🏠 Italian Trade Agency

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses.

Using the most modern multichannel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

## TRADE AND INVESTMENT

OPEN DOORS TO A WORLD  
OF OPPORTUNITIES

## Federazione ANIE

### Address:

Viale V. Lancetti, 43  
20158 Milano (MI) • Italy

☎ +39 02 3264.227

☎ +39 02 3264.212

### Contact

Mariarosaria Fragasso  
Alice Bertazzoli

Federazione ANIE, member of Confindustria, represents the Electrical Engineering and Electronic companies operating in Italy. With over 1,100 member companies, the ANIE system supplies technologies for public and private infrastructures in strategic markets such as energy, transport, industry and building. Electrical Engineering and Electronic technologies represent the heart of the twin transition – green and digital. They are drivers of innovation in the most strategic sectors and are essential for the modernization of existing infrastructure.

## ANIE INDUSTRY

### FIGURES FOR 2022:

- 93 billion Euros of total turnover
- 400,000 employees
- 4% intra-mural R&D expenditure on total turnover

Alessandro Durante

Director External and International  
Relations

ANIMA Confindustria - Federation of Italian Associations of Mechanical and Engineering Industries, represents within Confindustria companies of mechanical sector (225.000 employees, 54,60 billion Euro production and 57.0% export share - estimates 2022). Established in 1914, ANIMA numbers 31 associations and 1,000 companies, highly qualified in their sectors.

Macrosectors and technologies represented:

- ENERGY GENERATION, CHEMICAL, OIL & GAS TECHNOLOGIES Machinery and Plants
- BUILDING TECHNOLOGIES Plants and Construction
- LOGISTICS TECHNOLOGIES Systems and machinery for Lifting, Elevation and Handling
- FOOD TECHNOLOGIES Plants, Technology and Products for Food Industry
- SAFETY, SECURITY & ENVIRONMENT

Environmental & Personal  
Protection, Firefighting & Safety

- INDUSTRY  
Plants, Components and Products for  
Industry

ANIMA safeguards interests of the mechanical industry, represents and promotes member-companies and their products in Italy and abroad, supports members both in technical and economic issues.

The companies joining ANIMA are strongly committed to promoting the energy transition in their business and production processes.

A working group dedicated to research and application of Hydrogen and Nuclear for Energy Production is also active within the Federation.

🏠 <https://federtec.it>

✉ [federtec@federtec.it](mailto:federtec@federtec.it)

FEDERTEC, Italian Federation of Mechatronic Technologies and Components for Fluid Power, Power Transmission, Smart Automation and Control of Industrial Products and Processes.

After the establishment in 2019 thanks to the merger of ASSIOT (Italian Transmission Elements and Gears Manufacturers Association) and ASSOFLUID (Italian Fluid Power Association), also FNDI (National Federation of Industrial Distribution) has been incorporated into FEDERTEC from 2022, adding a new piece to the mechatronic technologies chain.

The Federation has about 300 members which design and produce systems and components that have a strong impact in manufacturing sectors. The industrial automation industry (with focus on mechatronic technologies) is one of the most significant economic sectors in Italy - where it is estimated to be worth over 40

billion Euro - and worldwide.

FEDERTEC's objectives are to coordinate, protect and promote the technical and economic interests of the industrial automation industry, focused on the convergence and fusion of the various technologies, and directed to represent the entire Italian value chain worldwide.

The Federation carries out market surveys, promotes export of member companies by attending the most important international trade fairs, encourages training and provides targeted support and works alongside its members for the solution of technical and economic matters.

## Industrial waste water treatment

✉ [a.cilona@3v-tech.com](mailto:a.cilona@3v-tech.com)

🏠 <https://3v-tech.com/>

🌐 <https://www.linkedin.com/company/3v-tech/mycompany/>

3V TECH is consolidated supplier in Oil&Gas sector which offer pilot & laboratory test, feasibility & consulting studies, basic & detailed engineering, fabrication of static equipment & skid assembly for industrial water treatment plants.

