.
