THAIFEX-Anuga Asia 2022

24th - 28th May, 2022

Impact Hall 8
Impact Muang Thong Thani, Bangkok, Thailand

In Collaboration With

ALMA
ASSOCIATION OF LOCAL MARKETING AGENCIES

Welcome Address by the Ambassador of Italy to Thailand

It is once again that time of year where we announce our attendance at The International Exhibition of Food & Drink, Hotel, Bakery, Restaurant & Foodservice Equipment, Supplies & Services: THAIFEX - Anuga Asia 2022 - and this time without restrictions related to the pandemic. Italy is of course present with some of its best companies in this field. We strive to bring expertise and top quality products, to supply not only Thailand but the entire ASEAN Region with the best food and beverage products, in order to sustain the growing demand for high quality food and beverage, also supported by our promotional activities in the framework of the yearly 'Week of Italian Cuisine in the World'.

The location of the Italian pavilion will be Impact Hall 8. The pavilion will provide space for a range of Italian companies and importers/distributors with the aim to promote Italian food, beverages, and alcoholic beverages. We are proud to note that this year there will be more than 60 well-established and new Italian companies and 17 importers/distributors participating in the event.

In addition, the Italian Trade Agency, supported by the Embassy of Italy, will offer special activities in the pavilion for visitors, such as a dedicated live cooking demonstration managed by Italian chefs and representatives of Italian restaurants, a wine tasting session with the presence of professional sommeliers and networking events.

The goal of such activities is to help and support the presence of Italian companies at an international scale. I am extremely proud that our delegation will be bringing to THAIFEX 2022 the best food and beverage products. I trust this will be another great chance for the exhibiting companies to enhance their business network and further develop and innovate their products according to the local needs

Lorenzo Galanti
Ambassador of Italy to the Kingdom of Thailand

Welcome Address by the Trade Commissioner of Italian Trade Agency Thailand

For this year's ThaiFex Anuga 2022 event, I'd like to send my warmest welcome to every exhibitor and attendee at Asia's most prestigious trading channel for Italian food, beverages, and vineyard products.

Gastronomy and winemaking in Italy are the most active sectors in the country, with a steady increase in popularity and a strong international presence. The Italian Trade Agency (ITA) will continue to support Italian firms participating in ThaiFex Anuga 2022, recognizing the importance of the exhibition as a forum for connecting with ASEAN and larger Asian markets, which is the second largest exporting destination for the Italian gastronomical and winery sector.

This year, I am honored to announce that my office, The Italian Trade Agency (ITA) will be hosting the Italian Pavilion in collaboration with the Italian Embassy in Bangkok and other important partners. In addition to that, we will be supporting more than 60 Italian companies from the gastronomical and winery sector, which some are represented by their importers and distributors. In this catalogue, you may find additional information and product details of the participating companies.

I believe that the Italian companies at the event will be great representatives of the Italian Food and Beverage sector, which is well-known for its finest products. Therefore, I would like to invite you to visit the Italian Pavilion to explore and network with these companies. As the Italian Trade Commissioner, I will be present at the Italian Pavilion along with my team and interpreters to assist business negotiations between our participating companies and you.

I genuinely wish you a successful participation at ThaiFex Anuga 2022.

Giuseppe Lamacchia
Italian Trade Commissioner in Bangkok

ITALIAN TRADE AGENCY

ICE - Agenzia per la promozione all'estero e

TRADE AND INVESTMENT

OPEN DOORS TO A WORLD
OF OPPORTUNITIES

Italian Trade Agency - ICE

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses.

Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

ICE provides a wide range of services overseas helping Italian and foreign businesses to connect with each other, among which:

- Identification of possible business partners
- Bilateral trade meetings with Italian companies
- Trade delegation visits to Italy
- Official participation in local fairs and exhibitions
- Forum and seminars with Italian experts

The ITA's Bangkok Office, in charge also for Myanmar, has been operating in Thailand for more than 30 years, helping link Italian-entrepreneurs with the local partners and supplying companies with commercial support.

