

Labinf Sistemi

Integrated and tailor-made
solutions for digitalisation

Your technology partner for digital transformation

About us

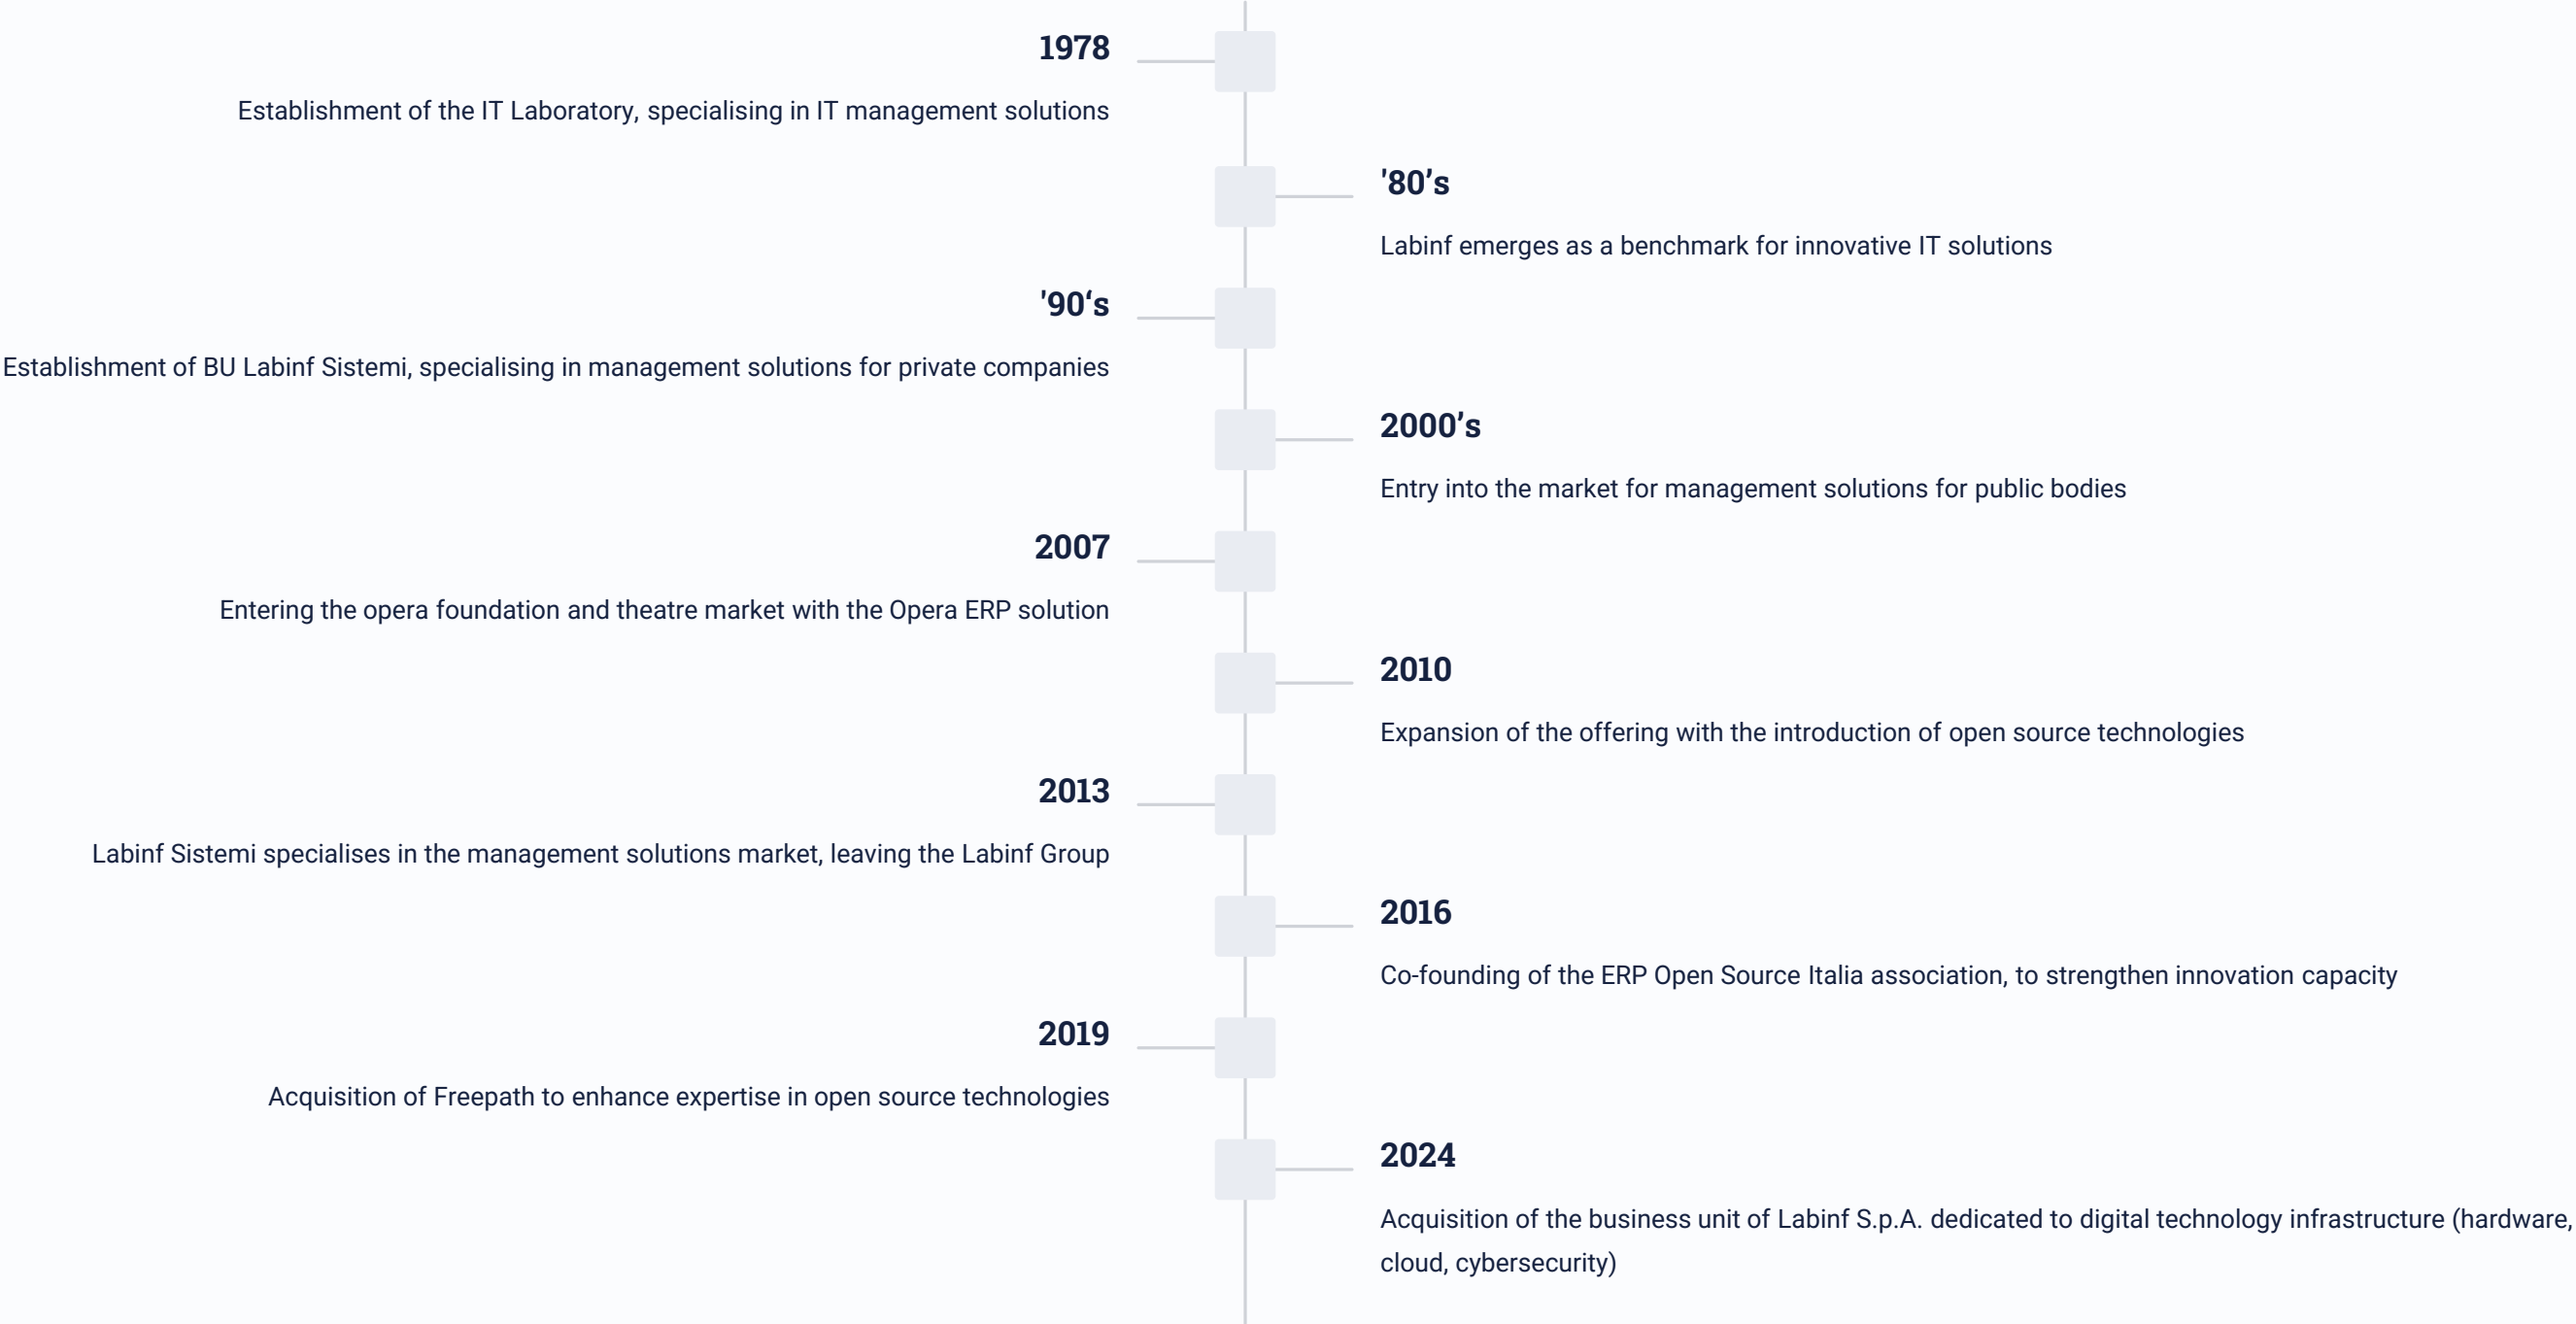

We make technology simple and accessible, supporting organisations in their digitalisation journey with scalable, tailor-made solutions.

The computer lab that gave rise to the Labinf group was founded in the late 1970s. Today, we are an agile and specialised organisation that has been operating in the IT field for over 40 years, providing innovative and customised solutions in line with our customers' growth needs.

Our quality management system is ISO 9001 certified, guaranteeing a safe, high-quality product.

For Over **40** years
Supporting
the IT
Market

Storia

Customised and Scalable IT Solutions

We develop and maintain customised and scalable IT solutions to support private companies and public bodies in the digital transition process.

At Labinf Sistemi, we produce:

