12 000 References

Quality

We select our suppliers on the basis of the quality of their production, the choice of "Made in Italy" represents more than 85% of our references.

Services

Offering customized services is part of our DNA

Relationship

The secret of the success of Agriexport and its history, is in the relationships of trust established by the founders with our suppliers and with our customers

OUR SUPPLIERS

The forges of the Italian industrial area have a reputation for quality and excellence recognized worldwide

The structure of the Italian industry, largely made up of SMEs on a human scale, makes it particularly flexible, adaptable and competitive.

The quality of production combined with the Italian structural characteristics allow **Agriexport** to offer a very competitive price / quality / benefits ratio

Agriexport also sources parts in Turkey, India and China with the only imperative quality.