Lazada

Lazada

Lazada Group is Southeast Asia's pioneer eCommerce platform. For the last 10 years, Lazada has been accelerating progress in Indonesia, Malaysia, the Philippines, Singapore, Thailand and Vietnam through commerce and technology. Today, a thriving local ecosystem links our consumers to more than 1 million actively-selling sellers every month, who are transacting safely and securely via trusted payments channels and Lazada Wallet, receiving parcels through a homegrown logistics network that has become the largest in the region. Lazada aims to serve 300 million shoppers by 2030, and be the best at enabling brands and sellers in digitalizing their businesses. In 2022, the Lazada Foundation was set up to empower youths and women for the digital future, close the gender digital divide and uplifting communities by creating positive impact. More information can be found here <https://group.lazada.com/en/foundation/>.

The Authentic Italy campaign on LazMall, Lazada Thailand

The Italian Embassy in Bangkok and the Italian Trade Commission in Thailand partnered with Lazada Thailand last August for a year-long initiative that brought high quality Italian brand and products to the doorstep of Thai shoppers. Called "Authentic Italy," the Italian pavilion on LazMall, Southeast Asia's largest virtual shopping mall, was the first one on an eCommerce platform. Scan the below QR code and enjoy made-in-Italy products at Italian Pavilion "Authentic Italy" on LazMall!

Acetaia Marchi currently offers different identities of Balsamic Vinegar of Modena I.G.P., Organic Balsamic Vinegar of Modena I.G.P. and Traditional Balsamic Vinegar of Modena D.O.P., which differ from each other in terms of refinement, ageing, taste and bouquet. In any case, we offer authentic and genuine products, composed of Cooked Grape Must and Wine Vinegar, free of thickeners, colorants, preservatives, antioxidants, sweeteners and added sulfites.

We use a natural, artisanal, manual and traditional manufacturing process to make our products. This is more time-consuming than industrial procedures, but it allows us to bring the typical products of our land to our customers' tables in the most excellent way from every point of view.

The company "Acetificio Andrea Milano s.r.l." founded in 1889 is one of the main and oldest vinegar manufacturer and since then has refined the techniques of production without ever losing sight of the great Italian wine tradition. The first beech chipboard barrels has been replaced by modern acetifying machines, but none of the heritage of tradition and experience, matured over the last 100 years has been sacrificed. The company exports to more than 60 countries worldwide. Acetificio Andrea Milano has three productions plants, the main one located in the Industrial Area of Acerra, near Napoli port and main highways junctions, the historical factory in Napoli is now dedicated to the production of dressings and glazes and the Modena factory represents the pride of the production of the Balsamic Vinegar of Modena. Andrea Milano is focusing on the organic market launching a new Deto vinegar line.

VARVELLO IV generation family in vinegar

The Balsamic Vinegar of Modena PGI, known as the traditional specialty of Italian gastronomy, comes from the skillful mixing of aged wine vinegar and cooked grape must from selected grape varieties

The maturation in the cellars of the typical area of Modenese and in particular in the oak barrels, gives it a dark brown color with reddish reflections, a sweet and sour and red fruity flavor (with a prevalence of plum and cherry), balanced and pleasant to which

The difference between a Balsamic and the other lies in the concentration of grape must (the second ingredient in order of importance - which in addition to giving greater density to the product gives sweetness and harmony to all dishes with a particularly strong character!

But grape must is not always the second!

Born in the heart of the Modena balsamic vinegar district: here the wine vinegar aged in the wooden barrels of the Varvello Cellars

The grapes are always harvested strictly by hand and the Primitivo grapes are harvested twice, with the largest bunches being picked first, in August. The remaining bunches are left to develop a higher sugar content, which will yield a higher alcohol content, and are harvested about two weeks later in mid-September. Agricola Erario is particularly attentive to the quality of its products and pays considerable attention to the demands of its customers, especially when it comes to choosing a particular type of wine or customising a label for a specific market. The estate's products are distributed both in Italy and abroad.

The family history is intertwined with that of Abruzzo's viticulture ever since.

With the passing of years and generations, passion and determination are never missed. The experience of the past has continued with family dedication. Ettore, has emphasized technological innovation, gaining both grape harvest and wine production. Coming from northern Italy, the Galasso family has settled in Abruzzo since the late 17th century. The patriarchal family has always worked in the production of extra virgin olive oil, fruit and grapes. From the 1960s, the family has undergone a complete change in its organization by dividing the business into various sectors.

