

BERGEN

 **MADE IN ITALY**

Bergen srl

BERGEN SRL

Founded in 1969, Bergen S.r.l. is a family-owned company whose business has continuously evolved by closely following the technologies and trends of the aerosol industry with great attention and responsiveness.

Bergen manufactures a wide range of product clusters, including **cosmetic** products such as deodorants and haircare items, **technical sprays** for household care, **disinfectant** and **germicidal** products, as well as **car care solutions**.

This diversified offering places the company in a unique position within the national manufacturing landscape. Bergen not only develops and produces its own brands, but also places its expertise at the service of its clients, supporting them throughout the private label process, from formula development and packaging selection to graphic design guidance, filling, and delivery of the finished product.
