

MEGAIITALIAMEDIA

eLearning company

Online courses and eLearning platform
for corporate training

Company presentation as of October 2020

From 1988 Mega Italia Media assists companies, organizations and consultants providing corporate training with success and effectiveness.

- **ELEARNING and CLASSROOM COURSES** for mandatory training on health and professional safety
- **DYNDEVICE ELEARNING PLATFORM** for the production, management and delivery of corporate training
- **USB/DVD VIDEOCOURSES**, document templates, software and applications, equipment and facilities, books and manuals

We are a team of 30 technicians, trainers, tutors and IT specialists with **over 3.500 active clients**.

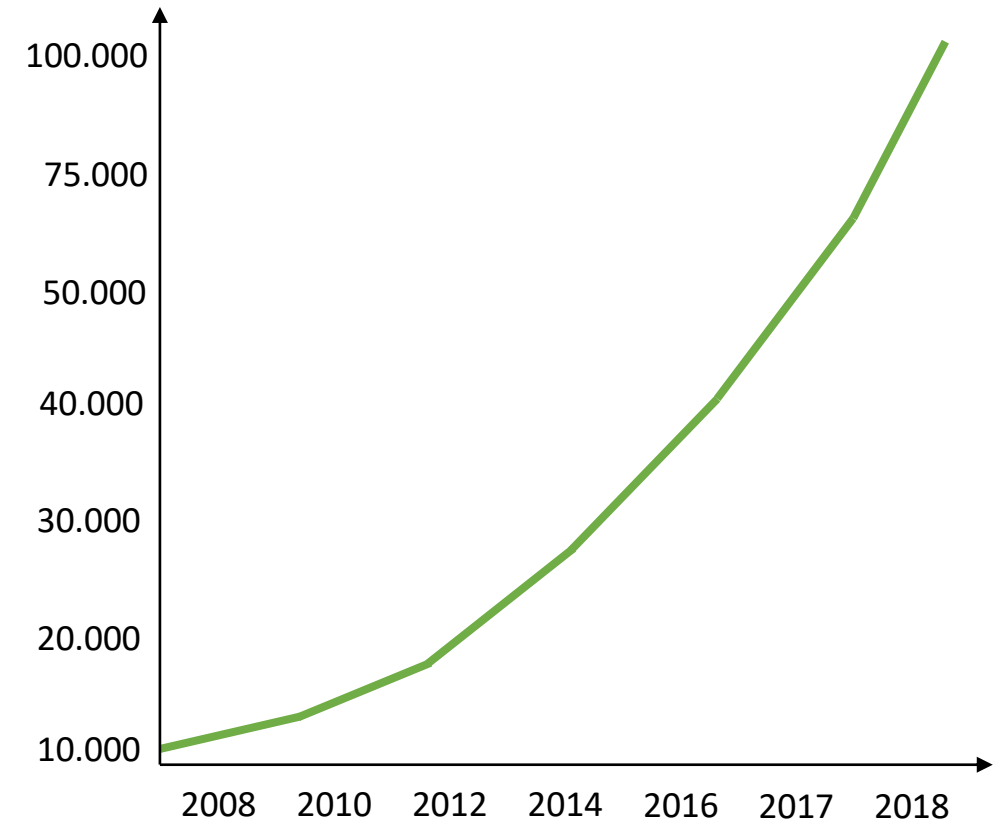

We have quality systems **ISO 9001:2015** IAS Register n.00468/05 sectors EA37 e 29, we are **ISO/IEC 27001: 2013** certified for the design and supply of multimedia training courses and online services through DynDevice platform; we are a training center accredited by the **Lombardy Region** Id: 406562/2009.

We're the editor of **PuntoSicuro** (since 1999 the online daily newspaper about professional safety, environment, security) and of **eLearningNews** (online bilingual publication about e-Learning).

