

AZIENDA VITIVINICOLA BATTIFARANO

Vini • Cultura • Agricoltura

Our History

Masseria Battifarano has belonged to the Battifarano family for over five centuries, across 17 generations. The estates, with a total area of approximately 100 ha, are dedicated to vineyards (35ha), with olive and peach cultivation. They lay on the Ionic coastal area of Basilicata, the land also known as “Enotria”, with reference to the “people from the land of vines - Οἰνωτρία”.

Our Vision

We believe in an integrated management system and we aim to balance the economic, environmental, and social aspects of farming, creating a resilient farming system in the long-term. Our dynamic approach aims to deliver more sustainable agriculture, combining the best of modern tools and technologies with traditional practices.

Our Mission

Our goal is to create quality products, working with commitment and dedication, to reap the good fruits of a generous land. Through our Basilicata IGT and Matera DOC wines, we want to tell the history, culture, and uniqueness of our territory.

Our Wines

Our Winery expresses the best mix between the traditional “wines of place” and great international blends, combining the native vines such as Primitivo and Greco, with international vines such as Chardonnay, Merlot, Cabernet Sauvignon. Our wine portfolio ranges from traditional powerful, inky reds from Primitivo, to fresher reds and rosés, as well as some fruity and bright white wines.
