The ICE – Italian Trade Agency is the Italian government organization working to develop, facilitate and promote economic and commercial relationships abroad and marketing Italian goods and services internationally. It further promotes the “Made in Italy” image around the world and Italy itself as a destination for foreign investment.

The ICE – Italian Trade Agency operates under the authority and supervision of the Ministry of Foreign Affairs and International Cooperation (MAECI). Through its international presence, alongside the Italian diplomatic network, the ICE – Italian Trade Agency works together with business organizations and other public and private entities to offer coordinated support for businesses and Italian organizations involved in the globalization process.

From its Rome headquarters, with offices in Milan and around the world, the ICE – Italian Trade Agency provides information, assistance and promotion services to businesses and institutions, encouraging cooperation within the industrial, agricultural and agrifood sectors, distribution and tertiary businesses, to expand the presence of Italian companies on international markets. In order to support the Italian industrial and foundry sector the ICE – Italian Trade Agency offers a wide range of initiatives worldwide, such as participation in trade fairs, presentations and bilateral workshops.

In Germany the ICE – Berlin office organizes many promotional events with Italian regions, provinces, manufacturers associations, chambers of commerce, private companies and collective pavilions in international trade fairs.

ACMI is the Italian Association that gathers manufacturers of technical doors and shutters for every type of civil and industrial application, in any type of construction and regardless of the material used for their construction, as well as components and accessories that complete and integrate them.

The Association offers support in problems of specific interest in the product sector represented, maintaining relationships with public and government authorities, testing and certification laboratories, standardization bodies, both Italian and foreign, competent for the areas of interest of its members.

ACMI provides business consultancy services, helping its members to obtain the necessary certifications for the production and sale of their products.

ACMI works to train competent professional profiles capable of providing assistance and qualified services for installation and maintenance.

ARCO INDUSTRIE S.R.L.
www.arcoindustrie.it

Arco industrie s.r.l. has been designing and manufacturing products for logistics, industrial building and refrigeration areas for over 20 years.

Our policy aims at a widespread distribution network in Europe and in non EU countries diversifying from Industrial and Residential markets and forming close partnerships exclusively with sales organisations that can also take care of the installation and can ensure a quick and efficient service. Our Service network partners are trained and certified directly by Arco Industries.

Our production lines are state-of-the-art and always improved and upgraded to meet the market needs. We are able to accommodate both standard and custom productions for demanding customers.

In its 2 factories, one in Ripatransone (AP) and one in Colonnella (TE), Arco Industrie produces directly:

- Loading ramps, dock shelters and logistics management systems
- Overhead sectional doors and folding/Hangar doors
- Doors for industrial cold rooms and fruit preservation (Controlled Atmosphere Cold doors).

DE NARDI S.R.L.
www.denardi.it

De Nardi is a reality that fully reflects the solidity and reliability of family-run companies - which are the luck of Made in Italy - and is a leader in Italy for its exclusive range of garage doors, especially high-quality overhead doors such as INVISIBLE.

Founded in 1968, it has always focused on innovation and the high quality of its products, controlling the entire production cycle: design, production, direct delivery with its own vehicles, installation by highly qualified personnel and finally after-sales service, which it particularly cares about.

The product range includes steel, wooden and rasomuro / invisible overhead doors, sectional doors, fences and gate systems, steel doors, multipurpose and fire doors, shutters and gates. All products are highly customizable, appropriate for all price ranges (from entry level to high-end / luxury) and known for the quality of both the materials and the finishing, which have always been recognized as among the best on the market.

The factory is located in the municipality of San Fior (TV) on a total area of about 15,000 square meters, 8,000 of which are covered, where more than 40 employees are employed.

The De Nardi brand has always been close to the world of sport and in particular to cycling, with many important sponsorships both locally and nationally.

Dinox Frame, the Italian frame, is the new product by Dinoxill. Dinox Frame is the first multifunctional insulating frame for doors and windows made of painted stainless steel. Dinoxill originates from an idea of the company that holds the brand, namely Finestra4.

Finestra4 is an S.r.l. and it has been involved in home well-being since 2010. Finestra4 was born thanks to the union of two historical and established entities in the territory: the Bernardis carpentry from 1860 and the "Carnica metalworks" born in 1977.

Dinox frame is a completely customizable product in every aspect, including its shape, color, and size. That's why Dinoxill is considered a tailor-made piece for each customer, according to their specific needs.

To experience our product firsthand, we recommend visiting our booth, where you can see for yourself, through augmented reality, its potential.