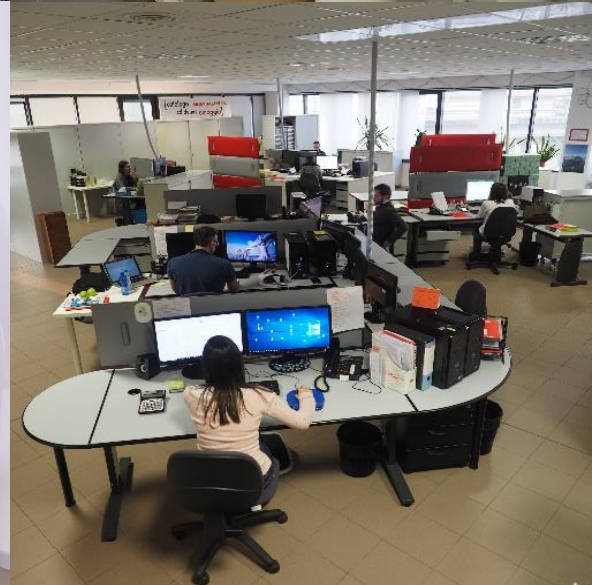

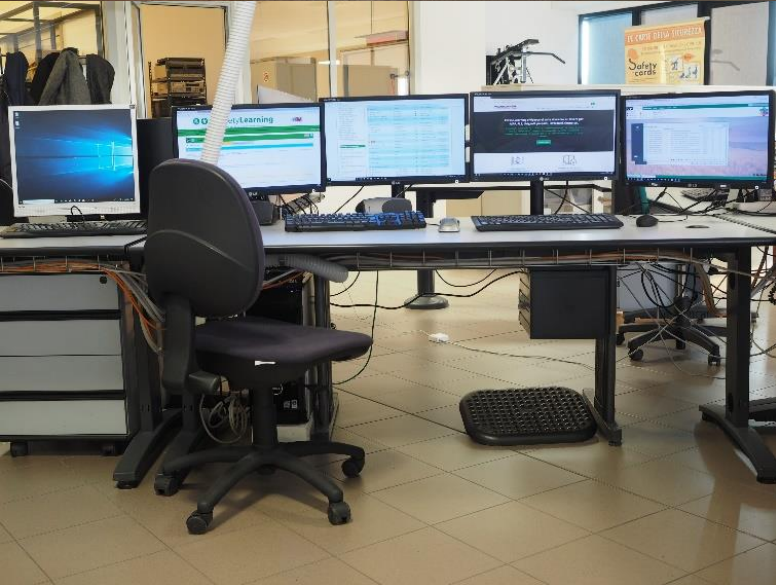

A track record of continuous innovation

1996	The first didactic product awarded at national level
2002	CD ROM video courses about safety
2004	Production and delivery of first eLearning courses
2011	Development of eLearning platform DynDevice and SCORM™ certification in the USA
2016	Catalogue of more than 100 eLearning courses
2017	DynDevice in English
2018	New HR module in DynDevice

