Sativa Hemp

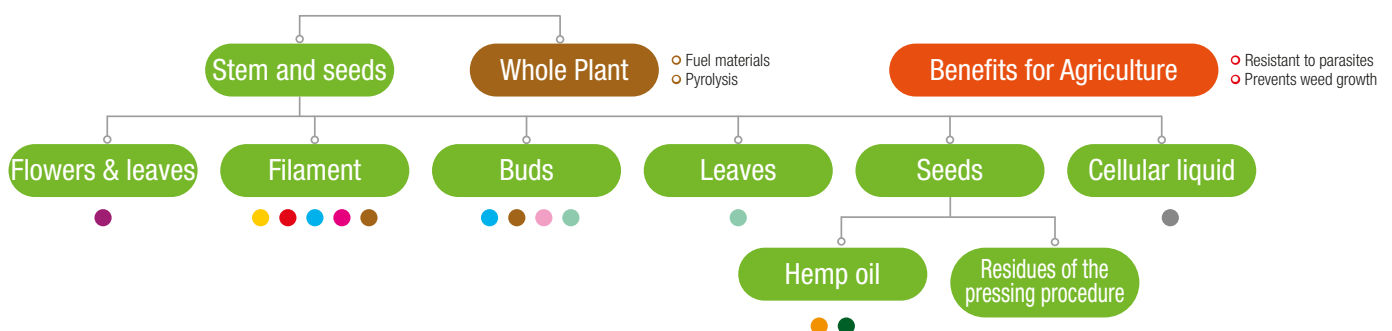

The oil extracted from hemp seeds is rich in Omega-3 and Omega-6, vitamins E and B, gamma linoleic and essential amino acids, and oligo-elements. It effectively prevents skin dehydration as well as states of extreme sensitivity and fragility, favouring a healthy Ph balance and normal barrier function of the skin.

With its easy absorption, this oil is exceptionally good for an intense regenerating treatment of the whole body. All Verdesativa products are recommended for sensitive and delicate skin, even for babies.

Sativa Hemp is an antique renewable resource of primary importance for a sustainable future. Extremely tough and adaptable, it can be used in an infinity of products: cosmetics, paper, fabrics, materials for green building or for the automotive industry, food supplements, fuels, therapeutic products etc....

Sativa hemp: possible uses

- **TEXTILES**
clothing - nappies - handbags - hosiery - footwear - fabrics
- **TECHNICAL FABRICS**
ropes - nets - tarpuline - carpets
- **PAPER**
printing paper and special paper - paper filters - cardboard
- **OTHER INDUSTRIAL PRODUCTS**
composite fibre - metal stamping with die casting - brake lining - caulking

- **BUILDING MATERIALS**
chipboard - insulation materials - concrete blocks - putty & filler
- **Pet litter - humus**
- **PERSONAL CARE**
soap - shampoo - bath foam - cosmetics
- **FOOD**
muesli - bird food

- **TECHNICAL PRODUCTS**
oil colours - paints - inks - fuel - solvents - lubricants - cladding
- **Abrasive fluids**
- **THC - medical use for glaucoma - vomit - spasms (only medical hemp: the THC rate in industrial hemp is too low)**

Naturalness and certification

Producing clean natural cosmetics is our goal. Using only raw materials that comply with the **AIAB** specification, the most accredited body to establish the standard in Italy of natural cosmetics and which certifies all our “ Bio Eco Cosmetics” formulations.

Dermo-compatibility

Our skin has a delicate balance, which must be managed with wisdom. This is why we use only high quality raw materials, where possible biological, and we have eliminated ingredients as well as substances that attack the natural hydro-lipid mantle are allergenic or irritating.

Efficiency

Our cosmetics are rich in protective and nourishing natural active ingredients contained in the precious vegetable essential oils at the base of all our products. The result is a cosmetic line that meets the specific needs of all skin and hair types.

Research

Verdesativa has invested resources for years in order to constantly improve their formulas and to find innovative systems for the protection of hair and skin as well as for its nourishment. Our cutting-edge formulas result from advanced research and technology.

Eco-friendly

We only use recyclable containers and minimize the use of packaging. Our raw materials are also selected based on their biodegradability and low environmental impact. Respect for man and the environment has always been an integral part of our company's philosophy.

Transparency

Verdesativa aims at informing consumers, enabling them to purchase with knowledge. We invite customers to visit our website (all technical sheets of VERDESATIVA products are published) and to contact us to receive information on natural cosmetics and certification systems.

Animal testing

Verdesativa has always been against the mistreatment of animals, and for this reason we have never performed or committed experiments on them. We have eliminated all ingredients of animal origin from our formulations, and we are registered with **The Vegan Society** and the anti-vivisectional association **LEAL**. All our cosmetics are cruelty free.

Face

Nature's elements have always been used to find sustenance, health and wellness, and all Verdesativa products reflect this philosophy.