Anna Spinato Winery was founded in 1952 by Pietro Spinato, Anna's father, who immediately understood the enological potential of this magnificent area. The company is located in the Veneto region in Ponte di Piave, a town with a strong wine vocation, placed between Venice and the Dolomites, in the heart of the Prosecco DOC production area and at the foot of the Conegliano Valdobbiadene Prosecco Superiore DOCG hills. A territory characterized by the presence of the historic Piave river, which strongly influences viticulture by giving the wines freshness and minerality.

Anna Spinato's story begins there, alongside her father, conquered by the ancient charm of work and town festivals, by the magic of the fruit turning into wine, by the crazy dashes to Venice to deliver it to the Bacari, the typical Venetian taverns. Happy memories that have fueled her passion.

The history of the bixio family begins in Soave, a small village near Verona. A high rank military from Genoa, named Nino Bixio, was fighting at the time alongside Garibaldi in the battle of Custoza, near Verona, on 24th June.1866 After the glorious battle he met and entertained a relationship with a local noble women that gave him a child, named Alfonso who later managed to acquire some Vineyards in the area that today is the classic-area of Soave allowing four generations to cultivate that very same piece of land. This is why, the Bixio family has gained considerable experience in the local winegrowing traditions. Today, the Azienda Agricola Bixio is a modern reality in the wine landscape who not only embraces and promotes the traditional products of the area, but also uses the latest technology to guarantee high standards in quality control.

Cantina dei Vini Tipici dell'Aretino" is an Association of more than 400 Winegrowers, owners of more than 800 hectares of vineyards in the Province of Arezzo.

Established in 1970 by first members, the winery began its business the following year with the vinification of 10,006 quintals of grapes.

Members and amount of grapes have progressively increased; by law, all members must give all their grapes to the company. During the last decades, the company has also financed the renewal of most of the members' vineyards, thus investing in new clones, new varieties of qualitatively excellent vines with adequate planting density.

The average annual contribution is more than sixty thousand quintals of grapes, divided by about one third each of our denominations, DOCG Chianti, IGT Toscana e DOC Val-dichiana Toscana.

The Cantina di Solopaca extends along the foothills of the National Park of Mount Taburno, in the province of Benevento (80 km from Naples), an area historically known as Sannio, which has always been dedicated to viticulture. The vineyards are located in an area that all of which are situated on hills ranging between 200 and 400 metres above sea level and over which the Mediterranean sea breeze blows.

The soil is rich in minerals thanks to the vicinity of Vesuvio and is considered, since Greek times, to be the best for wine growing; in all there are 1300 hectares of vineyards ... where there is a deeply rooted passion for wine.

The grapes are grown with dedication throughout the year and are then harvested by hand. They are brought into the winery where they are carefully selected and, as a result of the right balance between traditional and modern technological methods.

Coppi Winery has been producing wine for over 40 years, but it has been for more than 100 years that the family is devoted to viticulture. It currently owns 100 hectares of vineyards in Puglia, between the South-East of Bari to Salento: we are in the cradle of the DOC Primitivo di Gioia del Colle and Negramaro. There are also another 100 hectares permanently rented and run with meticulous care, from the vineyard to the cellar. Coppi Winery, as per company policy, produces wines only from 100% autochthonous vines: Primitivo DOC Gioia del Colle, Negroamaro, Aleatico, Falanghina, Malvasia Bianca, and Malvasia Nera. They are ennobled by an excellent winery technique, respectful of the grape varieties, both in blends and mono-varietals, obtaining authentically Apulian wines, highly appreciated by international palates.

CasalFarneto is a family owned, independent wine producer, included amongst the top producers of the region (cfr. Ian d'Agata).

With its 35 hectares of vineyard, CasalFarneto combines technology, tradition and sustainability to produce wines of excellence. Under the shade of "Farneto oaks", from which the Estate gets its name, the farmhouse boasts the cultivation of white and red grapes, with particular attention to organic wine.

The main focus of the winery is the Verdicchio, the most awarded white grape of Italy, producing 10 different wines from it (from organic, to champenois, riserva, botrytis, passito etc.). But the production also counts on the main varietal of Marche region, including Lacrima, Montepulciano and Pecorino.