Number of learners trained with e-Learning

Our technology base

Our catalogue has more than 150 titles of **ELEARNING TRAINING COURSES**

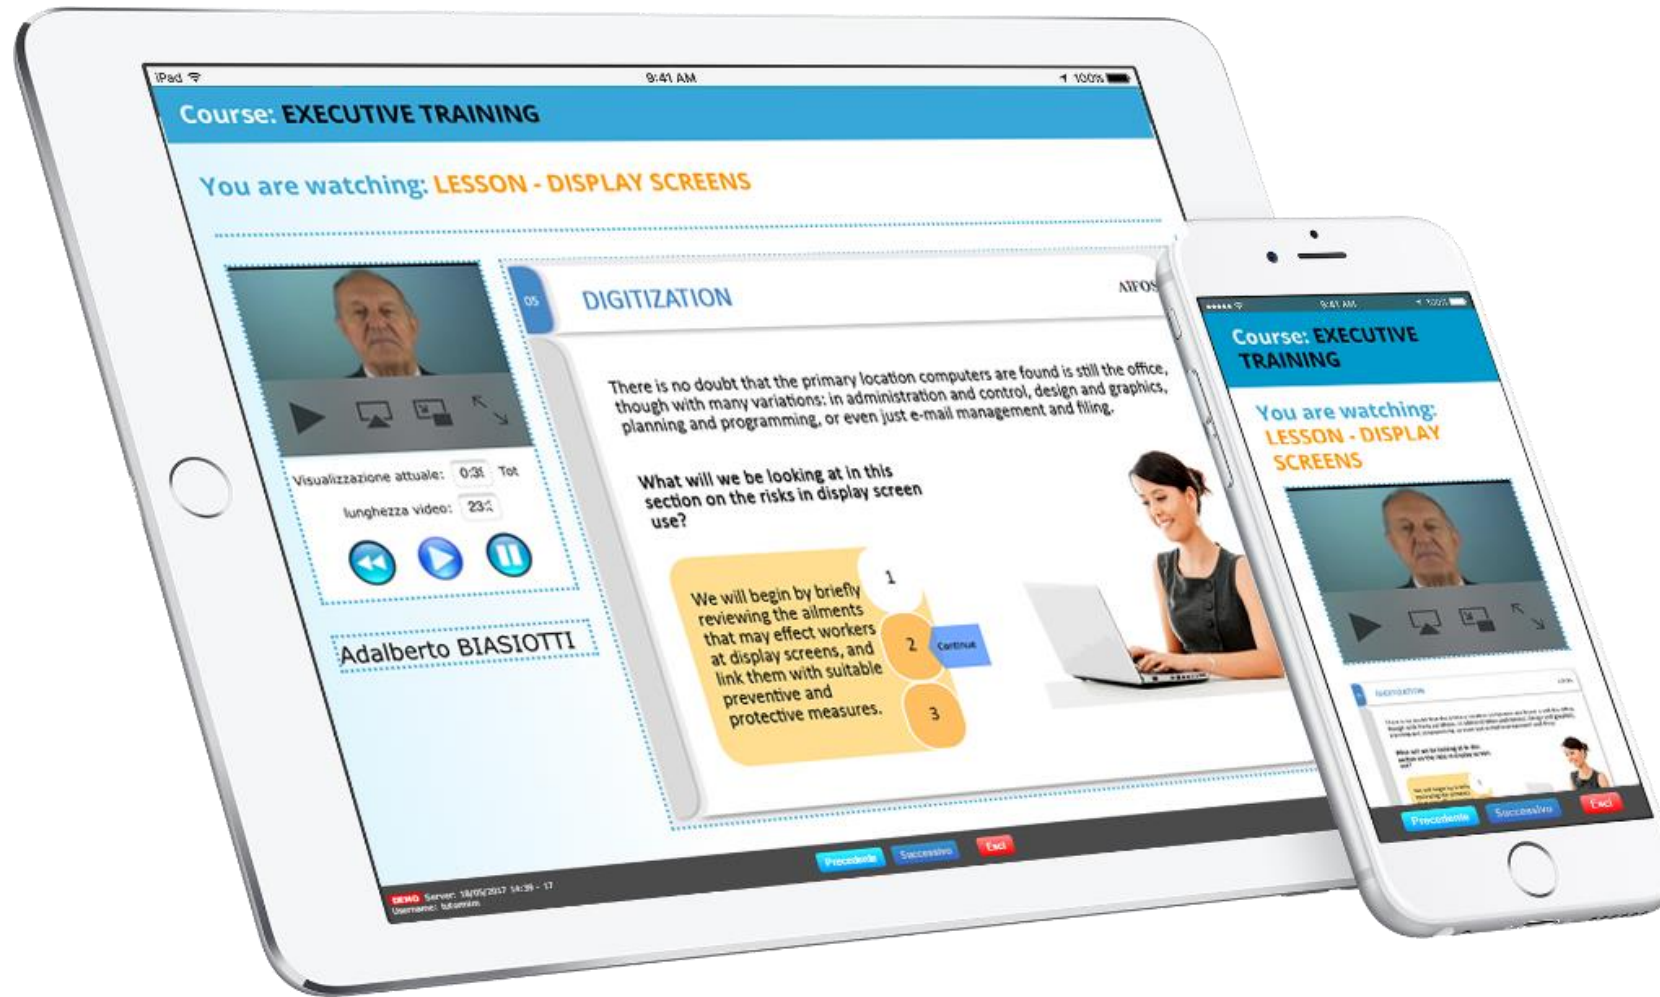

We cover all the mandatory training about **Health and Professional Safety** (Employer, Managers, Workers, Supervisors, RLS, RSPP, ASPP) and we also propose courses regarding **Quality and Compliance, Soft Skills, Food Safety, Digital Transformation.**