3V TECH core technologies are:

- Wet Oxidation (WAO) & Advanced Oxidation (AOP) system for toxic waste water
- Evaporation, concentration, crystallization, Zero liquid Discharge (ZLD)
- Stripping (Benzene, BTEX) & Scrubbing
- Ammonia extraction systems
- Hazardous Waste Water Treatment

## Asset Integrity Management Software, RBI

✉ [info@antea.tech](mailto:info@antea.tech)

🏠 <https://antea.tech/>

🌐 <https://www.linkedin.com/company/antea-tech/>

Antea specializes in RBI-driven asset integrity management software with 3D digital twin and mobility.

Since 1989, Antea has facilitated digital transformation for operators of process plants in the oil & gas and petrochemical industries worldwide.

The company's innovative engineering and IoT technologies deliver one-click access to intelligent asset data for improved maintenance, reliability, and risk mitigation.

Their solutions are backed by unparalleled data management services, delivering complete support from implementation through to sustainable operations.

## **Valve manufacturer (Gate, Globe, Check, Ball)**

✉ [sales@bfe.it](mailto:sales@bfe.it)  
🏠 [www.bfe.it/index.php](http://www.bfe.it/index.php)  
🌐 [https://www.linkedin.com/  
company/bonney-forge](https://www.linkedin.com/company/bonney-forge)

Located in Bergamo, Italy, B.F.E specializes in the design and production of valves used in the petrochemical processing plants, onshore and offshore oil and gas production and transportation, as well as power plants.

The valves are manufactured in two plants. First example of B.F.E.'s constant pursuing of Quality can be found right at the forging plant, where all begins. B.F.E can count on its own, back-integrated forging plant where the raw steel is qualified and forged with absolute control over the forging process, in order to achieve the best possible material characteristics and Quality.

The forging operations have a crucial effect process control is fundamental to the end quality of the products, and a great deal of attention is spent on Quality, with a fully equipped testing laboratory, enabling B.F.E. total control over materials before, during, and after the forging operation. Machining of forgings is performed on automated,

state-of-the-art machine systems. Multiple-head machines handle large batches of valves, ensuring standards consistency throughout the process. Multiple-head machining centres interface with numerical controlled machining centres assuring absolute accuracy and planning flexibility for shorter runs and special valves. B.F.E is an integrated supplier with in-house forging, machining and assembly-test inspection operations.

The forge shop contains a full line of forging equipment including billet saws and shears, billet heating furnaces and induction heaters, forge presses, trim presses.

Our machining and assembly operations can count on a complete line of metal removal equipment including turning, boring, milling, drilling, grinding, polishing and have testing equipment to manufacture valves.

# COMBUSTION AND ENERGY - LUXSOLAR

## Enclosures and AWL for hazardous area

✉ [info@ce2k.com](mailto:info@ce2k.com)  
✉ [lxsluxsolar.com](mailto:lxsluxsolar.com)  
🏠 [www.ce2k.com](http://www.ce2k.com)  
🏠 [www.luxsolar.com](http://www.luxsolar.com)  
🌐 <https://linkedin.com/company/luxsolar-italia>

Founded in 1988, Combustion and Energy S.R.L. provides customers with electrical equipment and complete customized systems suitable for hazardous areas.

C.E. not only has its own line of certified flame-proof Ex Enclosures Ex db IIB+H2 and Ex db IIC, but also accessories for installations in Ex zones such as junction boxes and control stations.

The importance of safety in potentially explosive areas became a challenge for C.E.

That's why, from the early 2000s, C.E. also produces Aircraft Warning Lights and Heliport/Helidecks beacons for hazardous area under the brand LUXSOLAR.

# CVB VALVES

## Italian Industrial Valves manufacturer

✉ [sales@cvbvalves.com](mailto:sales@cvbvalves.com)

🌐 [https://it.linkedin.com/company/  
cvb-valves-srl](https://it.linkedin.com/company/cvb-valves-srl)

CVB Valves designs and manufactures engineered and tailor-made valves and equipment; our production range include all type of Butterfly and Control Valves for On/ Off and Control of flows.

