

Houston, December 5<sup>th</sup>, 2024

### **Results selection process for the Junior Trade Analyst position**

In accordance with the recruitment process outlined (Official Reg. 0123133/24 on date 31/10/24), candidates selected based on mandatory requirements listed in the documents “Bando Assunzioni” were invited to participate in both practical and written assessments on December 5th, 2024 at 11:00 am.

These tests were an integral part of the selection procedure, aimed at determining the competencies required for the Junior Trade Analyst role.

### **Results**

The candidates informed us a few days before their intention to withdraw the application and did not show up for the practical and written test.

Due to the absence of any validated candidates for the tests, the recruitment process for the Junior Trade Analyst position has been effectively halted.

The tender process has been officially closed, and no candidate has been appointed for the role and a new tender will be published soon.
