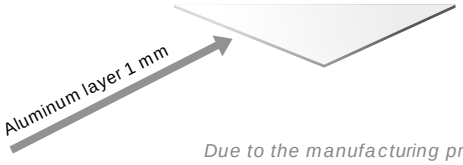
KEVRALL MINISPLASHBACK (KV)

The Kevrall minisplashbacks can be positioned between hood/hob or in back sink, its protect the walls from usually housework in kitchen (eg: boiling oil or pasta salty steam), as an alternative to standard tiles, or on top of existing tiles.

The Kevrall mini backrests are special 1 mm thick aluminum panels protected on the outside with a s**pecial transparent scratch-resistant glossy (KV-G)** or **scratch-resistant matt (KV-M)** transparent varnish.

The Kevral minisplashback have a special treatment that allows a high resistance to high temperatures and chemical agents.

PANELS COMPOSITION



OBLIGATORY
the assembly of the KEVRALL minisplashback
together with the front-mounted riser

Due to the manufacturing process the dimensions may vary ± 5%

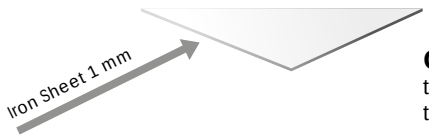
MAGNETOSTEEL MINISPLASHBACK (MS)

The Magnetosteel minisplashbacks can be positioned between hood/hob or in back sink, its protect the walls from usually housework in kitchen (eg: boiling oil or pasta salty steam), as an alternative to standard tiles, or on top of existing tiles.

The Magnetosteel mini backrests are special 1 mm thick ferritic steel plates protected on the outside with a special scratch-resistant glossy transparent paint.

The Magnetosteel minisplashback have a special treatment that allows a high resistance to high temperatures and chemical agents.

PANELS COMPOSITION



OBLIGATORY
the assembly of the MAGNETOSTEEL minisplashback
together with the front-mounted and siliconed riser

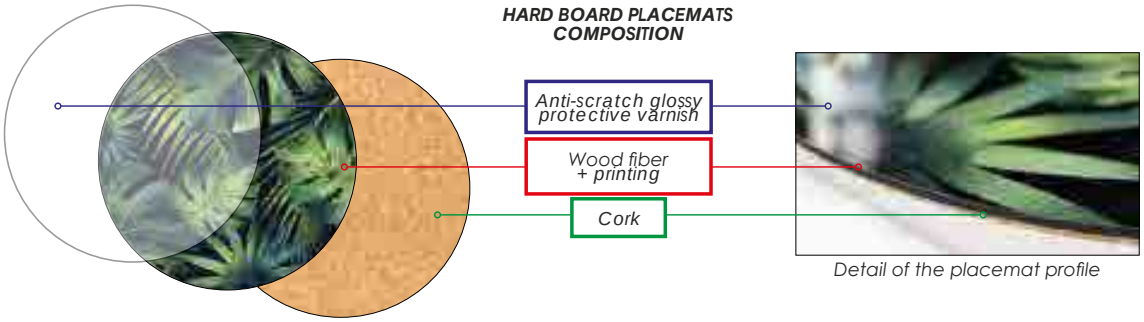
Due to the manufacturing process the dimensions may vary ± 5%

HARD BOARD PLACEMATS (HB)

The Coolors HARD BOARD placemats or coasters are born as kitchen accessories of various sizes and formats (round and rectangular).

The Coolors HARD BOARD (HB) mats or coasters are made of 3 mm wood fiber coupled in the back with cork, they are frontally protected with scratch-resistant transparent glossy varnish.

MADE IN ITALY with master craftsmans.

