Some our technologies

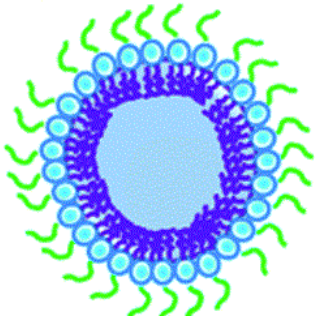

Compreezer®: Technology which preserves the ingredients thermosensitive (*fatty ingredients, some vitamins, probiotics*)

Duocam®: two chamber sachets

Complexation with lipid matrix (solid)

- Improve bioavailability
- Improve solubility in water
- Can grant gastroresistance to a powder
- Can grant special speed release in GI tract to a powder
(*ex FITOMINA and FITOSVELIA*)

Microemulsified ingredients (liquid)

Protect PI in gastrointestinal tract and improve bioavailability
(*ex. Iron,)*

Some our technologies

Procap Drops

- Improve the conservation of PI in drops.
- Greater activity or vitality of the active PI sensitive to contact with air, water or other solutions.
- Avoid the use of preservatives and stabilizers.
- Prevents premature mixing of components.

Probiotics

Active ingredients immiscible with water

Active ingredients that are easily degradable or temperature sensitive

Active ingredients not compatible with the rest of the formulation

Omeo Bimbo

Product in compliance with reg. 1333/2008 additives for food intended to children under 3 years old (Infants).

(all additives admitted, PRESERVATIVE FREE)

PHYSIO RELEASE®

PhysioRelease:

release of PI where it will be absorbed (small intestine)
(ingredients with a short half-life)

Food Emulsions:

- Improve solubility of PI insoluble in water
- Mask the bad taste of PI
- Improve bioavailability
- Great compliance

PEDIATRICS

- Protective Cream
- Nasal Hygiene
- Ear Hygiene
- Bath Oil
- Infantile Colics
- Multivitamins
- Iron supplementation (Microemulsioned Iron[®])
- Maturation of the neural tube,
the nervous and visual systems

Foods for Special Medical Purposes

Revaginal
Schiuma

150ml

Con Acido Borico e Clorexidina.

Indicazioni: Situazione detergente pronta per l'uso. Per l'igiene e la protezione come di routine, nonché occasionale, subito al di seguito dell'intercorrente non è possibile ricorrere alle comuni pratiche igieniche. Revaginal schiuma contribuisce a proteggere dalla proliferazione batterica formando un filmante lamina contro le aggressioni esterne. Non contiene coloranti né gas propellenti.

Modalità d'uso: Agitare il flacone prima dell'uso. Utilizzare l'apposito erogatore, versare una dose nel palmo della mano distribuito delicatamente la schiuma sui genitali esterni all'area perianale. Lasciare agire qualche istante quindi eliminare i residui con salvietta pulita o sciacquare.

Conservazione: Conservare a temperatura compresa tra 5°C e 25°C in un luogo asciutto. Evitare l'esposizione a fonti di calore localizzate ed al raggi solari. La proprietà del prodotto sono garantite dalla corretta concentrazione del prodotto in confezione singola. Conservare il prodotto nella confezione originale. Non riporre il prodotto nelle vicinanze di sostanze pericolose, come ammoniaca, benzina, acetone, sostanze che evaporano facilmente o infiammabili.

Avvertenze: Uso Esterno. Tenere fuori dalla portata del bambino al fine di evitare l'uso accidentale del prodotto. Non ingerire o inalare. In caso di contatto con gli occhi sciacquare abbondantemente con acqua. Nel caso di riconosciute intolleranze ad uno o più ingredienti ipotizzabili, evitare l'uso del prodotto. Non applicare su cute lesa. Non allargare il prodotto se la confezione non si presenta integra. Data la natura degli ingredienti contenuti, il prodotto potrebbe presentare un aspetto diverso da quello in foto: ciò non riduce la qualità del prodotto. Durante la gravidanza il prodotto deve essere utilizzato sotto il diretto controllo del medico. Non utilizzare il prodotto su parti intatte o sotto nei 2 anni di età.