Combining ancient herbal traditions and modern scientific skills Verdesativa produces truly natural products and is able to meet the specific needs of each type of skin, even the most sensitive. The particular structure in micro liquids provides greater functionality, optimizing the gradual release of the active ingredients.

This allows better and long lasting moisturizing properties, a higher absorption and greater pleasantness in contact (skin feel).

The active ingredients are also protected from oxidation and their release is slowed (Effect "re-tard"), to avoid the saturation of absorption.

All of our facial creams, used as a daily treatment, intervene with determination the effects of time, fatigue and dehydration.

The skin regains elasticity, tone, nourishment, radiance and firmness.

Anti-Age Cream

REGENERATING, FOR MATURE SKIN

Ideal treatment for very demanding, dry and sensitive skin, The combination of excellent vegetable oils with the active ingredients of Aloe, Bisabolol and Ceratonia Silas, prevents and reduces wrinkles of expression lines, stimulates microcirculation, activates the replacement and actively renews the skin . Thanks to Omega-3 and Omega-6, it effectively counteracts skin aging processes and improves the skin's natural defenses.

INGREDIENTS: Aqua; Vitis Vinifera Seed Oil; Cannabis Sativa Seed Oil; Squalane; Glycerin; Cetearyl Alcohol; Glyceryl Stearate; Olea Europaea Fruit Oil; Aloe Barbadosensis Leaf Juice; Bisabolol; Oryza Sativa Bran Oil; Panthenol; Sodium Stearoyl Lactylate; Caprylyl Glycine; Xanthan Gum; Cetyl Palmitate; Gluconolactone; Sodium Dehydroacetate; Sodium Benzoate; Hydrogenated Coconut Oil; Chandrus Crispus Powder; Glucose; Cananga Odorata Flower Oil; Benzoic Acid; Hydrolyzed Rice Protein; Linum Usitatissimum Seed Oil; Prunus Amygdalus Dulcis Oil; Phytic Acid; Tocopherol; Tilia Cordata Extract; Ceratonia Siliqua Gum; Hydrolyzed Wheat Gluten; Tocopheryl Succinate; Linalool; Benzyl Benzoate; Benzyl Salicylate; Farnesol.

Bio sport

Physical activity brings great health benefits, but can often cause temporary or chronic pain and inflammation.

The Bio Sport Verdesativa line is specifically formulated for both amateur and competitive physical preparation and post-exercise.

Each product contains exclusively pure essential oils and plant extracts, such as Arnica Montana and the Devil's Claw, the Hypericum and Centella, with known anti-inflammatory, soothing and stimulating properties for muscles and joints, to promote the restoration of state of well-being of the whole body.

These plants are very effective even in case of trauma, edema or bruises; there were also benefits in the presence of joint pain and arthritis. The careful selection of ingredients, totally natural and skin-compatible, make Verdesativa products excellent even for the most sensitive skin like those of children, and can be applied several times a day.

After application, the skin will be soft and hydrated, without traces of grease.

Arnica Shower Gel

ENERGIZING SPORTS RECOVERY

Cleansing

Our detergents, bath and shower soaps are a natural alternative to all traditional soaps due to the careful selection of raw materials and for the extraordinary organic synergies of natural and active ingredients used, selected to maintain the natural level of hydration and enhance the skin's defenses, respecting the physiological pH. These ingredients also have a recognized affinity and skin tolerability.

Our cosmetics are clearly distinguishable even for the advanced technologies used in our laboratories, which enable us to develop products that are extremely gentle and biodegradable with bases fully active of washing plants, high skin compatibility and free from sulfates, PEG or other substances potentially dangerous, as well as of synthetic preservatives.

Simple and genuine, also suitable for sensitive skin, Verdesativa detergents leave your body with a fresh and comfortable feeling and a smooth and compact skin.

Range of vegetable soaps

WITH COCONUT AND HEMP

Hand-made using the traditional cold process method, these soaps are 100% vegetable and rich in glycerin extracts. This phenomenon occurs naturally during the process of soap-making. As a result, the soaps have a soft velvety foam and leave your skin supple.

Verdesativa soaps are perfumed with light essential oil fragrances and coloured with products made from extracts of flowers, plants and spices.

In over 20 fragrances, you just have to choose the one that suits you best!

Their composition is ideal for those who cannot tolerate normal detergents and for all those who normally have problems of irritation and reddening of the skin due to the use of traditional washing agents, usually more aggressive on the skin.

The Verdesativa soaps do not dry the skin and offer natural crisp and fresh fragrances.

Hair

Our shampoo and shower shampoos are rich in active natural emollients, restorative and volumising, extremely skin-compatible and effective on all types of hair, even the most difficult to treat.

Our wide range of products allows you to find a specific shampoo for every need, from frequent washing to oily hair, dandruff or for dry and treated hair, not least our balm that detangles and nourishes the hair without weighing it down. Each type of hair can be treated in a specific way without irritating the skin with chemicals or potentially harmful ingredients as silicones, PEG or sulfates.

The vegetable oils and essences of medicinal plants give a modern and ecological answer to all types of hair, donating them shine, softness and vitality day after day.

