# LAB

The decision to partner with research centres and universities, such as Unicam, IUAV, Parsons School and Domus Academy, to experiment with new concepts, materials and cutting-edge technologies has always been integral to TM Italia's philosophy. The R&D team develops innovative projects in terms of ergonomics, functionality, automation, accessibility and environmental sustainability, looking to the future and developing new visions and ways of conceiving the kitchen space.

Oready, the Sustainable Kitchen Project.

# MADE IN ITALY

TM Italia's production site remains in the hills of the Marche region where the company was founded, near Ascoli Piceno. The production line integrates sophisticated woodworking techniques with advanced automation processes. The result is a manufacturing structure that works on highly customised and effectively unique projects.

# A WORLDWIDE COMPANY

TM Italia has an extensive distribution network and excellent product visibility in some of the most prestigious multi-brand stores in the world. TM Italia's ateliers, located in London, Parma, Naples, Rome, Bergamo, Brescia, Milan, Lugano, Zurich, Sydney, Vancouver, Moscow, St. Petersburg, Kiev, Miami, Cancun and Mexico City, are the real incubator of projects, achieved as a result of skill, passion and "tailored" experience, which have always been TM Italia's distinctive traits on international markets.

# TURNKEY FURNITURE

The skill and design flexibility of the R&D team allow TM Italia to offer a wide range of solutions from kitchens to living rooms, wall systems, bathroom, technical furniture, with the integration of doors, soundproofing systems, lighting and electro-assisted movement systems, air conditioning systems, air intake and purification systems, home automation solutions and remote controls. The result can range from the customisation of the solutions offered in the catalogue, to the development of custom furnishings and the supply of turnkey interiors.

# CERTIFICATIONS

## Ecological panel

The panels which the structures are made of are realized with 100% recycled wood, without affecting new green areas, respecting the environment and safeguarding the forests.

## PEFC

Ensures that the wood material used to create the panels comes from the Chain of Custody and that it reaches the high standards of environmental protection.

## Remade in Italy

Ensures the exclusive use of recycled wood during production.

## E1

Ensures that the product has a release of formaldehyde below 2,5 mg/m<sup>2</sup>h and a concentration lower than 0,1 ppm (parts per million).

## FSC

Ensures that the wood material used to create the panels comes from the Chain of Custody and comes from certified FSC forests and guarantee reforestation.

## PFS TECO · CARB P2

Ensures a low release of formaldehyde according to the parameters of the California Air Resource Board (0,09 ppm).
