### **How to maximize the DOMINO effect ( Masks example ) by Marygraceskincare**

#### **Introduction :**

Every indications here, are just suggestions on how to use "DOMINO suite" and these are not representing rules. Even because our philosophy want to represent a free approach and a versatile use of the cosmetics, changing the beauty routine.

*The beauty routine is changing with DOMINO approach because you can afford to mix together all our products as the Mix and Match philosophy, optimizing costs and consume having also the opportunity to have Billions of combinations with just 4 products for all skin types in your beauty bag!*

#### **Our Philosophy in FOUR points :**

1. Lower impact on environment, having just four products (mixing and matchable) + One cleaner ( DOMINO brand ) to create your complete line of beauty for face. Every product can be used also alone and independent from the others
2. Easy to use and suitable for all humans : Billions of combinations thanks to four products "Suite" matchable to guarantee the perfect mix for your skin, which is different from anybody else, and every day different.  
One of four is a Cosmetic Spray
3. Inspired by Taoist philosophy : focus on the balance between the parties to reach the ultimate Sophistication, in one word, SIMPLICITY.
4. Common base components for all products (DOMINO brand and Marygraceskincare) are Dynamized Water ("treated" with positive vibes intention) and Sango Coral.

#### **Environmental approach :**

The DOMINO philosophy helps the environment in FOUR ways :

1. Few containers to dispose
2. Containers are glass and aluminum recyclable
3. DOMINO beauty mask ( and any applications in general ) does not leave residue on skin face for any combination you will create: Water use efficiency during the rinsing, ensuring less waste of the precious resource.
4. With DOMINO, you do not need to have plastic components (or silicone ) to apply the mask. In fact, your mask will be absorbed completely at direct contact in 15-20 minutes max.
