The Italian Trade Agency in Toronto is proud to present a curated selection of ten outstanding Italian companies at this year's Interior Design Show.

Representing the best of Italian quality, craftsmanship, and innovation, these companies span a range of sectors including natural and sintered stone, decorative wall finishes, custom furniture systems, Murano glass, high-end leather, engineered wood, contract seating, and cutting-edge wellness technologies.

We invite architects, interior designers, builders, and industry professionals to explore the creativity, sustainability, and technical excellence that define Made in Italy design. Each company brings not only product excellence but also a deep commitment to customization, material research, and timeless aesthetics, ready to inspire your next project.

Government  
Agency

ice.it/en

The Italian Trade Commission, also known as Italian Trade Agency or ITA, is the governmental agency that supports the business development of Italian companies abroad and promotes the attraction of foreign investments in Italy.

Through a worldwide network of 79 offices in 65 countries, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses.

It also caters to the needs of Canadian companies interested in deepening their ties with Italian suppliers of goods and services.

ITA has been operating in Canada since the 1950s with offices in Toronto and Montreal, and expanded its presence in June 2023 with the inauguration of a Vancouver office.

Terrazzo flooring  
and cladding

Sustainable  
architectural  
surfaces

Agglotech is Europe's largest producer of terrazzo and is committed to promoting marble-cement agglomerates as versatile and sustainable flooring materials.

Made using only natural materials—Portland cement, marble aggregate, and water—the manufacturing process is entirely free of fossil fuels and synthetic resins, making it one of the most sustainable in the sector.

As a testament to this commitment, Agglotech has achieved Indoor Advantage Gold certification and the prestigious EPD (Environmental Product Declaration), both internationally recognized.

Their exclusive manufacturing process allows for the recreation of traditional terrazzo with a broad spectrum of customization in color and format.

The company boasts an archive of over 3,000 colors built up over the years, giving designers unparalleled creative freedom. Products on exhibit include terrazzo tile samples in various colors and sizes.

These offerings are 100% customizable and come with green certifications, making them ideal for environmentally conscious architectural projects.

Agglotech's continuing innovation in terrazzo positions it as a reference brand in both heritage restoration and contemporary interior and exterior applications.

Custom modular furniture systems

Wardrobes and interior storage solutions

Since 1958, Erba has been based in Italy's renowned "Furnishing District," located between Lake Como and Brianza, where the region's best manufacturing traditions meet world-class creativity and technological innovation. For over 60 years, the company has remained at the forefront of the Italian furnishing industry, upholding the finest Made in Italy values while continuously adapting its processes to meet contemporary production and quality standards.

Erba specializes in the production of wardrobes, walk-in closets, boiseries, and laundries. All systems are designed around the core principles of flexibility, customization, versatility, and premium quality. The collection offers 39 melamine finishes

@erba\_officialpage

as well as options in leatherette, fabric, wallpaper, lacquered glass, mirror, and transparent glass. Exhibited products include highly flexible systems, ideal for residential and contract projects. Erba's bespoke solutions stand out for their ability to adapt to the aesthetic and functional demands of diverse environments.

Noteworthy projects include contract work in New York City and Miami, as well as several high-profile residential developments in Italy, reflecting Erba's international reach and tailored approach.

*For furniture makers and interior specialists looking for premium Italian leather in endless color options.*

**futura leathers**

Futura Leathers is a leader in the production and export of premium Italian leather, serving the furniture, automotive, and leather goods sectors. Based in Northern Italy, the company is known for offering top-quality materials at competitive prices, backed by rapid global logistics.