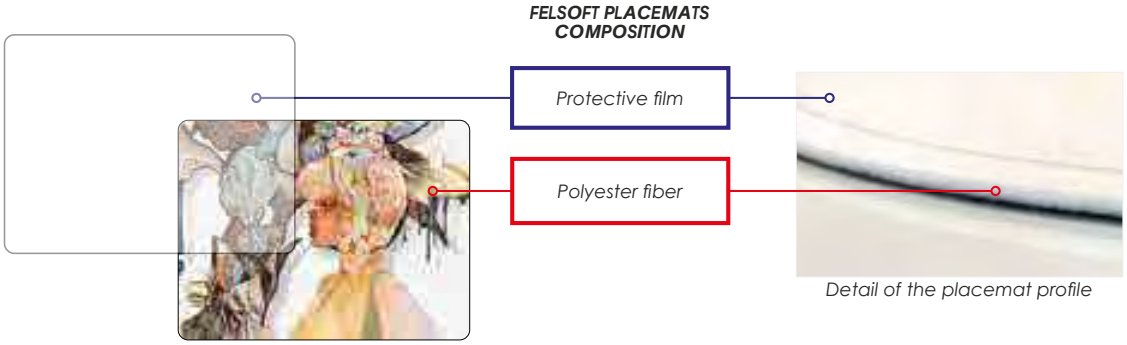


Due to the manufacturing process the dimensions may vary ± 5%

FELSOFT PLACEMATS (FS)

The Coolors FELSOFT placemats are accessories for kitchen. There are various sizes and formats (round and rectangular).

The Coolors FELSOFT placemats made by 3 mm thick high-density polyester fiber, the print is protected by a film for integrity and stain resistant.



Due to the manufacturing process the dimensions may vary ± 5%

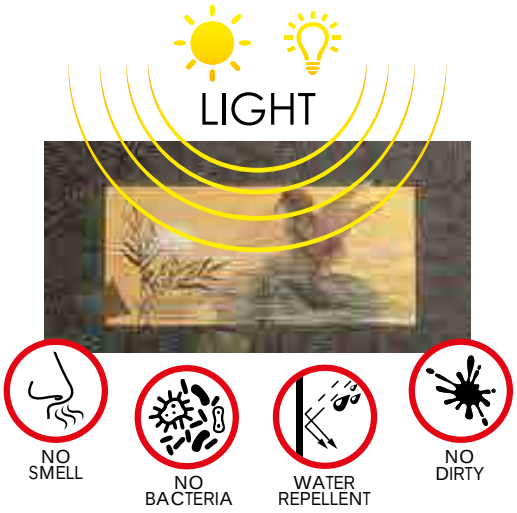
R130: PLACEMATS FOR TEA AND APERITIF

OPTIONAL

PHOTOCATALYTIC TRATMENT

anti-odor, antibacterial, superhydrophilic, self-clean

The photocatalytic treatment works by absorbing the light nearby and transforming it into an active catalyst. Bacteria, viruses, mold, gaseous pollutants, odors, stains are attacked and transformed thanks to this treatment in non-hazardous inorganic material, so the treated surfaces are kept clean in an active way. The treated surfaces become super-hydrophilic and, as a consequence, the pollutants are “washed away”; it also acts as an air purifier, because it decomposes dangerous organic substances and transforms them into oxygen. As a result, the photocatalytic treatment guarantees a cleaner and healthier environment, lasting up to 10 years, simply by absorbing light.
Normal cleaning with a wet rag does not remove the treatment.



Certified product by ETAT SA. standard ISO EN 27 447 ETAT SA (certification n.F1-P.430 e/4)

GIANCARLO RAMPAZZO

PRESENTATION VIDEO

SCAN ME

Giancarlo Rampazzo was born in **Padua** on **12 July 1952**, the first "real" pictorial experiences of **PAT** (this is the stage name used by the artist) date back to the mid-90s, a period in which the artist decided to give a animates its creativity through matter. It is a series of works in collage and mixed media, of abstract, elegant and refined intonation, with a clearly graphic imprint and origin; they are mainly played on light-dark shades, monochrome or with few shaded colors.

A few years later, after the first experiments in 2001, it is in 2002 that PAT determines the "definitive face" of his art, developed by creating volumes and shapes with the application of acrylic, polyester, silicone, glass and wood materials subsequently decorated with an airbrush giving unique tones and shades.

He has been defined as the **Father of FusionPaint**, in his works he dominates three-dimensionality, color and depth, "Pat" is the artist's stage name who realizes his works with a personal and unique technique, transforming them into visions of the world contemporary. His technique has evolved and consolidated over the years giving rise to his contemporary idea of matter in his three-e-dimensional works exhibited in the **most illustrious art galleries** such as the one in **New York** and even inside a luxurious **hotel in Dubai** in the presence of the **Sheikh Ahmad Romiti**.

Today the artist proposes his successes in the **Coolors Placemats** collection, for more information you can scan the QR codes on the side.

CUSTOM PRODUCTS

Discover the thousands of possibilities to customize your products by visiting our website on the page:

www.coolors.it/prodotti-personalizzati/

IN COLLABORATION WITH

depositphotos

The Depositphotos website allows everyone to buy high quality stock photos, vector images and videos divided into more than 30 categories.

