

PIR.SA.FA. SRL: FASHION AND PLASTIC ACCESSORIES

For the shirt and leather industry

Founded in 1958 by Ferruccio Pirani and his son Fabio, along with his brothers, Pir.sa.fa. has always produced in Italia accessories for the shirt, clothing and leather goods industries. Set up as a small company specialised in the production of buttons, today it boasts a long list of lines: size markers, seals, micro-seals, clips, collar inter-lay strips and Pvc collar stiffeners and countless other plastic accessories. The vast range of what is on offer can be put down to the company's growth, which over the years, has been able to innovate specialising in pressing, machining and cutting of plastics and Pvc. And today its accessories are fitted on some of the major

PICCOLI MA IMPORTANTI DETTAGLI

made in Italy clothing brands, as well as being exported to foreign markets. Pir.sa.fa responds quickly to customer requests thanks to its machinery for hot pressing, screen printing and

pad printing. Similarly, it is able to ensure a customised service on the articles produced. Its commitment to innovation has enabled Pir.sa.fa to create patented original products. At the same time, the company hasn't forgotten its roots and preserves the traditional machinery that characterised the company's beginnings. A great deal of attention is also paid to environmental protection and health through the use of certified raw materials and avoiding the use of harmful products.
