

PASTELLI®

ELEVATING PROFESSIONAL'S LOOK THROUGH FASHION

Fashion and mentality change constantly, and they are strictly connected to the age, the Country and, in our case, the sector of the main activity. We use our long experience in the textile together with our deep knowledge of the medical fields to find the key to our clients' happiness, to create something that enhances their professional look and that makes their working time easier.

Our Philosophy

Still a family business since 1929

Our family started back in the 1929 the textile adventure. The production was converted from ladies' coats, to medical uniforms thanks to the sector knowledge of the other side of our family.

The basic concept was, and still is, to offer only and extremely high quality, original and elegant cut, a great attention to details without forgetting comfort and high performance.

Thanks to this approach the Pastelli brand has become a well-known brand all around the world.

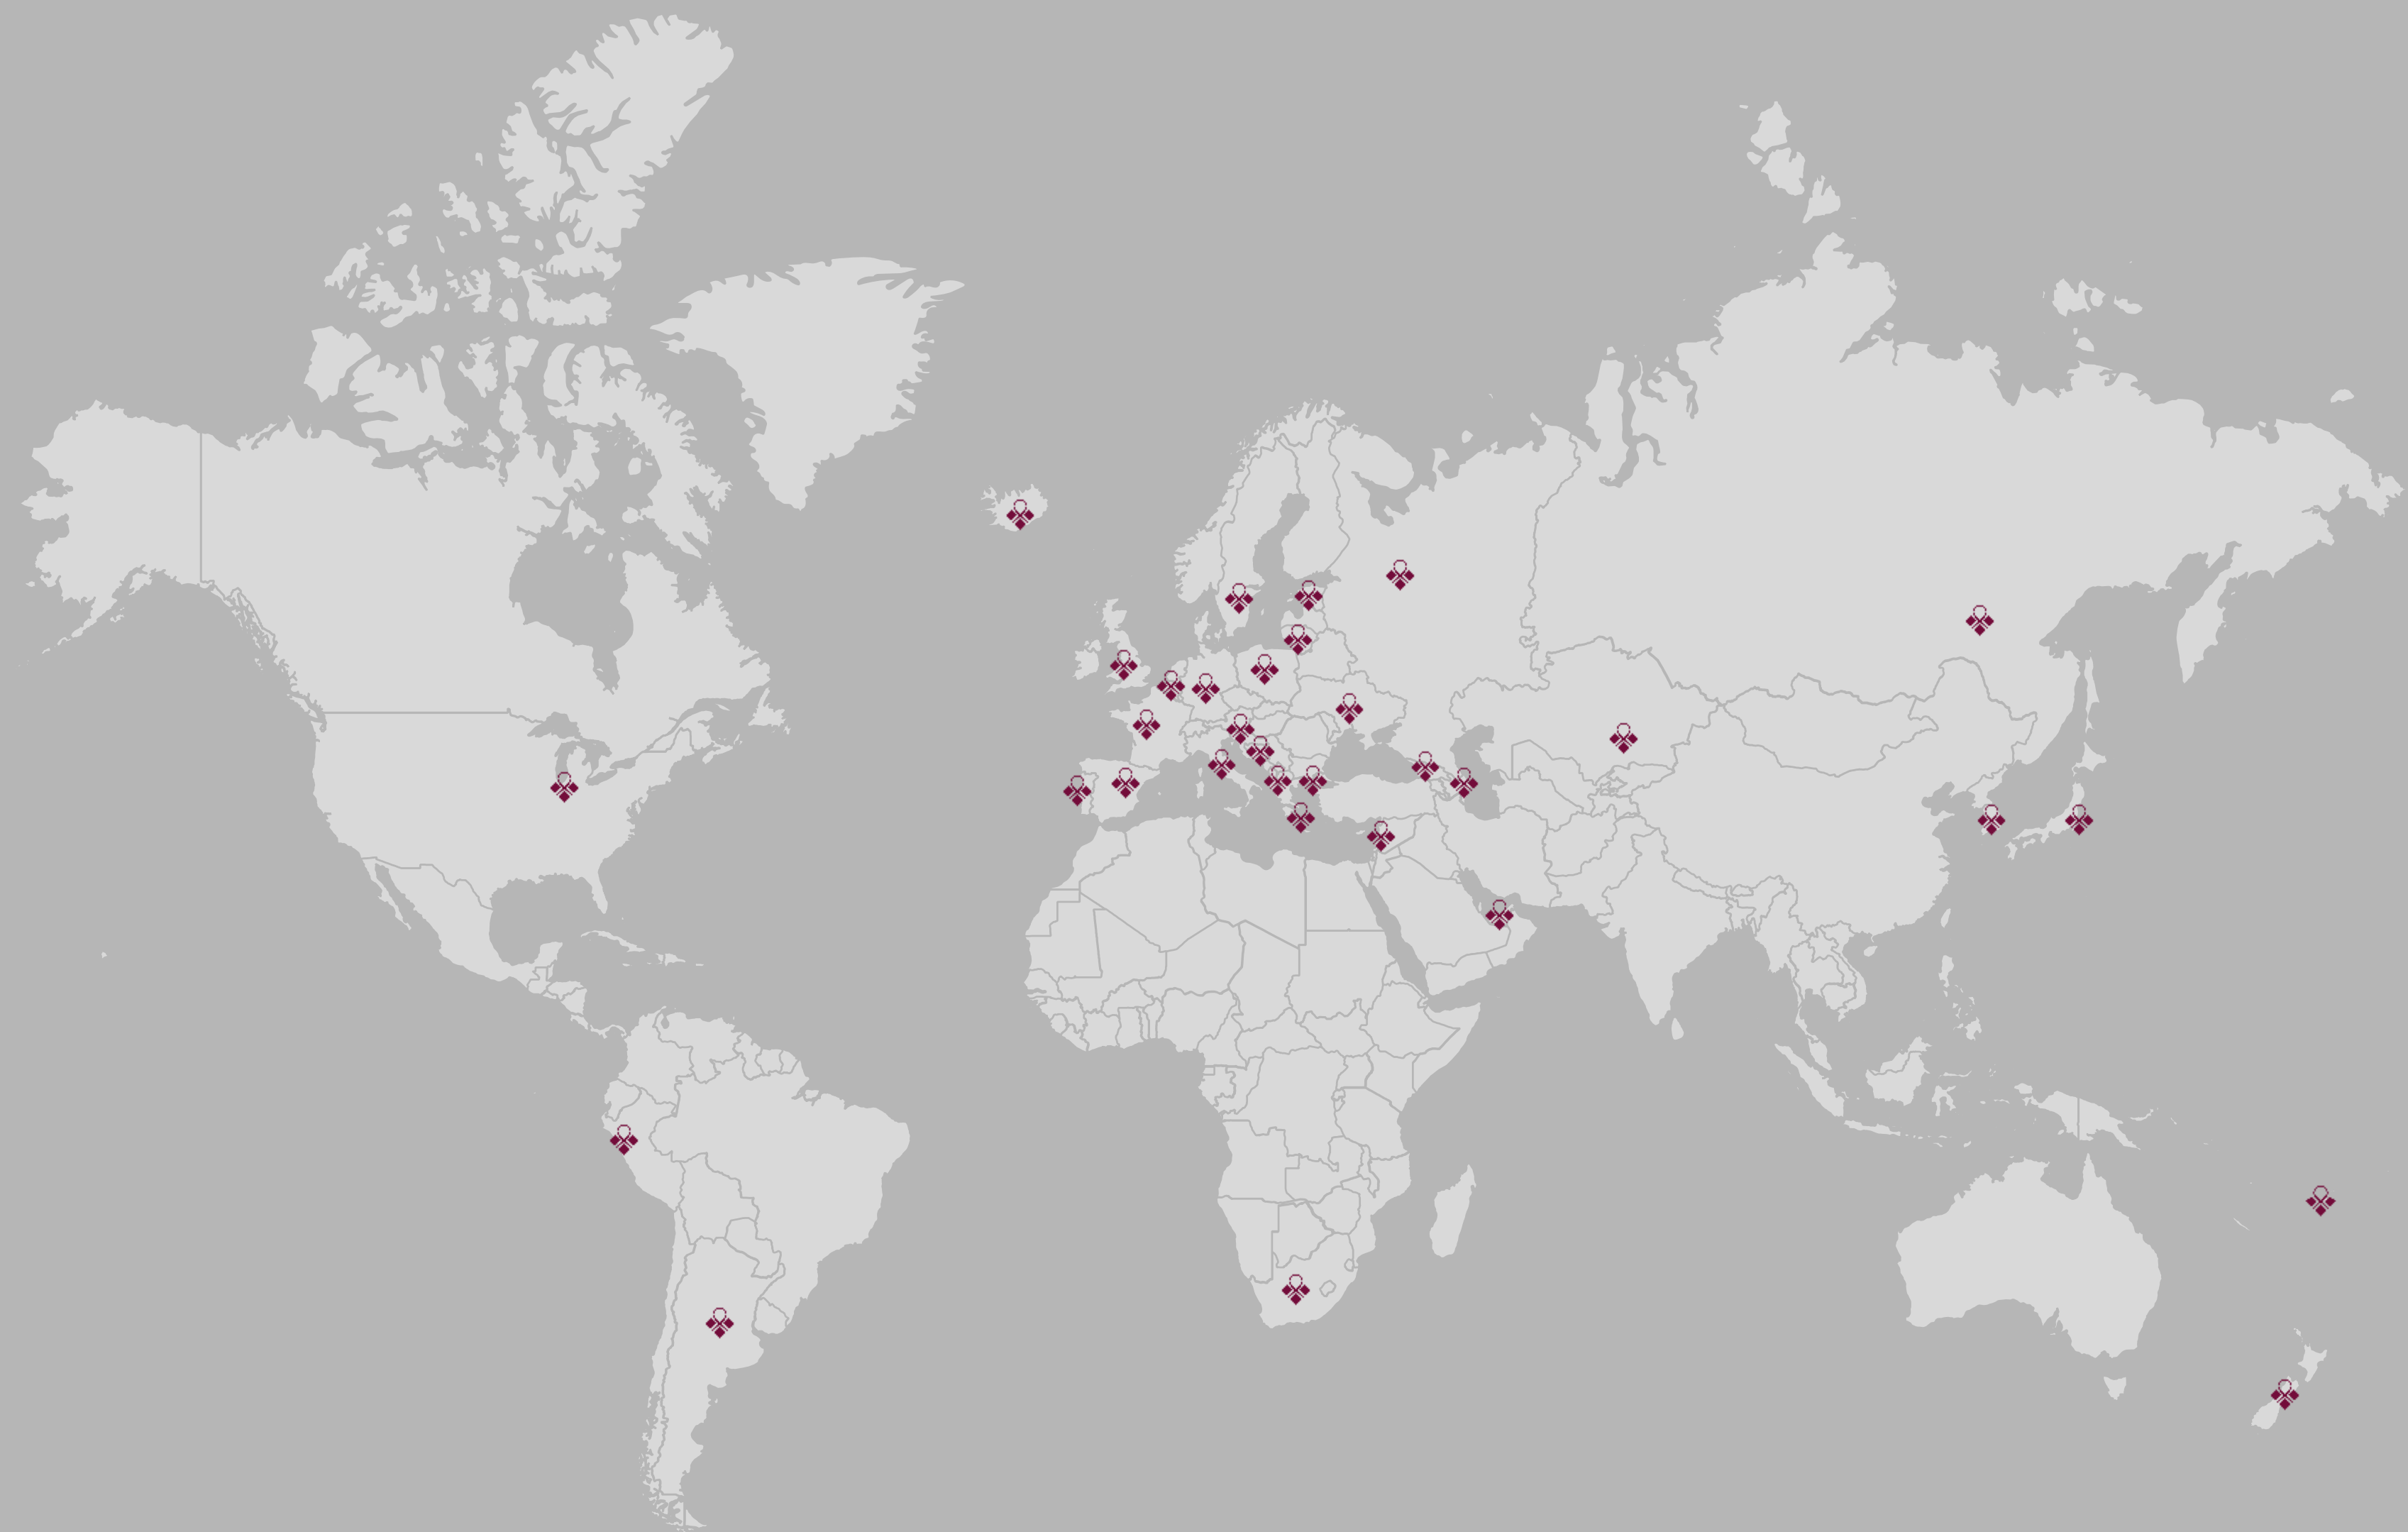

WORLD MAP

We are proud to create only long lasting cooperations. In many cases we are working today with our dealer's sons.

If you decide to embark on your journey with us, you will be part of something special, a real team that is dedicated to make a positive impact. So, wherever you are in the world, know that your contribution is integral to our collective success.
