

## **BEST AGRIA'S FERTILIZERS**

*(these are the most requested fertilizers both in Italy than in the foreign market)*

### **BETAINE**

*(Organic fertilizer which increases the resistance of plants to drought and salinity)*

### **CU COMPLEX**

*(Copper-based fertilizer with fungicidal action against mildew, alternaria, etc.)*

### **SUPERMICRO ZINCO MANGANESE LSA**

*(Chelated microelements essential to increase flowering and fruit setting)*

### **AMMINO-BIO**

*(Organic fertilizer with a marked growth and assimilation action)*

### **HGT**

*(Important to ensure rooting of plants)*

### **ZEATINA H**

*(Increases the rooting of young plants)*

### **K-FOS**

*(Fertilizer rich in phosphorus and potassium with a strong fungicidal action)*

### **SPEED UP**

*(Microorganisms capable of regenerating soil fertility)*

### **ALGHE AGRIA (powder)**

*(Organic matter with biostimulant effect)*

### **ALGUES LIQUIDES**

*(Organic matter with biostimulant effect)*

### **STAR UMIK**

*(High purity humic acids)*

### **START 30**

*(Nitrogen-rich fertilizer capable of improving plant growth)*

#### **CALCIO-MAG**

*(Compound capable of making the plant more resistant even in the presence of salt water)*

#### **CALCIO LIQUIDO**

*(Calcium fertilizer important during fruit growth)*

#### **BORO 11**

*(Indispensable for pollen formation and fruit setting)*

#### **BIOFERT GIALLO 133**

*(Balanced ternary fertilizer rich in phosphorus and potassium important in the growth and maturation phases)*

#### **BIOFERT VERDE 311**

*(Nitrogen-rich ternary fertilizer for the early stages of plant and fruit growth)*

#### **FERROCHEL 438**

*(Iron chelate stable and assimilable by plants even at high pH)*

#### **MICROCHEL MG**

*(Line of chelated trace elements, immediately assimilated by plants)*

#### **SULF CAL**

*(Chelation of organic calcium to increase the rate of assimilation by plants)*

#### **ECOSAN 14**

*(Organic mineral fertilizer to increase the growth of young plants)*

#### **PREFERT**

*(Organo-mineral fertilizer stimulating the growth and flowering of plants with high phosphorus content)*

#### **SUPERVIT**

*(Organo-mineral fertilizer of vegetable origin with high nitrogen content)*

#### **AGROS**

*(Natural defense product capable of creating a film on plants with a suffocating action on insects and eggs)*

#### **AGRI PLUS**

*(Magnesium fertilizer with acidifying action)*
