cosmin

Maintenance as a profitable cost.

cosmin

Cosmin Srl is operating since 1962 in the construction, assembly and maintenance of industrial plants and their components, especially in the chemical and petrochemical sectors, in Italy and abroad.

The advantage of the company is the capability to solve any kind of problem relating to industrial plants, suggesting integrated solutions and providing technical consultancy to the clients.

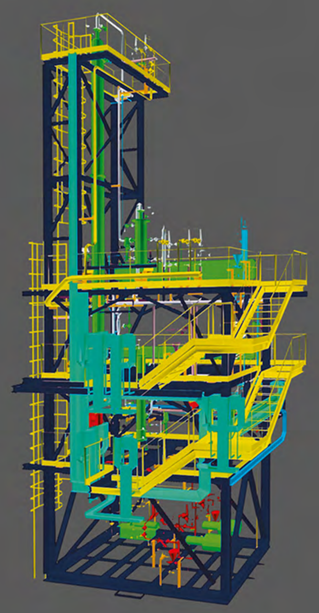
COSMIN IN NUMBERS

+ 50 YEARS OF ACTIVITY
+ 140 EMPLOYEES
+ 540 PLANT TURNAROUNDS

The main company services are:

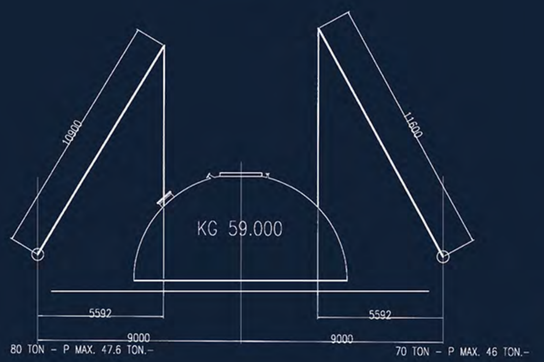
- management of specialized works for EPC and turnkey projects (from design to installation);
- consultancy service to realize the best engineering solutions;
- technical support during planned turnarounds;
- maintenance, revamping and replace of industrial equipments;
- supply of industrial equipments (pressure vessels, heat exchangers, cabled skids, reactors, etc).

We do our best to find the most innovative solutions with the intent to improve the plant efficiency and assure money savings.



POSIZIONE 1

POSIZIONE 2



cosmin

We have exported our products worldwide and we continuously invest resources to find new business relations with new international clients.

Cosmin can provide a wide number of references of jobs, in particular:

- construction, revamping and ordinary/special maintenance for Saras Spa, the second biggest refinery in Europe;