All our courses:

- have very strict fruition rules (according to current legal demands) that oblige the learner to study all the contents of the course, in full;
- are based upon multimedia didactic contents: movies and handouts, test, learning checks;
- provide for the issuance of attendance certificates and allow the automatic production of specific documents to report the financed training.

More than 150 courses for an easy and effective training

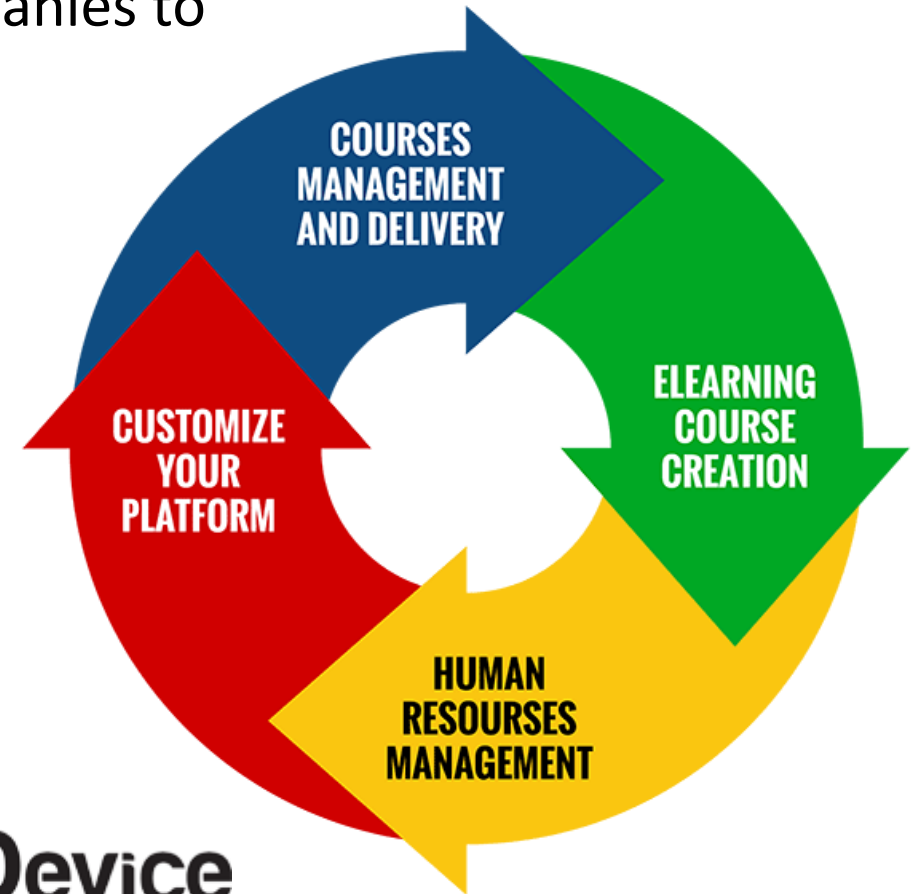

DynDevice LMS is our **ELEARNING platform** allowing companies to create, manage and deliver corporate training.

DynDevice is made of 4 solutions in cloud, that can be activated according to your needs:

1. **CORPORATE TRAINING MANAGEMENT AND DISTRIBUTION OF COURSES** in eLearning, classroom or blended
2. **CREATION OF YOUR OWN SCORM COURSES**
3. **HR MANAGEMENT, EVALUATION AND COMPANY INTRANET**
4. **E-COMMERCE WEBSITES CREATION AND MANAGEMENT**

DynDevice
Learning Management System

A rigorous and assisted platform

DynDevice LMS is our **ELEARNING** platform allowing companies to create, manage and deliver corporate training.