Starting from year 2021 a new path towards sustainability has begun, thanks to the consultancy of the world-renowned winemaker Stefano Chioccioli.

Our cooperative was founded in 2012 by the merger of two historic companies on the Modena wine scene. The Carpi Winery, which was founded in 1903 and a pioneering example of Agricultural Cooperation, and the Sorbara Winery, the name that quintessentially identifies Lambrusco DOC.

We are a cooperative with over 1,200 grape growers. The reason we welcome grapes from over 2,000 hectares of different vineyards is to select the best raw material and allocate it to our different wines. There is a good Lambrusco for every occasion and for us, people of Emilia, toasting and celebrating is serious business.

We want to offer the world a great quality Lambrusco and Pignoletto, which are respectful of tradition but also symbols of energy and lightheartedness.

Our Giardiniera was born in 2005 in the 5 Sensi restaurant in Malo, to accompany a dish from the new menu.

Luciana, with a critical spirit, convinces Morgan to also prepare a version in a jar to take away.

From a simple sweet and sour giardiniera, a great success is immediately born!

In 2012 a laboratory dedicated to the preparation of the vegetable pickle was created, where the typical seasonal products are interpreted and where the glass specialties of Morgan and his family come to life, with the same gastronomic approach of the time, without compromise and looking for the highest quality. For the raw materials of our artisanal preserves, we have chosen to entrust ourselves to the Organisation of Fruit and Vegetable Producers of Veneto- They support and enhance the fruit and vegetable production of the territory by adopting cultivation techniques with the least possible environmental impact.

For more than 70 years, Yoga has been the benchmark for fruit juices in Italy, one of the longest standing, best-known and most popular brands among consumers of all ages. We believe that good fruit has much to offer and that's why our juices contain only the finest quality, picked when perfectly ripe and selected with skill and passion by our fruit growers.

Thanks to our experience and knowledge, we carefully process our fruit to preserve all its properties and to always achieve the richest, most original and authentic Yoga taste.

Yoga is part of Conserve Italia group, Italian leader in the food processing sector with 14,000 member producers and processing 600,000 tons of fruit and vegetables in its 12 production plants. Every day we aim to give consumers the highest guarantee of product quality, traceability and safety, bringing Italian excellence to tables around the world in the form of the finest Yoga Fruit Juices

Since 1994 Bioitalia has been manufacturing Premium Certified Organic Foods in both retail and foodservice sizes. Today the large assortment counts more than 130 items, matching the taste of the Mediterranean diet with the added values of healthy organic foods and Italian culinary traditions. Moreover, Bioitalia takes advantage of the voluntary certification according to the UNI EN ISO 22005:2008 standard to reach the complete "Traceability in the Food Chain" for tomato, wheat, and oil.

Positano Forno e Cremeria is an Italian company manufacturing traditional Italian dessert. Products quality and uniqueness have always been our main goal. Our mission is to develop the territory excellence, represented by the highest quality ingredients and the local business realities with which we choose to collaborate. We privilege the artisan work in order that our sweet or savory bakery products represent everytime a moment of delight. Our goal is that every product of "Positano Forno and Cremeria" is evocative of an emotion.

Mobile: +66 917434565

The winery was first born in 1921 and 3 generations have followed. The property counts about 40 hectares of land, whose heart is located in Piedmont, province of Asti and more precisely in the municipality of Castagnole Monferrato. Here, it is exactly where nature has created an ideal terroir for vineyards and a unique variety of landscape: wild and uncontaminated areas, meadows, woods alternate with vineyards, painting a picture of rural areas of ancient beauty.

Ferraris Agricola is a point of reference for the whole Ruchè di Castagnole Monferrato appellation in the world, the pride of a rediscovered appellation, the fruit of that countryside glory that has remodelled the hills of Monferrato.

At present, the winery produces 250,000 bottles, more than half of which is Ruchè, distributed in the main international markets. There are a total of 34 hectares of vineyards, divided into four estates.