Shampoo & Shower Gel Exotic

HEMP AND YLANG YLANG

This shampoo and shower gel leaves your skin with the aromatic and flowery perfume of ylang-ylang. Its soft fragrance allows you to experience a delightful sensation of well-being and serenity. You can also use it as a shampoo since ylang-ylang's fortifying properties strengthen your hair, making it shiny and voluminous.

Children

Children's skin is very delicate and defenseless. It has not yet created that invisible and protective barrier formed by water and fat (the so-called hydro-lipid film) destined to get stronger with the growth. At birth, the skin is almost sterile, without the so-called "good" bacterial flora that will increase with the passage of the months. At this stage it is more exposed to the risk of infections and fungi. The newborn's skin is very rich in water and therefore absorbs very easily applied cosmetic products and detergents.

The Verdesativa children line is rich in raw materials and natural vegetable surfactants (sugar, wheat protein, corn starch), which exert a gentle and effective cleansing action without altering the physiological pH of the skin. Doesn't contain soap, sulfates, or other potentially harmful raw materials. These natural active principles fight and prevent chapping and redness of the baby's skin, making it more hydrated and elastic forming a natural and protective barrier as well.

Shampoo and Shower gel

Ph balanced without soap or sulfates

Highly skin-friendly detergent, rich in plant extracts and natural raw materials, it exerts a delicate and effective washing action that makes the hair silky, soft and luminous, strengthening it from root to ends, without leaving behind the physiological pH of the skin of children. This specific formulation prevents irritations, redness and skin wrinkles, has a soothing and refreshing effect, ensures an effective and lasting hydration, protects the skin from the threat of unfavorable external agents. It does not burn the eyes, it does not contain soap or sulfates.

INGREDIENTS: Aqua; Anthemis Nobilis Flower Water; Disodium Coco-Glucoside Citrate; Aloe Barbadensis Leaf Juice; Caprylyl/Capryl Glucoside; Lauryl Glucoside; Glycerin; Sodium Chloride; Disodium Cocoyl Glutamate; Sodium Cocoyl Hydrolyzed Wheat Protein; Cannabis Sativa Seed Oil; Sodium Lauryl Glutamate; Sodium Lauryl Sarcosinate; Sodium Dehydroacetate; Disodium Cocoamphodiacetate; Anthemis Nobilis Flower Oil; Calendula Officinalis Flower Extract; Chamomilla Recutita Flower Extract; Linum Usitatissimum Seed Extract; Olea Europaea Leaf Extract; Tilia Cordata Flower Extract; Aloe Barbadensis Leaf Extract; Prunus Amygdalus Dulcis Oil; Lavandula Angustifolia Oil; Ethylhexylglycerin; Dicaprylyl Ether; Lauryl Alcohol; Ascorbic Acid; Tocopherol; Citric Acid; Sodium Benzoate; Linalool; Benzyl Alcohol; D-Limonene; Geraniol.

naturally functioning

The bug bites cause an annoying itching resulting in swelling, irritation and redness of the skin. Our innovative formulas are made with pure essential oils and natural extracts from known soothing and refreshing properties.

Donates relieve to the itching, giving the skin an immediate well-being. The protective emulsion for the body is made with a mix of Andiroba oil and essential oils of Citronella and Geranium, notoriously unpleasant to insects and mosquitoes because of this effectively protects from their annoying attacks.

The remarkable decongestant and soothing virtues of Peppermint and Bisabolo combine effectively with the anti itchy action of Camphor and the antibacterial of Lactic Acid together with the nutritive action and protection of Olive Oil and of Cannabis Sativa Oil, rich in omega 3 and omega 6. The visible result is that of a quickly soothed, moisturized skin with its natural softness and elasticity.

Protective Emulsion

spray
no gas

The formula of this refreshing and hydrating body emulsion is based on a mix of essential oils and natural extracts which keep mosquitoes away. Effective and long-lasting protection against mosquitoes and other insect bites. Does not irritate your skin. Leaves it oily and alcohol-free. Soft and delicate formula is suitable for babies' sensitive skins. Easily-absorbed, it leaves your skin soft and gently perfumed. Long-lasting effect. Dermo-compatible, no allergy-causing agents.

Prodog

100%
naturale

The coat of the dog performs very important functions, protects the skin from external aggression and regulates the body temperature of our dog keeping it within stable values. The dog may be subject to various diseases and ailments as skin dermatitis, fungal infections, itchy scabies which they can also prevent through a specific treatment of the hair during the bath. The most common mistake in cleaning the dog is to use soaps for our personal care rather than using specific products. The pH of the dog's coat differs from that of our skin unsuitable shampoos result particularly aggressive to them causing dermatitis, irritation and allergies.

In addition to the use of specific products for cleansing, that respect the neutral pH of the dog's skin, it is critical to treat the coat with a balm that specifically untangles and softens the hair. A soft and free of knots coat facilitates the daily brushing and allows you to identify immediately eventual parasites in order to give appropriate treatment.
