# “4B”: an emotional sign of beauty

Four “B’s” woven to create a single symbol. Four generations that have passed down experience and expertise. Four brothers that share the same passion for beauty, elegance and refined luxury, that is never an end in itself.

The story of a brand, contained within a logo, a precious mark that is at once a symbol of grace and strength, of tradition and innovation.

# Bergamasco values: heritage, handcraft, quality, timeless style.

These values represent the foundation on which the Bergamasco brand was established and built: heritage that spans over 60 years of history and experience, craftsmanship conveyed through the skill and passion of our employees, Made in Italy quality that has been raised to the level of excellence and bags with innovative designs and timeless allure.

# Heritage to remember

The Bergamasco family has been working in the leather manufacturing industry since 1948: over 60 years of history, tradition and experience acquired in making superior quality handcrafted products.

The entrance of the fourth generation to the company contributed to the expansion of the business into the leather bag market thanks to the creation of the Bergamasco brand. Today the company has an internal organisation that provides it with the stability and solidity of an internationally structured corporation.

The Bergamasco brand is currently distributed mainly in foreign markets where the high quality of the Made in Italy name is particularly sought after and appreciated.

# The craftsman: a very human resource

There is something utterly captivating about watching experienced and skilled hands cut and sew, creating an exceptional end product from nothing: a piece that speaks for itself and tells the story of craftsmanship that goes way back, that has been passed down over time, according to tradition.

The craftsmanship of the Bergamasco brand can be seen in every detail, in the handmade finishes and the luxurious accents. These are bags made by expert craftsmen who express their passion for their craft every day and who wholeheartedly devote themselves to working fine leathers and using exclusive and exquisite materials. C&T Pelletterie, which manufactures and distributes the Bergamasco brand, was the first company in the province of Padua to attain the Artistic Craftsmanship distinction from the Veneto Region.

This important and prestigious acknowledgement certifies that the company carries out its production activities in accordance with ancient handcrafted artisan traditions, creating unique “handmade” products.

“Beauty is something extraordinary  
because it embodies the value of everything that is unique.  
It is a strong emotion that seduces the senses.

Beauty is the perfect balance between that which we desire  
and that which we cannot do without.”