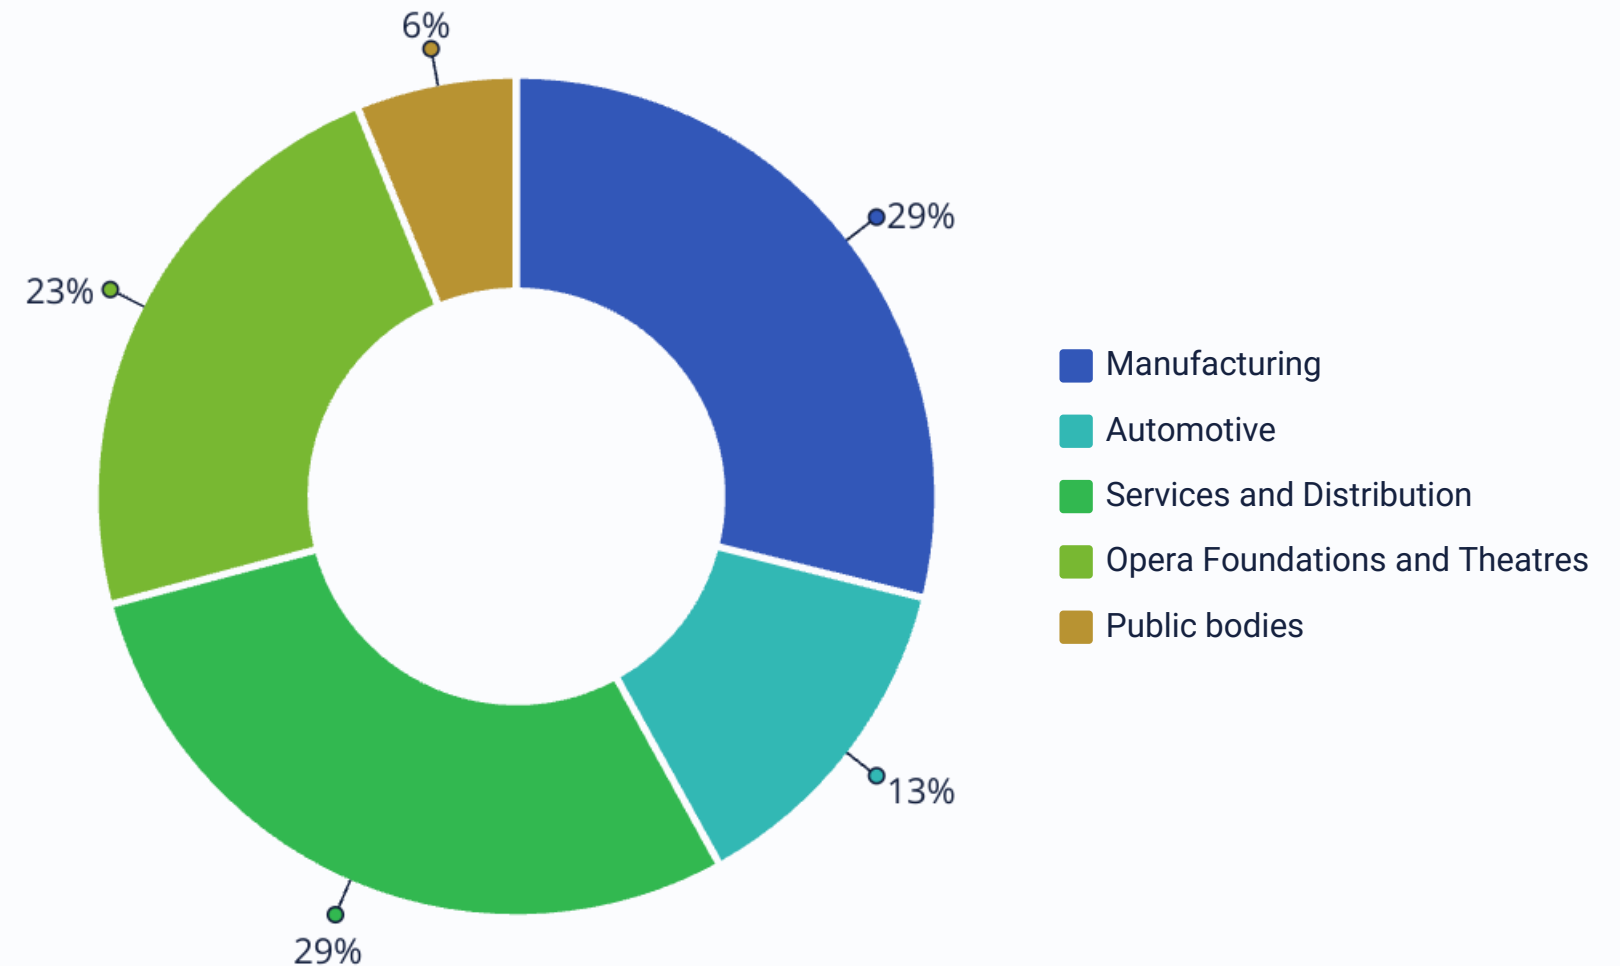

-  Complete, modular and integrated management software solutions
-  Design and maintenance of scalable data infrastructures in the cloud or on-premises
-  Solutions for 360° ICT fleet management
-  Professional training and business process consulting

We are a close-knit team that designs and develops tailor-made IT solutions, using the most innovative technologies, both open source and proprietary, to best meet the needs of our customers.

Sectors Served

Thanks to a flexible and modular approach, Labinf Sistemi is present in various strategic areas. The sectors we serve reflect our ability to adapt software solutions to the specific needs of each operating context.

Software Solutions

The software solutions we offer stand out for their **modularity, customisation options, ease of integration with other systems and intuitive user interface, ensuring a scalable** solution tailored to specific requirements.

ERP - MANAGEMENT SYSTEM

For the management of all administrative processes, including: administration, management control, logistics, warehousing, production, etc.
