Milano Unica

Conceived, organized, and driven by entrepreneurs, Milano Unica offers international visibility to the world of textiles in a highly qualified context, in line with the quality of its products.

Tailor made to suit customer needs, selective and focused on details, Milano Unica wants to be home. Home to all the professionals of the fashion world, who feel that they belong to a highly professional environment, showcasing Italian style both in hospitality and taste.

The ideal place in which to offer the best products in the world's top end fashion market. The decision to bring forward the September appointment to July responds to the changes of the world of fashion, transforming the exhibition in the most future-oriented event dedicated to textiles.

It was first organized in 2005, resulting from the merger of five separate trade shows which contributed to the international success of Made-in- Italy and Made-in- Europe textiles: Ideabiella, Ideacom, Moda In, Shirt Avenue and Pratotrade. In the single context provided by Milano Unica, Ideabiella, Moda In and Shirt Avenue maintain their own identity, playing a central role in representing the textile excellence to the world.

The heart of Milano Unica are the "Tendenze", the trends, whose themes and moods change every edition with unique suggestions and combinations. Milano Unica "Tendenze" have always been one of the main creative elements and a stimulus for all exhibitors and fashion professionals. Each season, the Milano Unica's Style Committee attentively and masterfully interprets the evolution of contemporary culture and proposes new and evocative theme-based itineraries that combine fashion trends to inspirations from the arts, cinema, music and traditions from the world over, able to inspire the new collections.