It includes Concentric rubber-lined, Double-Offset, Triple Offset Butterfly Valves, both for On-Off and Control duties.

Our company was founded in 1976 in Milan, Italy. We are proud to have over 40 years of experience in designing customised valve solutions for our Customers' challenging and exacting standards combining reliability, efficiency, dedicated solutions with the highest safety standards for the most extreme operating environmental applications.

Long and vast track record supplying to Oil&Gas, Energy, Water, Desalination and Naval industries are testament of our passion and commitment in providing the

utmost of Technology, Engineering, Innovation, Quality and Service to our Customers.

With our dedicated manufacturing facilities in Italy, our products are made with high quality materials customized to meet our customers' needs.

# DONADONSDD

## **Rupture Disc - Bursting Disk - Holders - Venting panels - Rupture Indicators**

✉ [donadonsdd@donadonsdd.com](mailto:donadonsdd@donadonsdd.com)

🏠 [www.donadonsdd.com](http://www.donadonsdd.com)

🌐 [https://it.linkedin.com/company/  
donadonsdd](https://it.linkedin.com/company/donadonsdd)

DonadonSDD is a premier Italian authority in industrial protection, specializing in the production of rupture discs, holders, indicators, and explosion vent panels. For over seventy years, we have consistently invested in cutting-edge technology to ensure the safety of industrial plants.

Burst discs play a crucial role in safeguarding systems against the dangers of pressure fluctuations.

These discs are designed to burst at a predetermined pressure, thereby preventing overpressure or vacuum events and potential damage or failure of equipment.

Our operational and procedural standards align with ISO 9001 and 9100 standards. Our products carry certifications from internationally recognized authorities, including ASME, PED, UKCA and ATEX, further solidifying our standing as an industry leader.

## Marine Hoses & Ancillary Equipments for SPM to Loading & Unloading Vessel

✉ [info@iocs-srl.com](mailto:info@iocs-srl.com)

🏠 [www.iocs-srl.com](http://www.iocs-srl.com)

🌐 [www.linkedin.com/company/iocs-srl/](https://www.linkedin.com/company/iocs-srl/)

IOCS S.r.L. is a company highly qualified in the design and supply of Marine Hoses & Ancillaries Equipment for Offshore & Onshore Single Point Mooring for Loading and Unloading vessel operations.

IOCS is also specialized in providing consultancy for the development the complete system, performing Engineering analyses to prevent problems on hose string, creating all the necessary devices for handling the equipment, and all best assistance for the solution of any kind of problem that may arise.

IOCS is committed to deliver sustainable value to its customers focused on achieving excellence in providing first class quality products, innovation and services to the Oil & Gas Industry. IOCS is well organized to provide its customers the best assistance and in particular, our activities are focused on services.

# ITALBEST VALVE

## Italian Valve Manufacturer

✉ [businessdev@italbestvalve.com](mailto:businessdev@italbestvalve.com)

🏠 [www.italbestvalve.com](http://www.italbestvalve.com)

🌐 [www.linkedin.com/  
company/69123487](https://www.linkedin.com/company/69123487)

ItalBest Valve is a worldwide qualified Italian valve manufacturer of API 6DSS subsea ball valves, API 6D ball valves, HIPPS valves, plug valves and API 609 butterfly valves.

Italbest Valve produces valves for every temperature, up to +650° C for very high temperatures and as low as -196° C for cryogenic applications.

ItalBest Valve owns the offices and workshops which cover a total area of 75.000m2 with more than 15 inhouse test benches, internal machining, assembling, painting, packaging and more.

Italbest Valve offers you very competitive prices, a 100% Made in Italy product, a fast-track delivery service, a large in-house stock of products, including certifications such as API, ISO, FIRE SAFE, PAT, TAT, FET, PED, ATEX and more.

The pillars of IBV's success are securely connected thanks to a strong communication network developed with our clients in providing them with timely and reliable customer service. Quality lies with us.