DynDevice LMS complies with the **State-Regions Agreements** of 21 December 2011 and 7 July 2016 on the criteria and conditions for eLearning training.

The eLearning didactic activity is **always assisted by a training Tutor** available to the students to assist them in their didactic paths.

DynDevice LMS allows you to take courses on **any device** (MAC, PC, tablet or smartphone iOS / Android / Windows Phone) connected to the internet via broadband (ADSL / fiber or 3G / HSDPA / HSUPA) and with **any Internet updated browser** (Internet Explorer, Firefox, Chrome, Safari, Opera or the respective mobile versions).

A video course is worth more than a thousand words

VIDEO COURSES are multimedia courses aimed at informing and training workers on health and professional safety, for both general and specific risks of the various professions and the various workings..

Each video course is made up of:

- DVD or USB key
- User manual
- Movies divided by chapter
- Learning verification test
- slides (editable) for classroom use
- files related to the printable booklet for the students
- course program
- attendance register
- satisfaction questionnaire
- certificate template

On USB

On DVD

DOCUMENT TEMPLATES

Didactic kits for companies, trainers and professionals.

Models of DVR, DUVRI, PIMUS, POS, GDPR, SPECIFIC RISKS, SGSL.

Models of courses on slides for generic and specific risks, models of courses for specific roles of safety environment and didactic kits.

EQUIPMENT AND DEVICES

Wide array of **first aid products** (ready resuscitation kit, transport and recovery, diagnostic devices) and devices for general protection.

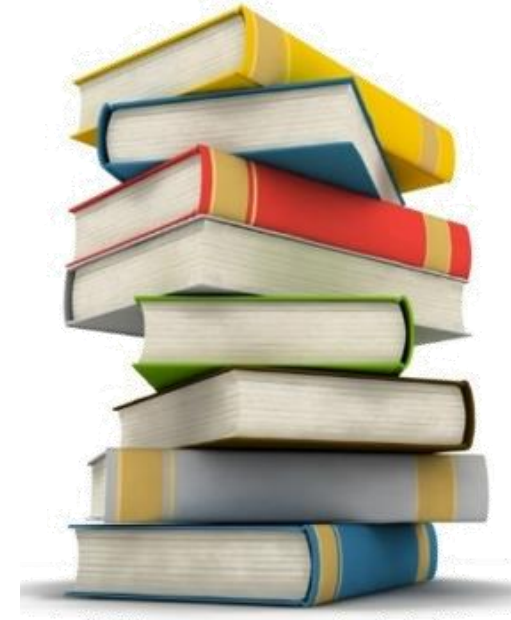

SOFTWARE AND APPLICATIONS

Best applications and software for professionals and consultants to prepare POS, PSC, DVR, self-control manuals and a wide array of specific risks.

BOOKS AND MANUALS

Hundreds of technical publications and operational manuals on health and professional safety of the main Italian publishers.

CUSTOMIZED E-LEARNING COURSES

We customize the e-Learning courses with projects and didactic contents **designed on the basis of your specific training needs**.

Design from scratch, based on the needs of the client or as a modification of existing educational products, integrating them with customized contents (documents, unpublished video clips, video interventions by a teacher, content review, custom graphics with the client's logo, etc.).

AUDIO-VIDEO PRODUCTIONS

Customized video courses for specific client needs about various aspects of safety: safe drive, specific risks, evacuation emergency, robbery etc.

We cooperate with the client for either the analysis of the technical contents to be delivered with the course, and for all the production phases.

Do you prefer classroom courses?

CORSI
Sicurezza 
Corsi**Sicurezza**Italia.it

Not all training is e-Learning.

To allow our clients the delivery of legally approved presence training courses, we have created **Corsi Sicurezza Italia**.

The website proposes classroom courses on safety, delivered by qualified training centres in many Italian locations.

On demand, courses can also be held at the client's offices..
