

CAFFÈ
NINFOLE

Founded in Taranto in 1921 by **Ciro Ninfolè**, Caffè Ninfolè S.p.A. is the oldest roasting company of Puglia. The current producing establishment was built in Taranto in 1992 on an area of 12,000 square meters of which 4,500 are co-

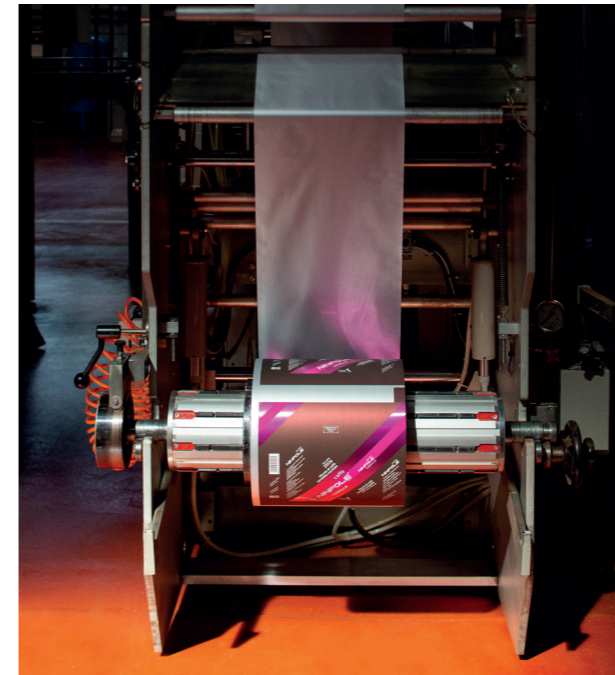

vered and this is the result of the perfect evolution of an artisan product. The best qualities of coffee used come from the main producing countries (Central America, Africa, Indonesia). Caffè Ninfolè produces and markets blends of

roasted coffee beans, vacuum packed ground coffee and ESE paper pods. Each production step takes place under the tight control of a computer system supported by analysis laboratory and tastings (Quality Management System UNI EN ISO 9001 certification). Thanks to a photovoltaic panels system and the use of compostable and biodegradable materials for packaging, Caffè Ninfolè contributes to protect the environment protecting the future of the new generations.

Currently Caffè Ninfolè S.p.A. is a direct producer of important national and international brands, especially with roasted and ground coffee specialities powder in 250g, 500g, 1Kg sizes and ESE pods.

Caffè Ninfolè has state-of-the-art roasting systems and dedicates skilful craftsmanship to the production process, ensuring the consistency of quality and traceability of each product.

With the spirit and pride of Made in Italy, Caffè Ninfolè distributes its products with seriousness and experience throughout the Apulian region. Knowledge, competence but above all love and passion are the secrets that allowed Caffè Ninfolè, over all these years, to delight the palate of millions of people becoming an iconic product for Taranto and its province.

CAFFÈ
NINFOLE

Due mari, un solo caffè. Dal 1921
