Made in Italy

OUR STORY

Over 60 years of Italian textile excellence

Founded in 1962 by Gianfranco Benvenuti in the heart of Lombardy's textile district, Camillatex began as a family business devoted to fine fabrics for home linens and hospitality. From the start, our mission has been clear: to celebrate natural fibers – cotton and linen – through refined craftsmanship that blends function, beauty and emotion.

Today, under the guidance of Paolo Benvenuti, the second generation, the company continues to evolve, embracing innovation and new aesthetics while preserving its artisanal roots.

Our vision bridges memory and future, technique and creativity, making Camillatex the ideal partner for bespoke textiles. Every fiber tells a story, turning ideas into reality, with solutions designed for various markets thanks to a balance between technology, craftsmanship, quality and sustainability.

MATERIALS AND IDENTITY

Cotton and linen: the essence of our work

Camillatex stands out for its rigorous selection of raw materials: we work exclusively with long-staple cotton and 100% European long-fiber linen, carefully chosen to create fabrics that are exceptionally soft, naturally elegant and remarkably durable.

Our range is wide and sophisticated, the result of continuous research that ensures constant innovation and refinement.

Our offer includes cotton percales and sateens from 200 up to 2000 thread counts, ideal for superior-quality bed collections and a complete selection of linens for the home (bedroom, table, and drapery collections), in various weights and widths.

Ongoing research into finishing techniques, treatments and textures allows us to present collections that combine tradition with contemporary design, perfectly suited to sophisticated markets.

PRIVATE LABEL

Bespoke solutions for global brands

From concept to creation, Camillatex supports brands at every stage: design, material selection, prototyping and production. We craft exclusive collections that embody each brand's identity with uncompromising detail and quality.

Our customized solutions span across industries: home, apparel, luxury hospitality, marine, private aviation and beauty & wellness. Every project reflects our experience, superior raw materials and meticulous care-delivering fabrics that are elegant, functional and enduring.

INNOVATION AND TRENDS

Where aesthetics meet innovation

Each season, we introduce new lines inspired by international lifestyle trends. Alongside our timeless classics, we offer fashion collections with sophisticated jacquards, digitally printed sateens and percales and fabrics with unique finishes.

Since 2008, Camillatex has been GOTS certified, producing organic textiles for who values sustainability, transparency, traceability and fiber purity.

Our strength lies in blending artisanal know-how with industrial expertise, style with performance, being always attentive to the dialogue between form, function and desire.

R&D AND DESIGN

*Shaping the fabrics
of tomorrow*

Research and development are at the core of Camillatex. Every fabric begins with careful experimentation on yarns, dyeing, finishes and performance to obtain the best sensoriality.

Our pursuit of excellence has led us to select the world's finest cotton varieties, such as Supima ELS, Acala, Sea Island and Suvin.

Listening to the market is constant: innovation always serves identity and user experience, adapting textures and compositions to meet evolving needs with precision and creativity.

SERVICE & DISTRIBUTION

Global efficiency, Italian precision

With a modern logistics hub and optimized processes, Camillatex ensures worldwide delivery within 48–72 hours, with full traceability and efficient order management.

Our dedicated customer care team supports international clients with punctual and tailored service – because we are committed to create long-lasting partnerships.

CAMILLATEX WORLDWIDE

Where Italian textiles meet the world

From Italy to the United States, from Europe to Japan, Camillatex brings Italian textile culture to the world – defined by care, beauty and precision.

Our collections celebrate elegant simplicity, authentic materials and everyday rituals, embodying Italian craftsmanship in every detail.

We bring Italian textile sophistication worldwide, with a contemporary and forward-looking approach – shaping a sustainable and authentic vision of luxury.

OUR CERTIFICATIONS

All our fabrics are certified according to the highest international textile standards, ensuring transparency, quality and safety

Camillatex carefully selects combed Extra-Long Staple (ELS) cotton, which represents less than 8% of global cotton production. Grown under strict requirements, this premium cotton allows us to spin the finest yarns, which are then woven into our luxurious fabrics.

We apply the same selective excellence to our premium linen, sourced from Europe's finest regions. We personally certify every step of its production to ensure a fabric of unmistakable handle and exceptional durability.
