GAMASTECH
INNOVATIVE INFUSION SYSTEMS

A close-up photograph of a healthcare professional's hands, wearing teal nitrile gloves, gently holding a patient's hand. The professional is wearing blue scrubs and a stethoscope is visible around their neck. The background is a soft, out-of-focus blue.

PATIENT'S NEEDS ARE FOCUS OF OUR PROJECT

Demands, requirements and suggestions of healthcare professionals and patients are the heart of our project.

Trust and inspiration towards the research of new advanced solutions and progress achieved every day in our work find meaning and new pulses in the positive impact they generate in people's lives.

OUR MISSION

Gamastech aims to become a leading company in the worldwide medical and infusion market.

The innovation of implemented technologies and the introduction of new approaches in the administration and self-administration of drugs are the driving forces of our mission.

OUR VISION

Driving
Innovation.

Sharing
Change.

GAMASTECH
INNOVATIVE INFUSION SYSTEMS

OUR VALUES

The consciousness of the impact that our work has on people's health and well-being has inspired Gamastech in adopting 8 Guiding Values:

- INTEGRITY
- TEAM WORK
- QUALITY
- INNOVATION
- AGILITY
- PARTNER SUPPORT
- PATIENT'S WELL-BEING
- CONTINUOUS IMPROVEMENT

OUR HISTORY

Founded in 2009, with operational headquarters in Catania, Gamastech is specialized in the production and distribution of high-quality medical devices.

Gamastech products are intended for intravenous or subcutaneous administration of medical drugs.

Gamastech

From 2016, Gamastech also is the exclusive EU Representative of Comfort-in™ the innovative needle-free device, produced by Korean Mika Medical Co.

Since May 2016 Gamastech has been included in the Register of Innovative SMEs.

TODAY

Gamastech is considered among the leading companies in the infusion market by the most important and authoritative research journals.

- CE Certification
- ANVISA Certification of our products

PRODUCTION

Gamastech has a consolidated experience in the design and production of medical devices and infusion systems suitable for simplified and modular outpatient use in maximum safety.

Our search for technologies and solutions that can meet the needs of each patient has prompted us to create over 600 models and codes of elastomeric infusion pumps, different in volume, flow-rate management and application areas.

THE BEST CHOICE
FOR ACCURATE, SIMPLE
AND CONTINUOUS
INFUSIONS

GAMASTECH
INNOVATIVE INFUSION SYSTEMS

ELASTOMERIC INFUSION PUMPS

Viscosity:

Saline solution (NaCl)
or 5% glucose (D5W)

Temperature:

32C° (89.6 F)

Accuracy:

+/- 10% of the
nominal volume

MULTRATE

MULTRATE BOLUS

EXACTA™

number one 

SAFETY

DISCRETE

Flow Rates can be changed only by
clinicians thanks to its special key.

Designed to take up as little
room as possible.

EASY TO USE

VERSABLE

It's easy to change the flow rate
during the infusion, thanks to its
special key.

More than 600 flow rates to meet
the needs of the most important
and common therapies.

EDUCATION

Patient's health safety and the continuous development of medical knowledge impose to plan and constantly organize preparatory training courses for the use of each product.

An operational support that, thanks to the specialization and constant updating of its staff, Gamastech is able to offer to doctors, specialists, healthcare professionals and individual users, for administration in absolute safety and as an added value in the choice of our devices.
