

# CAMSER

Italian manufacturers of specialized mechanics

## ONE STEP AHEAD

We have what you seek for mechanical industry

[www.camser.com](http://www.camser.com)

Italian manufacturers of specialized mechanics

*CAMSER is an Italian export promotion Consortium gathering companies in the sector of mechanics and high technology, which aim at expanding commercial borders on international markets.*

*Since 1981 CAMSER has been supporting and assisting its companies in the organization of international projects for the business development, encouraging the sharing of common objectives, promotional, commercial and manufacturing cooperation.*

*In CAMSER you can find 2 main manufacturing units:*

## OEM Manufacturing

Machines, equipment, components and accessories.

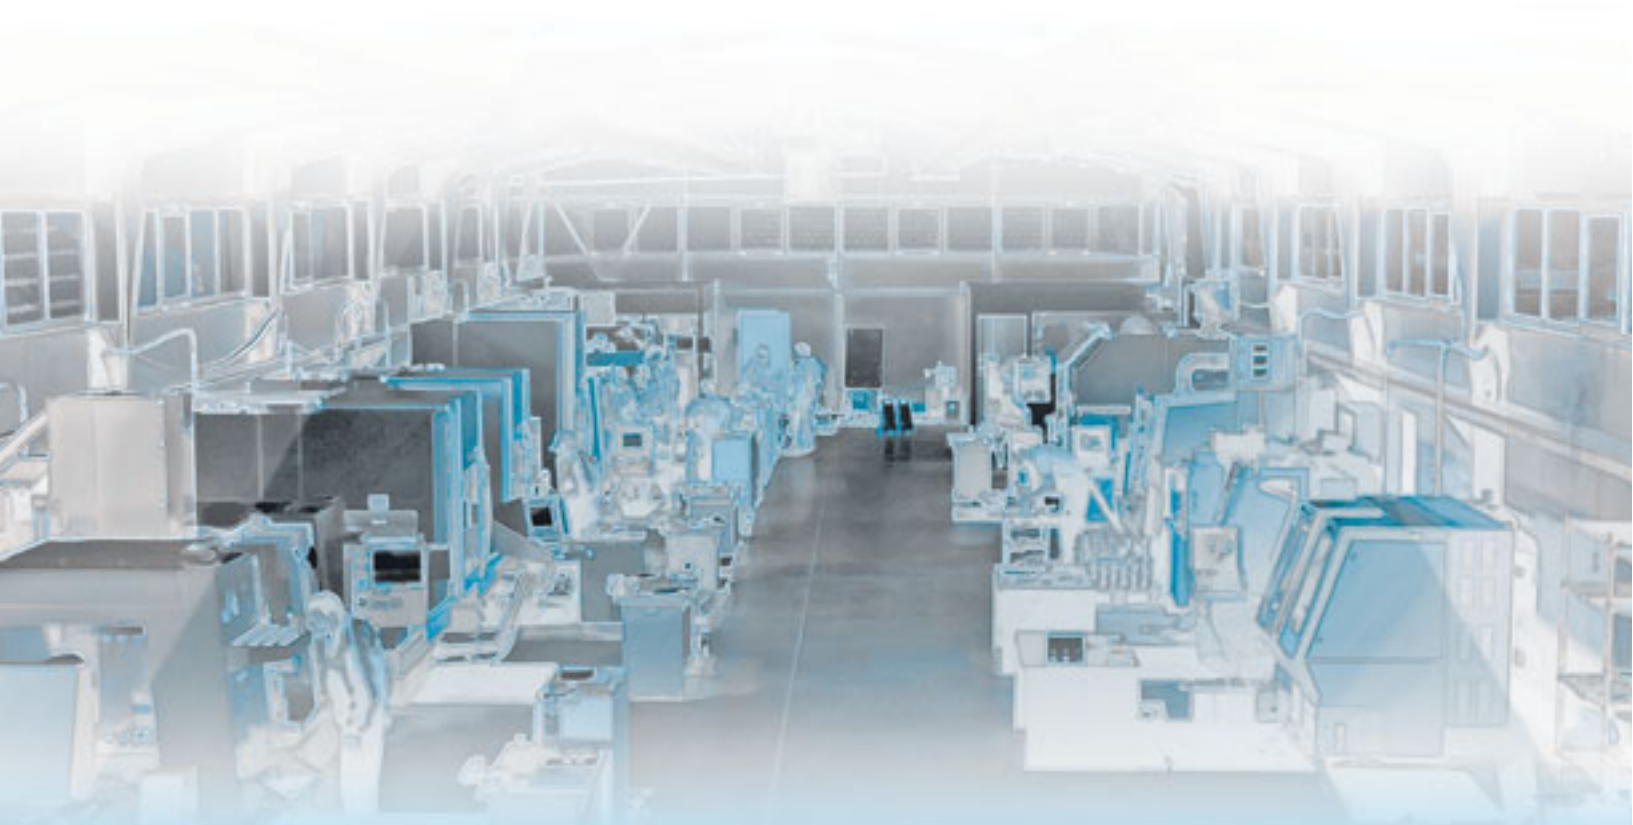

## Subcontracting

Subcontracting services such as turning, milling, metal structural works, stamping and shearing, optics, product and process automations, electromechanics, mechatronics, etc.

*CAMSER range of products and services are aimed at a lot of industrial sectors as automation and robotics, electronics and electromechanics, medical and biomedical industry, pneumatics, plastics, building and agricultural machinery, packaging, automotive and so on all over the world.*

# OEM Manufacturing

A pool of companies offering cutting-edge technology and customized solutions for every industrial sector!

CAMSER is based in Emilia Romagna, one of the wealthiest northern Italian regions, with a long-standing tradition in mechanics.

FERRARI, LAMBORGHINI, DUCATI AND MASERATI are some of the world-known brands that have their origins in this area and a lot of other manufacturing leaders in the sectors of packaging, medical equipment, power transmission and automation, have their headquarters in this region.

The small and medium companies, here located, can grant long-standing experience and high skills in every phase of engineering, prototyping, manufacturing and after sales assistance, thanks to an hystorical background and open-minded approach.

CAMSER is the right partner for OEM and distributors that want to find qualified and selected partners for the international business development.

Follow us on

## International services for our Member Companies

Through its partner network, CAMSER offers to its member companies a lot of services for common and/or individual needs aimed to an international development.

- Strategic and operational marketing consultancy
- Digital and social media marketing assistance
- Markets analysis
- Prospect research and creation of qualified DB
- Temporary Export Manager services
- Interpreter and translation services
- Assistance for participation at financing calls
- Assistance for fairs participation
- Registration and deposit of trademarks and patents
- Assistance for international contracts
- Etc.

**CAMSER: YOUR BEST INTERNATIONAL PARTNER**
