RISO GRAZIA

THE PASSION OF OUR FAMILY

# The history

The story began in 1946 when Antonio Grazia, with initiative and a lot of hard work, set up the “Riseria del Basso Veronese”, in Legnago (VR), in the North East of Italy.

The entrepreneurial skills of the founder, together with the knowledge of the suitable areas for the production of rice, allowed a constant rise of the Company. Thanks to his son Gaetano Grazia, in 1984 the factory moved to the new and bigger facilities in Minerbe (few km from Legnago).

In 2004 the rise-mill get the ISO9001 quality certification. Since 2009 the company is run by the two grandchildren of the founder: Mr. Alberto and Mr. Alessandro Grazia that in 2013 further expand the plant.

COMPUTERIZED CONTROL SYSTEMS

The production system of Riseria del Basso Veronese Grazia mainly selects the varieties or rice that meet the highest quality requirements.

The Company is to guarantee that products do not contain genetically modified organisms. Every stage of cultivation is supported by systems that follow the natural course of the whole growing season of plants, until perfectly ripe.

Threshing, harvesting, ginning, refining, hulling, sorting, packaging are carried out thanks to the latest technology, by respecting the historical culture of rice processing.

*Riseria del Basso Veronese Grazia selects and works the best quality of paddy rice coming from the Po river Valley: fine Vialone Nano, Arborio and Extra fine Carnaroli.*

NEW, EXTREMELY  
ADVANCED PLANT IN

2013

*In 2013, Riso Grazia realizes a new and extremely advance manufacturing center characterized by an innovative vertical structure, unique exemplar in Italy, to grant a less stressed rice. This new system allows an exaltation of the organoleptic qualities of the grain.*