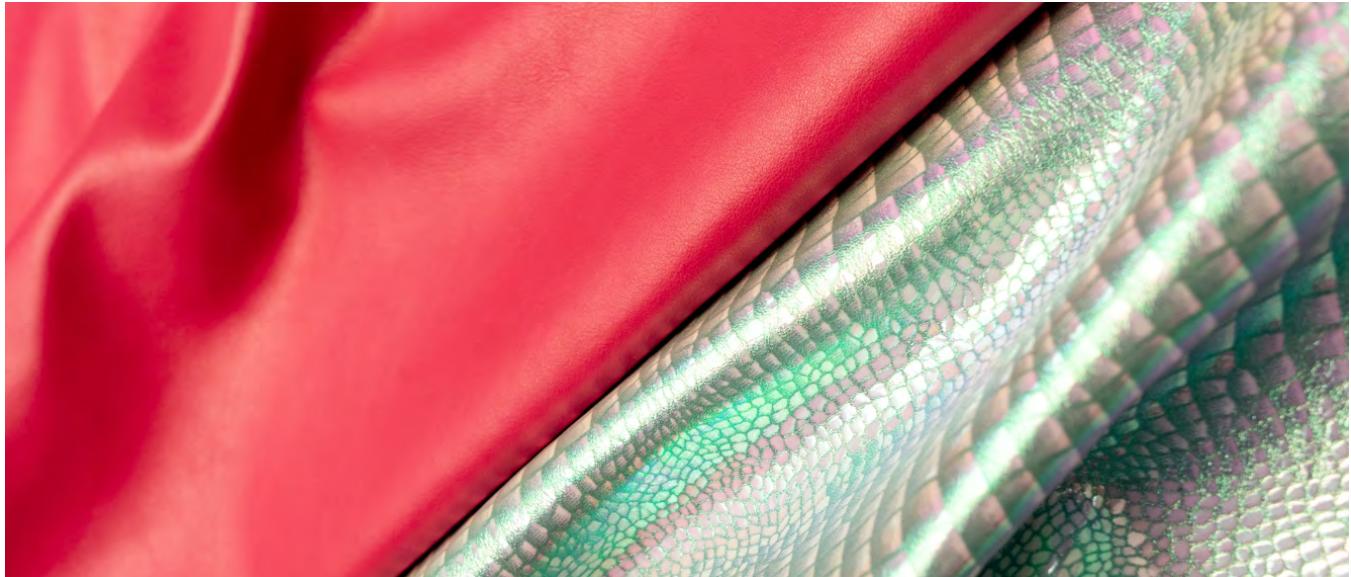

Leather, a by-product of the food industry, is recovered and transformed through tanning into a durable and versatile material. Futura's leathers offer exceptional strength, flexibility, and comfort, making them suitable for numerous applications.

Leather for  
furniture and  
interiors

Leather for  
fashion and  
automotive

@futura\_leathers

The "Leather Store" holds over 30 leather qualities in approximately 500 colors, available for immediate global dispatch—even in single hide quantities. The Collection presented at the IDS is drawn from this extensive warehouse range and includes over 300 colors.

Key innovations include the Leather 3D Configurator, an interactive online tool that enables clients to visualize materials in real time. Future updates include the launch of a new leather range, continuing Futura's commitment to flexibility, variety, and Italian excellence.

**grassi pietre**

Grassi Pietre is a historic Italian company specializing in the extraction, processing, and supply of premium natural stones. Based in the Veneto region and internationally recognized, the company brings together centuries-old craftsmanship and advanced production technology to deliver tailored stone solutions for architecture, design, and landscaping.

The stones range includes Pietra di Vicenza, marble, limestone, and granite, all available in a variety of finishes. Applications span façades, flooring, wall cladding, urban furniture, and bespoke elements. From extraction to finished product, Grassi Pietre provides end-to-end project support—from bathrooms and kitchens to

Natural stone for architecture and design

Custom stonework and decorative elements

statues and decorative pieces. The signature Pietra di Vicenza line, and objects from their Laboratorio del Marble will be exhibited at IDS.

Samples of newly added to the Palladio line, materials and innovations will be available for hands-on exploration at the show as well. Grassi Pietre's philosophy is rooted in authenticity and technical precision, working closely with architects and designers globally to deliver stonework that is elegant, durable, and timeless.

@grassipietre

# l'altra pietra

L'ALTRA PIETRA is a high-end manufacturer of sintered stone surfaces, crafted in Italy and designed for sophisticated architectural and interior applications. Defined by refined aesthetics, technical excellence, and timeless durability, each surface combines the beauty of natural stone with the performance of advanced sintered stone technology.

Exclusively distributed in Canada by Porcea Stone, L'ALTRA PIETRA offers designers and architects a curated collection of premium surfaces ideal for flooring, walls, countertops, and custom exterior features. The result is uncompromising design, precision manufacturing, and materials built to elevate contemporary

architecture and  
landscaping

@altrapietra

spaces. The product has been time and weather-tested for over a decade in many Northern European projects, further validating its reliability and endurance.

The collection also offers the added benefit of 1 CM and 2 CM complementary offerings to create a seamless indoor-to-outdoor flow in your upcoming design projects. The company specializes in sintered stone 2 cm, 3 cm, 5 cm and 1 cm pavers, urban furniture, and pool copings. Key exhibited products include outdoor pavers and urban furniture solutions.

Significant reference projects include Millennium Park in Chicago, the Ocean Terminal extension in Hong Kong, and the Asian Art Museum in San Francisco.

**saimex**

*For developers and façade engineers seeking zero maintenance outdoor wood alternatives and high-tech glazing.*

Engineered wood for outdoor applications

Fiberglass window and façade systems

SAIMEX develops advanced architectural materials for exterior and façade design.

Under the Ecolegno brand, the company offers engineered wood for outdoor applications, including decking and wall cladding. The products are known for customizable colors and shapes, high resistance to ice and water, thermal shock durability, and zero maintenance, making them ideal for hotelier and residential projects.

In parallel, the FIBRA line features innovative fiberglass window systems with passive low-E thermal insulation, oversized glazing, and a minimal, elegant design. These systems are engineered for harsh climate resistance and aesthetic clarity.

