To whom it may concern,

we will be participating in Enlit Europe 2026 this year. The event will take place in Vienna from the 10th to the 12th of November. Therefore, we are looking for a stand builder to design and construct our pavilion.

We have secured a stand covering a total area of 297 sqm, divided into two islands of different sizes (stands AD50 and AE50), located in Hall A. There is a hallway between the two islands which should remain empty. However, the flooring should extend across the hallway to create a visual connection between the two islands and establish a unified exhibition space. There is a supporting pillar next to the stand that cannot be used for decoration (see the attached floor plan).

We prefer to have a modern open space that highlights our participation as an Italian group. However, we would like each of the 30 companies to have their own workstation, separated by wooden or other materials, to provide each exhibitor with a level of privacy. Each workstation should have a rectangular table on which to present products and host visitors and commercial partners.

We require a shared hospitality area for staff only, complete with a welcome desk. In addition, we need a fully enclosed storage area for a coffee machine, a printer, a cloakroom and a refrigerator.

The logo of each participating company must be displayed clearly and visibly on each workstation. At the same time, it is essential that the stand clearly communicates its identity as the Italian Pavilion. To ensure immediate recognition of the Italian collective, there should be a continuous branded banner featuring the ITA Agency logo running along the full length of the stand at the very top.

Please find attached the stand structure from the last exhibition.

We look forward to receiving a comprehensive proposal at the email address vienna@ice.it by noon on 4 August 2026. Please note that the total value of the proposal must not exceed €139,000.

UID Number: ATU59086401.

Best regards,

Corrado Cipollini

Director ITA Vienna
