Since 1965, we have been manufacturing men's, women's and children's stockings and tights in high-quality natural fibres. Passion, technology, and quality are the winning ingredients that have taken our company from being a family business to an international reality, with approximately 200 employees in our locations in Italy, in the Italian hosiery district in Castel Goffredo, and in Serbia. We offer our customers products from our brand "Pezzini be natural" as well as private label products.

We adapt and satisfy the demands of the brands we work with, following the guidelines provided to us.

# RESPONSIBLE PRODUCTION

100% IN-HOUSE  
PRODUCTION CYCLE FOR  
FULL QUALITY CONTROL

From weaving to ironing, from sewing to packaging and quality control, we directly manage all the stages of our production chain, with a special focus on manual finishing that requires a high standard of craftsmanship. This is why we are a reliable and flexible partner, also in terms of timing, for the production of private label products, with the same attention and impeccable quality applied to our own brand products.

# CERTIFICATION

PEZZINI

**OCS** (Organic Content Standard) & **GOTS** (Global Organic Textile Standard) assure the organic origin of the textile fibre used in our products.

The **Oeko Tex Standard 100** certificate, of the highest safety standards, guarantees the absolute absence of undesirable harmful substances in the finished product.

We have joined the **BSCI** (Business Social Compliance Initiative) programme, an initiative of top international companies committed to human rights, which certifies compliance with ethical working conditions throughout the production chain.
