

BART

Broaches to give shape to dreams

OUR PHILOSOPHY

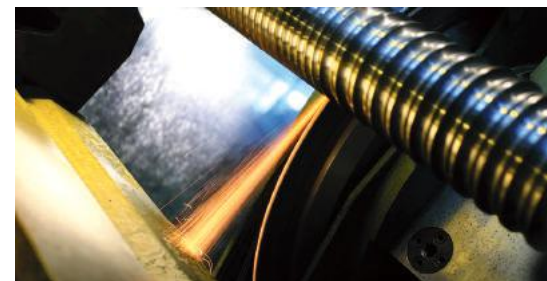

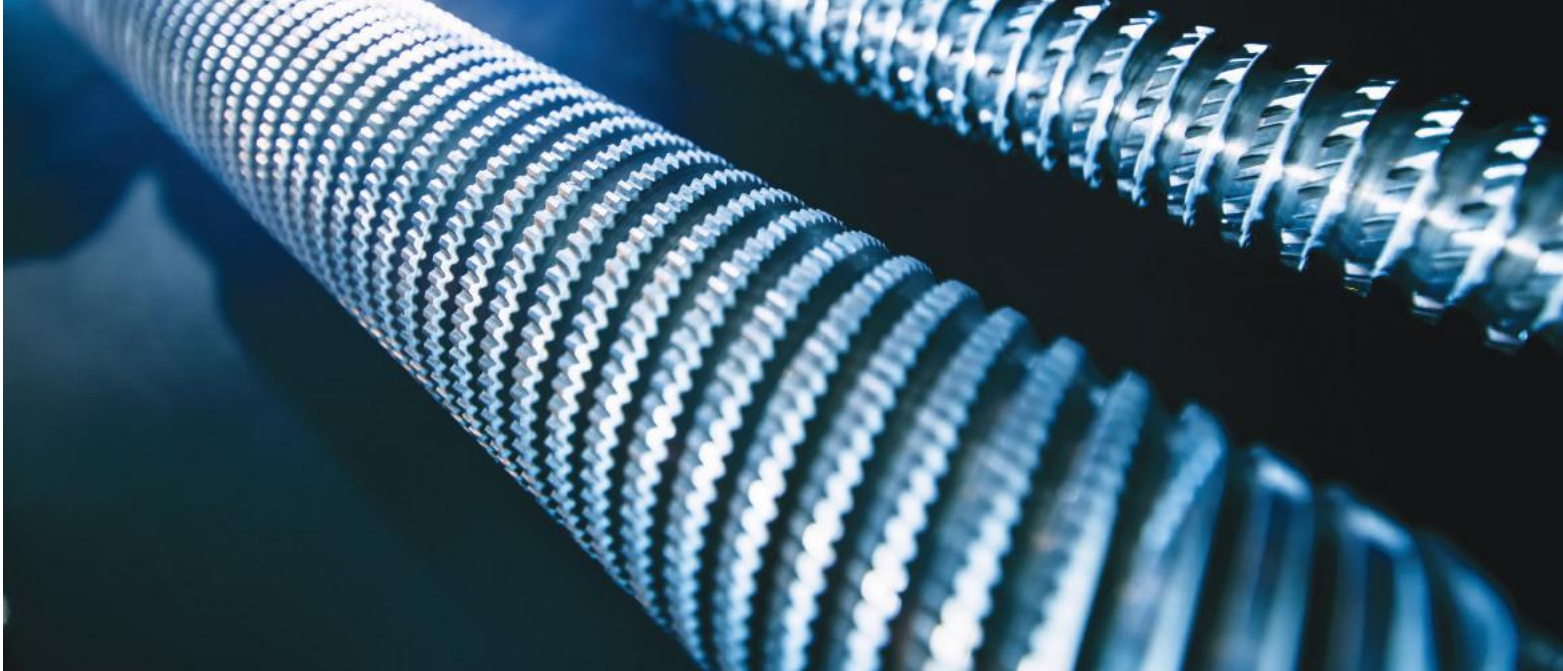

Since 1971 BART deals with broaches and broaching, ranking among the leaders of the Made in Italy in the field of precision mechanics. We bring value to the business of our customers in different sectors: aerospace, automotive, railway, agriculture and naval, proposing ideas and unique solutions in the design and manufacture of broaches and quickly solving the most varied and complex requests in the field of broaching.

The production activity takes place in the new Grugliasco plant, at the forefront of environmental sustainability policies.

We are ISO 9001/2008 certified.

PRECISION BROACHING

V.I.P. STRATEGY

Three core values of our identity

■ VELOCITY

Extremely fast delivery times: we produce broaches in just 30 days, to meet ever less programmable demands.

In addition, a wide range of broaches available in stock ensures instant delivery for standard profiles (catalog available on-line).

■ INNOVATION

Continuous investments in machinery and technology, combined with the use of materials chosen among the best available in the market, allowing us to produce high quality and precision tools for the most advanced and exigent market sectors.

■ PRECISION

We manufacture broaches up to 2700 mm in length and 350 mm in diameter, with very tight tolerances and guaranteed by scrupulous Quality controls and mandatory Certifications.