@fibrabysaimex

Key showcased products include Ecolegno composite wood decking and wall cladding, as well as fiberglass window thermal-break profiles.

Emerging developments include bamboo decking options and fiberglass façades, extending the reach of SAIMEX innovation. The company's solutions blend sustainability, technical performance, and Italian design into smart architectural systems.

Seating and  
lounge furniture

Office and  
hospitality  
furnishings

Founded in 2002, SITIA is a design brand specialized in contract seating solutions, deeply rooted in the Made in Italy tradition.

Combining sartorial craftsmanship with cutting-edge technology and innovative structural research, Sitia offers a product line that is as functional as it is emotionally resonant.

Sitia's production philosophy centers around "the human contract", a concept where furniture is not only a utility but an extension of human experience, emotion, and connection. Every product reflects precision craftsmanship, refined material selection, and international market experience.

Highlighted products include:

Chantal Chair: A refined chair with a retro design, curved wood shell, and optional cushion.

BonBon Social Ottoman: A versatile ottoman with a rounded design, perfect for lounges, offices, and retail spaces.

Dondo Movable Ottoman: A cube-shaped padded seat with a practical wooden support.

L-Air Chair: A visually light, ergonomic seat for offices, airports, museums, and homes.

Pav Modular Sofa: Organic modular seating designed by Marc Sadler.

Sitia offers full customization of products, packaging, and delivery—with no minimum order quantity.

All production is entirely based in Italy.

Digital fitness equipment

Wellness and performance training technology

Founded in 1983 by Nerio Alessandri, TECHNOGYM is a global leader in digital wellness and fitness technology. Technogym offers integrated ecosystem, powered by AI, includes connected equipment, digital services, training content, and mobile apps, enabling personalized workouts anywhere: at home, the gym, outdoors, or in healthcare environments.

Technogym operates in over 100 countries with 2,500+ employees. Every day, 70 million people train with Technogym across 100,000 wellness centers and 500,000 homes. It has also served as the Official Supplier to the last 10 Olympic and Paralympic Games.

**Featured innovations:**

Technogym Checkup: A full-body physio-cognitive assessment tool using AI to define your "Wellness Age."

Technogym AI Coach: Delivers personalized programs based on real-time results.

Technogym Run: A compact treadmill with silent belt, large display, sled push mode, and immersive bootcamps.

Technogym remains at the forefront of fitness innovation, offering performance-driven solutions tailored for elite athletes and everyday users alike. Upcoming developments will continue expanding their product range and digital capabilities.

@technogym

Decorative  
interior wall  
finishes

Micro-cement  
coatings

VALPAINT is a leading Italian manufacturer of decorative paints for both interior and exterior façades. The company is known for its commitment to innovation, offering a wide range of high-performance decorative finishes that elevate wall surfaces to a new level of expression.

Their collection includes decorative paints for interior surfaces and a comprehensive micro-cement system suitable for flooring and walls. Product specialties include micro-cement, lime plaster, and lime-washed paints, crafted to offer aesthetic flexibility and tactile beauty.

@valpaint

At the IDS, Valpaint will present its distinctive product line with a focus on the Natural Clay "Armonie d'Argilla" collection.

This offering emphasizes their expertise in materials rooted in natural composition and artistic finishes.

As a long-standing presence in the sector, VALPAINT continues to inspire architects, interior designers, and builders looking to integrate material-driven beauty into contemporary spaces, offering both visual richness and durability.

Murano glass  
décor and  
furnishings

Custom  
architectural  
glass elements

VEVEGLASS merges the timeless art of Murano glassmaking with modern design and customization.

With over 30 years of experience, their master artisans produce unique Murano pieces tailored for a wide range of spaces. Each product is fully customizable in shape, color, and pattern, making it a functional and artistic addition to interiors.

From glass dividers and wall décor to sculptures and centerpieces, the distinctive charm and exceptional quality of Murano glass shine through in every piece. VEVEGLASS brings an air of sophistication and timeless beauty to your space, offering a touch of elegance.

Discover the artistry of Murano glass with VEVEGLASS and let its captivating allure enhance your surroundings. VEVEGLASS also offers glass partitions, wall coverings, mirrors, decorative objects, and more—all customizable. Their in-house creative engineering team is continuously developing new room dividers and furnishing accessories, bringing Murano's refined elegance to contemporary environments. VEVEGLASS stands for craftsmanship, innovation, and beauty—all embedded in every piece.

Products on display include:

RGB Room Divider: Over 35 available colors with 7,700 combinations

Bucintoro Mirror: Featuring a multicolored frame and gold leaf

Noguchi Centerpiece: In striking ivory and black

Galeon Sculpture: With tiger-striped sinuous form

Manhattan Light Sculpture: A captivating illuminated feature
