## About Salce 197

Created in the heart of the Dolomites in Veneto, the Salce 197 brand expresses, through its bags, a strong sense of sophistication, with a vibrant contemporary feel.

For the FW22 collection, it presents bags with innovative shapes resulting from a stylistic combination of the stiffness of their thermoformed shells and fluid leathers in vintage colours, details characterizing a true Made in Italy product.

The idea of the brand is to forge ahead with a minimalist and contemporary approach. Salce 197 bags are purchased by a clientele that seeks an unconventional style.