Vini Naviganti embodies the Italian essence, its extraordinary vocation for viticulture and the diversity of its territories. Our work and our products certify the constant commitment to sustainability and innovation, in a vision that, starting from the distinctive elements of our productions, develops from the expectations of consumers in respect of the environment and the production cycles of our Earth.

Our brand tells about Italy and its history through wine. Vini Naviganti was founded in 2001 with the main objective of introducing on the international market a diversity of wines appropriately selected from the types of vineyards, native and not, present in the region, from the central and southern part of Italy, and nationally.

Our mission is to guarantee the customer excellent quality and consistency over time, while respecting the sustainability and shelf-life of the product, always considering a sustainable quality-price ratio.

**Gruppo
Germinal**

For over 40 years Germinal Group has specialized in the production of organic, healthy, functional, gluten-free and vegan products, for babies and adults, made with raw materials from controlled supply chains. With our three production lines are equipped to realize sweet and savoury organic snacks, fresh ready meals and pasta.

Thanks to the ability and expertise of R&D and Quality Department, we are up to produce a wide range of different products. Quality is the focus of our activity: the department is closely monitoring every stage of the production chain, from the selection of the supplier of the raw materials to the finished product to the shelf.

Our brands are found in all modern Italian large scale and specialized retail stores. Our specialization in allergen prevention and organic foods, combined with a growing awareness of the importance of a healthy diet for personal wellbeing, have attracted the interest of many operators from around the world.

Organic is our tradition.

The exceptionality of Lauretana water stands in its only 14 milligrams per liter of fixed residue, which make it the lightest water in Europe.

Lauretana is a water without contaminants and pollutants because it springs in an unpolluted territory at more than 1000 meters above sea level, a protected environment, without any industrial and agricultural settlement, and it flows deeply in an ancient granite bed which protects it from any contamination.

For its characteristics, Lauretana water is the ideal water for daily requirement, good for adults and children, perfect for athletes, appropriate for the preparation of baby food and for the new born, advised for pregnant women and during lactation.

Company name:

Mobile: +66 994264165

Le Morette is a family run winery founded in 1960 and located in Peschiera del Garda (Italy), in the thin belt that divides the southern bank of Garda Lake and the Frassino Lake, an important naturalistic site and jewel of biodiversity. Winery and vineyards are in the heart of the Lugana DOC area: the family run about 40 hectares mostly dedicated to premium Lugana, the most representative white wine. Now the third generation is on board represented by Fabio & Paolo Zenato, who are approaching the family business with the same philosophy their father Valerio used to teach them: to keep the maximum respect of the environment, applying sustainability principles in the vineyard and in the winery. The Company name expresses this green-soul as well: "le morette" is in fact the most popular mallard which populates Frassino Lake Bank. Another choice to emphasize the bond with the territory and the deep knowledge of all the natural factors which determine its uniqueness.

Menù has always tried to account for changing tastes with new products whilst ensuring constant use of quality ingredients, processing hygiene and packaging safety. A search for quality guaranteed at all times, from the selection of fresh product to particular care for the customer. Menù is not only strict in the way it applies laws governing food production using highly innovative technologies; it also uses highly professional staff, state of the art technology and control procedures. Without neglecting the creativeness and capacity of chefs who try out Menù's products every day, in order to propose increasingly original recipes. All Menù specialities are produced without preservatives and under the strictest control conditions. Ingredients are sourced locally from the Emilia countryside and from the major Italian and overseas food markets. The production cycle in terms of care, attention and cooking methods is nothing more than the normal workings of a traditional family kitchen.

The history of MGM Mondo del Vino began in 1991 when its establishment took place.

The company was founded by the pioneering vision of Alfeo Martini, together with partners Roger Gabb and Christoph Mack; all winemakers and professionals in the wine industry; whose precious collaboration gave rise to an innovative way of thinking, producing, and making quality Italian wine.

Since then the expansion of existing properties and new wineries were underway:

- In 2000, Barone Montalto was born in Santa Ninfa, in the province of Trapani;
- MGM Mondo del Vino expanded the production winery of Priocca in 2002;
- In 2010 the entry of Poderi dal Nespole was welcomed, an historic estate founded in 1929 in Romagna by the Ravaioli family, whose heirs continue to carry on the tradition within the Mondodelvino group.
- In 2011, Cuvage was founded in Acqui Terme, in the Italian cradle of Italian sparkling wine, with the ambitious aim of bringing its territory back to the notoriety of the past.

