PROJECT

“Essence” è una innovativa finitura in grado di esaltare la materia in tutti i suoi aspetti, l'originale risultato si ottiene grazie ad una lavorazione completamente artigianale, articolata in diversi passaggi. Il processo di lavorazione degno di un alchimista, ha inizio con un metallo liquido color bronzo sapientemente applicato ad un reticolato tridimensionale, a creare superfici sempre diverse dovute alla combinazione casuale della materia. L'abilità manuale e la sensibilità nel trattare la materia, riescono a valorizzare potenzialità e caratteristiche dei vari elementi, elogiandone corporeità e forza espressiva.

“Essence” is an innovative finish which highlights all the aspects of the substance; the original result is obtained thanks to a completely handmade manufacturing with different steps. The manufacturing process, worthy of an alchemist, starts with a bronze colour liquid metal skillfully applied to a three-dimensional lattice, to create always different surfaces due to the casual combination of the substance. The manual ability and the sensitivity to handle the substance enhance the potentiality and the features of the different elements, intensifying their corporeity and expressivity.
