

## **A Private Practice that is able to meet any requirements in the field of foreign languages**

**SC GROUP & C.** lives on the working experience of a well-established pool of professionals. Skills and synergy are the basis of our service oriented philosophy. The strengths of **SC GROUP & C.** rely on the range of its offer, on technical know-how and fundamental choices aimed at obtaining high quality levels.

**Research – Coherence – Timeliness - SC GROUP & C.** manages the translation of texts and conversations in the spirit of research, in the belief that a unique relationship must always be established between word and context. In an intercultural perspective the goals to be reached are always represented by terminological consistency and appropriateness of style, these two items must be constantly safeguarded. As far as the relationship with the Customer – which is kept confidential under the relevant provisions of law – is concerned, our “benchmarks” consist in quality assurance and timeliness in meeting delivery deadlines.
