
TEAK DECKING FSC®

CERTIFIED ECO-SUSTAINABLE FOR
OUTDOOR USE

ZANUSOlegno

"Details make perfection
and perfection is not a
detail."

THE DECKING

The ZANUSOlegno FSC® teak decking combines the beauty of teak with the sustainability of an FSC® certified material.

DIMENSIONS

THICKNESS

19mm Planned

PLANK DIMENSION

Fixed width 90mm

**Fixed lengths
900-1200-1500-1800mm**

USES

Teak wood is very resistant to water, humidity, and saltiness. The characterizing factor is the presence of natural oils that give it excellent durability, even when it is in adverse environmental conditions. Perfect for outdoor environments such as terraces, swimming pools, etc..

FINISHES

The teak decking FSC® ZANUSOlegno, is available natural or with an aged gray treatment that allows the wood to achieve the color it would have after years of outdoor exposure.
