dal
1961

*“Brunello is not our profession, it’s our home.
And our home’s foundation is built on
love and passion”.*

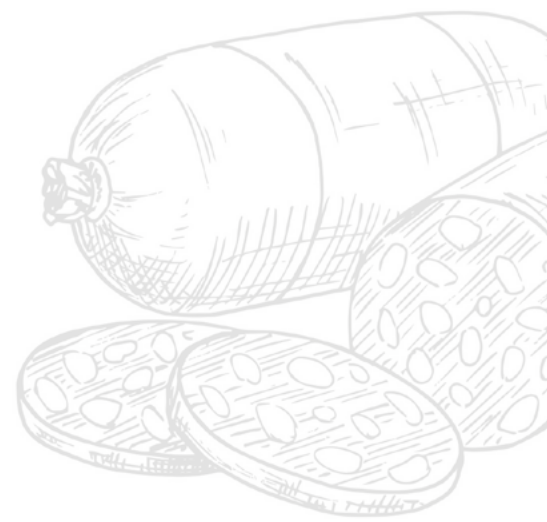

THE FOUNDER

Brunello Domini

BRUNELLO

Our company originated in Bassano del Grappa in 1961. It has grown from a small retail business to a fully producing and distributing brand, already established in three continents and determined to grow further.

BRUNELLO PRODUCES QUALITY

We produce cured meats by mixing the best of artisanal tradition handed down from generation to generation, to the best production technology. The commitment to continually improve our products through research and product development, together with efficient quality control systems, completes the picture that represents our company. All this is carried out in the company’s various plants. Bassano del Grappa, Vicenza: Administration, logistical, curing and packaging. Castelnuovo Bormida, Alessandria: production of cooked hams and roasted white meats. Marano Vicentino, Vicenza: production of our speciality Venetian cold cuts. 60 years of experience is our customer guarantee.

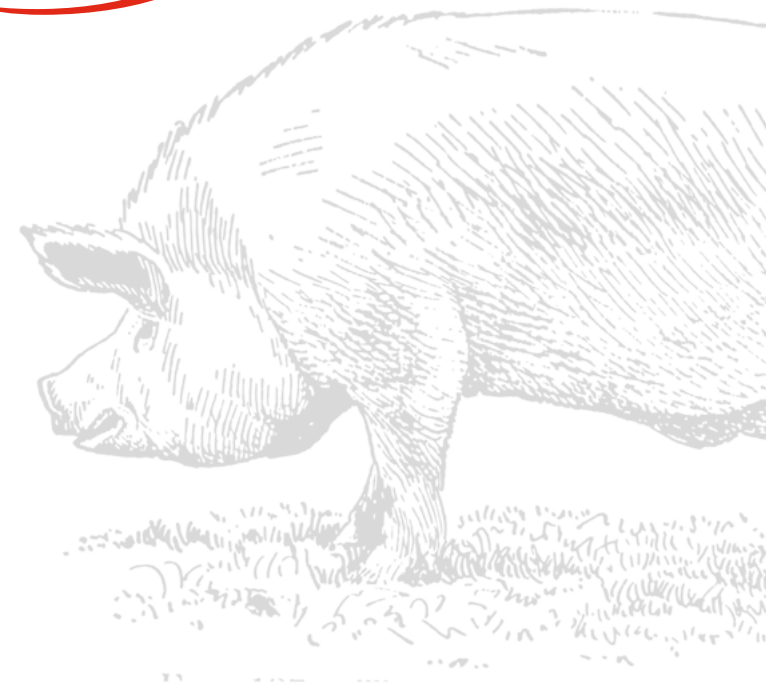

IL FUTURO

sa di buono

A FAMILY BUSINESS

The eldest brother, Gianni Brunello, head of distribution and sales, together with the youngest, Fabio Brunello, in charge of the administration and supply chain of the Brunello Group have engineered substantial growth for the Brunello legacy, managing the three production plants.

BEYOND PRODUCTION, OUR APPROACH TO THE MARKET

From the large-scale distribution market to the small shops, hotels to restaurants, we truly believe that our most important partners are our retailers. Our philosophy is dedication, attention and listening to our sales and post-sales teams. Arming them with promotional and strategic tools to optimise our business and theirs.
