

Public Notice on the Establishment of the Register of Suppliers of Goods, Services and Works of the ICE/ITA Agency

This contracting authority in Sydney intends to create a register of suppliers to select economic operators to invite to tender for works, services and supplies, which from 1 January 2024 must be conducted electronically, using digital procurement platforms, as required by Italian national legislation.

The Register of Suppliers is the tool through which the territorial offices of the ICE-ITA Agency intend to identify qualified companies to provide the works, supplies and services needed to carry out their promotional and institutional activities.

Registration in the register is free and can be done throughout the year by accessing the dedicated page at the following path:

<https://ice.traspare.com> - section "SUPPLIER REGISTER"

The registration procedure is simple, to be carried out online, and requires only a few steps from the supplier interested in offering its collaboration to the ICE-ITA Agency. It is recommended that you read the "Registration Rules" and fill in the form provided on the same page.

The Operator's data will be collected and processed exclusively for the purposes permitted by law, in accordance with current privacy legislation (EU Regulation No. 679/2016). For further information, please visit the dedicated page by entering the web address <https://www.ice.it/it/privacy-fornitori>

For assistance, please contact the Sydney office at the following email address: sydney@ice.it