Nerea water, low in mineral content, springs out in Vallinfante di Castelsantangelo sul Nera (in the province of Macerata - Italy), in the heart of the National Park of Monti Sibillini. Its source, in the heights of the Appennines between Umbria and Marche with their many peaks over 2.000 metres and their uncontaminated, protected environment, guarantees the absolute purity of its origin, free from any source of pollution. Moreover, Nerea is bottled with technology of the art equipment, respecting the surrounding area according to the protective, environment-friendly philosophy of the National Park of Monti Sibillini. The Monti Sibillini Park Authority Board guarantees the quality of the water at its spring. Nerea water is extremely pure, with only 1,3 mg/L nitrates and it can be used to prepare newborn babies' meals, whenever breast-feeding is not possible (authorization from the Italian Health Ministry, by D.D. n°3725 dated 30 January 2007).

Pastificio Vietri was founded in 1890 and since then the company mission was to produce premium quality Italian pasta by old- fashioned Italian processing: bronze dies, slow drying at low temperature to ensure excellent products with intact nutritional values.

Nowadays Pastificio Vietri is the only Italian factory producing all regular shapes along with the beautiful and unique Italian Special "Formati" which make pasta Vietri the perfect Italian brand for retail and food service customers willing to offer the true Italian Pasta.

SINCE 1962
italasia

Pallini company, located in Rome, was founded by Nicola Pallini in a small village in the center of Italy, in 1875. The company was specialized in anise based liqueurs. They soon became famous for the quality of his Mistrà Pallini. Mistrà is a dry aniseed liqueur, generally drunk with coffee, on the rocks or with some water. As soon as the product was brought to the market it gained a huge success. In 1960 a brand new product was created that soon became the number 1 Sambuca in the US and many other markets: Romana Sambuca which is still the best selling Sambuca in the USA

Following this huge success Pallini decided to change its range of products to move to something which potentially could have been bigger than Romana Sambuca. Pallini Limoncello was created and after 7 years of intense work it has become number 1 limoncello in the USA and Duty Free worldwide

Pallini is a family-owned company, operating in Rome, Italy, established in 1875, that produces world known spirits and syrups.

A Family Legend

The generations bearing the Lazzaroni name have succeeded each other expressing entrepreneurs who have given very personal imprints to the business development: Giuseppe, Carlo, Pietro, Paolo, Luigi, Mario are the names behind which the legend Lazzaroni was born.

The new production technologies, the quality and originality of the products have always been the subject of great interest and research for Paolo Lazzaroni and his descendants, bringing the business reality to current levels of prestige and recognition in Italy and abroad.

Quality as a Tradition

The importance of quality in the Paolo Lazzaroni product lines has always been at the top of the scale of values: gold medals, coats of arms and several awards testify to this in the past; international success in today's reality.

We are specialised in the production of gluten free organic products. Marchesato Line has a his variety of products: pasta and flours.

Directly from the seed to your table' Pasta Natura's slogan: production of GLUTEN FREE PRODUCTS obtained from Italian supply chain ingredients naturally organic & gluten free. Our gluten free range of products (PASTA, BISCUITS and FLOURS) is born from the passion of the good food of the Italian culinary tradition and from the desire to discover new tastes. The mood has been 'let's focus on what we can eat and not on what we can't eat'.

For PASTA, by adding water, it is possible to obtain highly digestible, nutrient, protein, low glycaemic index, whole and healthy product. The bronze drawn creates a rougher product with exceptional cooking performance, thanks to the slow drying process at low temperatures, preserving organoleptic and nutritional properties, and keeping the natural raw materials colour and taste. Legumes pasta, whole grain pasta, gourmet pasta.

For BISCUITS, we offer 4 different tastes: Chocolate chips, Buckwheat, Cocoa and Hazelnuts, Corn Biscuits.

The nature of the soil, the wise and constant care of the vineyards and the traditional methods of cultivation and harvest which are still performed manually enable us to select the best grapes. These are unique qualities that have always distinguished the wines of Podere Volpaio, which we take care of with the only goal of creating productions with special features. Our "bio" philosophy represents the trait d'union between tradition and innovation. The goal we set ourselves constantly is to follow regulations and seek the most from a high-level production.