1. Access to *https://www.coolors.it/prodotti-personalizzati/* and click on the first button **CUSTOMIZE YOUR COOLORS' PRODUCT**
2. Search the XXL file or V vector with the subject that you like by entering in the search engine the key word of your interest ("sea" for example) or by clicking on the main categories and start your search.
3. Request a quote and information from our operator by clicking on **REQUEST INFO** or on **CONTACT** and then filling out the form; the files sent can be edited by us (saturating the gray and blue tones) and / or modified in the dimensions in order to avoid problems during printing and to adapt them to the dimensions of the requested product.
4. If you confirm the order the XXL size file or V vector must be purchased to the customer and then sent to us the realization of pre-press rendering.

DOWNLOADED FILE ON DEPOSITPHOTOS

CUSTOM ROUND PLACEMATS

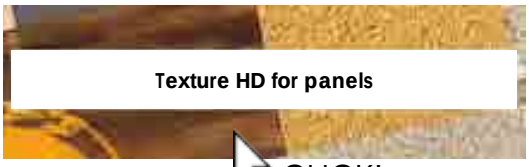
CUSTOMIZATION WITH PICTURES SEND BY CUSTOMERS

Coolors products can also be decorated with photos, images or graphic drawings sent directly from customers. The file must have a **HIGH RESOLUTION** (at least 120 dpi, recommended 300 dpi) and be PROPORTIONED to the dimensions of the support to be decorated (for example: a Ø 390mm round plate requires a square file with a central subject).
Before being printed every file is evaluated and eventualamento correct to be adapted to the press.

If desired, the customer can choose to provide files from other institutional file sales sites, including:

Adobe Stock shutterstock dreamstime 123RF

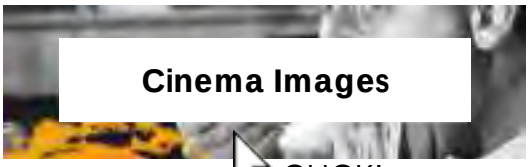
TEXTURE HD



CLICK!

The fourth button button of the customized product area allows access to the collection of **TEXTURES** scanned at **HIGH DEFINITION** and available for printing on Coolors panels. The collection includes many images that realistically represent the different natural elements: wood, stone, fabric, fruit, leaves, earth, water, but also pasta and rice!

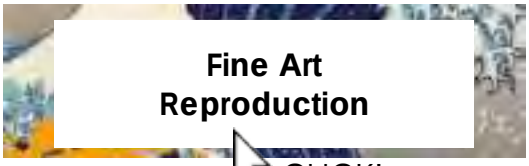
CINEMA IMAGES



CLICK!

The sixth button in the area of customized products of the Coolors website shows a gallery of photographs with famous **ITALIAN** and **FOREIGN ACTORS**.
Most of the images are photos taken at CINECITTA' during the shooting of famous twentieth century movies. It is possible to choose between snapshots taken from historical films like La Dolce Vita or Un Americano a Roma or between photographs, inside and outside the set, of great actors like Alberto Sordi, Sofia Loren, Totò and many others.

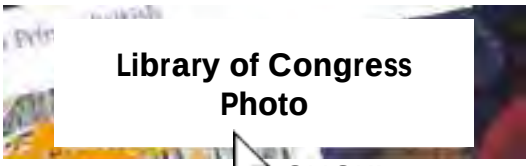
FINE ART REPRODUCTION



CLICK!

Coolors offers hundreds of files that reproduce the works of the **GREAT ARTISTS OF THE PAST** by simply clicking on the fifth button of the custom products area. The available reproductions are high definition images of masterpieces of art made by great masters such as Klimt, Manet, Monet, Raphael, Van Gogh and many others. The collection includes different artistic periods and pictorial styles such as Impressionism, Japanese Art, Expressionism, Art Nouveau, Pre-Raphaelites and Renaissance Art, Abstractionism and Cubism.

LIBRARY OF CONGRESS



CLICK!

The last button in the area of customized products of Coolors site directly accesses the collection of scans of images in **LIBRARY OF CONGRESS** of the United States of America.
The collections in the more than 50 categories are constantly updated and spread from themes such as baseball postcards to American Civil War photography, from photos of the Wright brothers' first flight to First World War posters.
