MANIFATTURA ORAFA FIRENZE

24 generations of goldsmiths

Torrini Company Premise, for an added value business.

With so many years of a long goldsmith tradition, our Manufacture owns models then 11 thousand references. All being developed in house.

This very wide range of articles can already offer a wide choice.

In my experience, the best successes were achieved when the business partner identified the most interesting items for their core business.

This approach generates minor and substantial changes that strengthen the product to the benefit of both realities.

The "very first asset" to be focused is not the product «*per se*» but the potential to «fit» the products to a Market, always granted their absolute uniqueness, because our jewels are made only at our factory.

In fact, the most attentive will recognize the finishes of the surfaces of the jewels and of which we have the exclusive copy and intellectual property. The distinctive details (linings, inserts, embedding, use of diamonds, specific weight) that can be seen in our articles make them sophisticated objects for connoisseurs and admirers of the most careful executive quality, tradition of Italian craftsmanship.

All accompanied by the historical and unique IDENTITY of our Manufacture for a "strong" commercial expression.

Dott. Fabrizio Torrini

The following selection gathers «styles» «designs» and «*concept*».

All these items, can match and already hit the clientele or, by simply taking an inspiration, can be fitted to enhance their *character* to the latest Market's requirements.

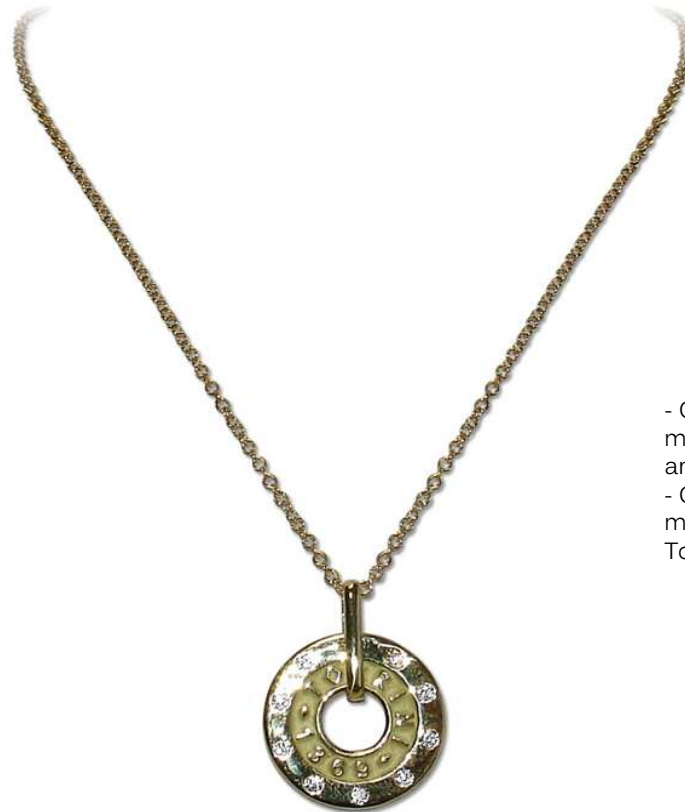

They show the 3 colors of gold we carry in our production «Yellow, Pink-rose and White»

Next to some of them, we have notes some extra information.

We will be pleased to create a selection with prices for all our «Partecipating Player»

«The Iconic Inspired style», with evidence of the Torrini Name in it.

- On the left a «Torrini hand made chain», shows a high artcrafted work.
- On the right a machine made chain, finished with a Torrini Style.

Torrini Original © textures have made so well known our production and inspired many Designers worldwide since our very first Collection 40 years ago. That collection, with a special Texture called «*Torrini originale*» was a reproduction of the 1800's classic goldsmith chains.