In 2000, the company joined the Growing Organic Project, according to which all synthetic chemical substances for pest control and fertilisation are totally excluded, in accordance with the provisions of the current legislation and under the control of the "Q Certificazioni" certification body, for the Control of Organic Productions (an entity authorised by the Ministry of Agriculture and Forestry).

The history of Principe di San Daniele S.p.A. started in 1945 in Trieste, when Stefano Dukcevic rented a warehouse and started to handcraft typical specialties of the Habsburg tradition: "luganighe di cragno", Vienna sausages and Prague hams. Supported by the commitment and professionalism of his workers, Stefano gradually transforms the small laboratory into the Salumificio Triestino Dukcevic.

In 1969 Stefano Dukcevic decided to take a risk and invested heavily in the construction of a new plant in San Daniele del Friuli, called "Principe" (i.e. Prince in Italian), with a revolutionary and technologically advanced design. He first introduced the automatic handling and the air conditioning system. Thanks to these innovation, the salting of raw hams became possible not only in the winter months, as it was until then, but also for every months of the year, compensating, when necessary, climatic changes and drastically reducing the risk of product defects.

History and tradition, Rizzoli Emanuelli is the oldest business in the sector, for which it received an award on the occasion of the 150th anniversary of Italian unification: a passion handed down from father to son, made up of values and traditions that have stood the test of time unaltered.

Craftsmanship, from cleaning and slicing through to packaging, every stage in the process is carried out in keeping with Rizzoli tradition, so as to preserve intact all the flavour of superior-quality fish.

Innovation, Rizzoli Emanuelli's winning strategy has always been the strong link between tradition and innovation, and it is this that has allowed the company to carve out a leading position for itself in the premium segment of the market, offering a huge assortment of products and recipes, thanks to constant investment in Research & Development.

Solana S.p.A. is a modern and dynamic company founded in 2001 and it's located in Regional Park ADDA SUD (Po Valley). The raw materials are cultivated according to the principles of integrated production (GAP). It is guaranteed a complete traceability of the agricultural practices from the sowing seed to the harvesting process. The site covers 135.000 sqm and has a built area of 22.000 sqm. It has a processing capacity of about 3.500 tons per days and 200.000 tons per year. A full range of tomato derivatives is obtained by means of the 9 production lines. The production is made following the GMP (Good Manufacturing Practises) and HACCP standards. The company has a quality system in compliance with BRC standards (AA). The products are certified for traceability standard (ISO 22005), Kosher, and Organic (upon request) as well. The factory is also certified FDA, SMETA 4 PILLAR, ISCC Plus, and has a system of Circular Economy.

Since 1990's, T&C delivers to its customers the finest quality of truffles, both raw and semi finished, achieving the highest levels of freshness and value.

By using exclusively, the best quality products and thanks to the leading technologies applied to the process, T&C conveys a product that keep its organoleptic features and at the same time maintains its freshness.

The commitment and the passion allowed us to deliver a top-quality raw product, that translated into achieving excellence certificates and prizes, that furthermore underlines the highest standards of this company.

Thanks to its reliability, innovative production technologies, and the perfect combination of "tradition and modernity", T. & C. products are able to meet all of the truffle lovers.

The Tedesco family has developed a food industry group which now sells their products in over 40 countries.

Tedesco Group's history begins in 1980 with the opening of a small bakery supplying fresh bread to shops and supermarkets in Rome. In 1996, they invested the proceeds of the bakery and thanks to a innovated product developed entirely within the company, opened the first brunch in Tuscany. The family has continued to invest in different food fields with communication and new acquisitions in the past years. In 2014 Tedesco Group acquired a company in central Perugia, famous for artisan pastry and the well known Piselli brand, which was also famous for production of industrial cookies with more than 20,000 square meters of covered area. Then, in 2016, they acquired the historic fine pastry brand Ore Liete from Perugia Nestlé and opened the new Croissant plant in Brescia.

Terre Cevico was founded, as a cooperative, in 1963, producing wine from grapes grown by its members throughout Romagna.