## **Advanced handling solutions - equipment - cranes**

MELCAL designs and delivers advanced handling solutions and provides global support and life cycle services for the marine and offshore industry.

Our consultative sales network and our competent design and engineering team, allow for professional interaction and close collaboration with our clients.

MELCAL's advanced, often innovative handling solutions, combine a robust design with quality components and true workmanship.

To meet our clients' specific needs on application and safety, MELCAL offers a full array of professional life cycle services, geared specifically to ensure maximum operational availability and performance.

Our experience and our key references in all marine and offshore market segments, make MELCAL your first-choice global partner for advanced handling and service solutions.

# NOVACAVI

## Special electrical cables for challenging applications

✉ [info@novacavi.it](mailto:info@novacavi.it)

🏠 [www.novacavi.it](http://www.novacavi.it)

🌐 [www.linkedin.com/company/novacavi](https://www.linkedin.com/company/novacavi)

Specialist in custom electrical cables design and manufacturing for the most varied and challenging applications since 1975.

NOVACAVI develops specific solutions as reliable strategic components to any form of innovative technological equipment.

Focused on harsh and underwater environments cable solutions, NOVACAVI designs and produces Aquancable®, wide range of special electrical cables for underwater technologies.

Among them: ROV tethers, drones & robot cables, FO hybrid cables, umbilicals, subsea armoured and instrumentation cables.

## Steel closed die forging since 1891

✉ [sales@riganti.com](mailto:sales@riganti.com)

🏠 [www.riganti.com](http://www.riganti.com)

🌐 [www.linkedin.com/  
company/riganti-s.p.a.](https://www.linkedin.com/company/riganti-s.p.a.)

Riganti, founded in 1891, is a closed die forging master by means of counterblow hammers, combining the flexibility of a craftsmanlike production with a state of the-art technological know-how of a modern manufacturing enterprise.

Riganti serves major markets and Customers worldwide with a wide range of components in different steel grades (carbon, stainless and nickel alloys) and sizes from 15kgs (33lbs) to 1,800kgs (3,900lbs). All items can be supplied forged, heat treated, machined, painted and ready for assembly and can be certified by the most important international bodies.

Customer satisfaction and quality are the main drivers with a fully integrated QEHS certified system.

## OIL AND GAS as special focus:

We supply the main valve manufacturers with closed die forgings for components as gate (1" to 7") and choke (1" to 9") valve bodies, ball valves up to 14", closures up to 12" and fittings.

**Engineering, consultancy,  
sustainability, compliance,  
project management**

✉ [info@rina.org](mailto:info@rina.org)

🏠 [www.rina.org](http://www.rina.org)

🌐 [www.linkedin.com/company/rina](https://www.linkedin.com/company/rina)

RINA, with an extensive international experience in a wide range of engineering and consulting services, assists operators, project developers, banks and investors and EPC contractors, across the plant's lifecycle.

We help clients maximise their operability, reliability and safety, while also minimising maintenance costs, supporting customers through shutdown and decommissioning.

RINA offers services for systems, plants and infrastructure, from oil & gas and power generation plants to transport and distribution infrastructures.

# RIVECO GENERALSIDER

## **HFW CARBON STEEL PIPES - COATINGS - LININGS - CWC**

RIVECO GENERALSIDER (RGS) S.p.A has been on the steel pipes domestic and international market for over 60 years and has now become a reference industrial group in the energy and infrastructure sectors.

RGS is strongly specialized in the production of welded carbon steel pipes, high density polyethylene pipes and in the application of anti-corrosive coatings on carbon steel pipes, including concrete overweighting for submarine pipelines.

We provide complete solutions in the pipeline industry thanks to the experience gained over the years.

We implement an accurate control of the supply chain starting from the supply of high quality raw materials.

We have accepted the challenge of competing with markets in continuous transformation and growth, focusing on the enhancement of our customers, the excellence and reliability of our products, the effectiveness, efficiency and flexibility of our organization, on a global approach.