In the 1960s and '70s Terre Cevico began trading its wine, exclusively in bulk. A step forward, in the '80s and '90s, was that of selling in standard and larger-size bottles. Since 2000, in line with feedback from the market, Terre Cevico has started to produce and package wines in cartons and bottles for the HORECA channel.

Today Terre Cevico is a Group that operates principally in Emilia Romagna, but also with its own wineries in Veneto, Friuli Venezia Giulia, Trentino, Puglia. Terre Cevico's wines are present in 67 countries around the world, especially in France, China, Japan, the United Kingdom, the USA and South-East Asia, with a consolidated turnover of 167 million Euros.

Toschi Vignola is an Italian family company founded in Vignola, Modena in 1945; started from the production of the Ciliegia "Spiritosa" (cherries in liqueur) but also including the manufacturing of syrups that date back to the origin of our history.

After that, the company grew its presence in many markets and is now exporting its syrups portfolio in over 80 countries with a leading position also in the domestic market.

Nowadays Toschi Vignola developed 2 business lines of products such as:

Beverage with our over 55 flavours of syrups for food service in several formats as well as retail packaging formats;

Gelato ingredients including our famous amarena cherry in syrup, topping sauces and much more.

The company "spirit" is to tell, through its products, the excellence of the territory and of the Italian tradition.

Val D'Oca is the name of a splendid hill covered in vineyards of Glera, the white grape variety used to make Prosecco Superiore D.O.C.G. It is a triangle in the midst of typical hills of the Treviso Prealps, which here form a landscape that enjoys the status of a UNESCO World Heritage Site.

We are in the hilly area between Valdobbiadene and Conegliano, in the heart of the production zone of Prosecco Superiore, and this is just one part of the 1000 hectares of vineyards tended for generations by the 600 member growers who belong to the Cantina Produttori di Valdobbiadene, one of the most historic and important wineries in this world-famous production zone.

In the last few years, important investments have allowed the Cantina to completely update its technological plant in all fundamental stages for maintaining and highlighting the quality of the grapes, from the vineyard to the glass.

The Vetrere Company has always produced high quality agricultural products and is located in an area highly suited to Mediterranean farming: Apulia.

Ancient olive groves, vineyards of high quality wine grapes, have been managed professionally by the family from time immemorial.

The sun, the land and the mild climate do the rest and contribute in bringing the production to a high quality standard. Due to the striking contrast in temperatures between day and night in Puglia, grapes ripen slowly resulting in the development of powerful aromas, richness and concentration.

The cordon trained espalier vines surround the manor house, where the owners still live with their families.

Qubik caffè: coffee roasters and blend specialist in Trieste.

A good cup quality and a superb taste are the main characteristics of the prestigious coffee varieties which compose our Qubik coffee bouquet. Every fragrance and aroma is clearly reflected on the nose and the palate in all its nuances.

Total supervision of the supply chain: selection and control of the raw coffee (before and after shipment), support of professional coffee brokers (Switzerland and Holland), certified quality of the products.

To avoid any problem in quality field, despite the enormous amount of tests, we do buy the entire batch in order to assure a continuous quality of our products.

The roasting process is made in our production plant in Trieste as well as the packaging, selection and quality control of the goods.

Halal and Kosher approved.

Vitavigor S.R.L. produces breadsticks, bread substitutes and snacks.

Our Breadsticks lines are presented in formats and packaging designed to respond to the ever-changing needs of the consumers and suitable for different distribution channels.

We strongly believe in tradition and quality, in order to provide the customer with healthy and good breadsticks. For this reason, we use only natural ingredients, which allow us to have a highly distinctive end product. All our products are free of animal fats, to which we have preferred since the 80s only the king of oils: the Extra Virgin Olive Oil.

Zorzettig Wines, Friuli since 1874. Nature, authenticity, passion, quality

Wine is a pleasure.

Born from the generosity of nature, of human mastery and care, it becomes a gift.

It is a symbol of passion, life and conviviality. It builds relationships and enhances emotions in the flow of our everyday life.

Zorzettig classic line offers unique suggestions, in every single vintage.

The winery Selection is pure love for authentic values and small intense sensations, all this is Myò Vigneti di Spessa.
