

*Lignum* VENETIA  
PAVIMENTI DA COLLEZIONE

Lignum Venetia origins from a passion lived within the family and based on the values of love for wood and respect for nature in all its beauty.

Today the story of this Italian family reaches a new stage calling with success to people:

...conscious of the values of natural materials and their sustainability

...paying close attention to tradition and appreciating quality and design

...loving the beauty, the warmth and the emotion that only a “living” product like wood can convey

Welcome to Lignum Venetia

# CERTIFIED BIOCOMPATIBILITY

The use of entirely eco-compatible components testifies the great attention of Lignum Venetia for the environment, nature and mankind and makes its products suitable for a 100% biocompatible building.

3D effect

### 3 LAYERS\_STRUCTURE

Exceptionally stable floors over time, even in large sizes. Particularly suitable for floating installations even with underfloor heating

#### Dimensions:

REGULAR: t. 16 x w. 150<240 x l. 1000<2400mm

LARGE: t. 16 x w. 150<300 x l. 1000<3000mm

EXTRA LARGE: t. 16/20 x w. 300<500 x l. 3000<5000mm

### 3 LAYERS\_FEATURES

- Suitable for floating installations even with underfloor heating
- Elasticity of the table determined by the milling of the central core
- Opposed milling never passing in height
  - = constant presence of material between wear-layer and counter-balance layer
  - = homogeneous distribution of heat and moisture on the surface
  - = increased stability
- No unaesthetic surface marks caused by  $\Delta$  thermal

## 2 LAYERS\_STRUCTURE

A quality product with the minimum thickness and with the maximum aesthetic effect.  
Suitable for underfloor heating. Glued laying recommended

Dimensions:

REGULAR: t. 10/14 x w. 120<200 x l. 1000<2400mm

## 2 LAYERS\_FEATURES

- Suitable for underfloor heating
- Elasticity of the table determined by the milling of the support
- No unaesthetic surface marks caused by  $\Delta$  thermal
- Suitable for our Exclusive product “sound absorbing”

## **ABOUT US:**

### **- 8 WOOD SPECIES:**

oak, cerro oak, larch, ash, elm, cherry, european walnut, teak

### **- 3 COLLECTIONS:**

Venezia, Futura, Linea Restyle

### **- SPECIAL PATTERNS:**

herringbones /chevron layings, mosaics and bespoke drawings

### **- EXCLUSIVE PRODUCTS:**

Briccole of Venice, Bog oak, Marble wood, recovered wood, smoked oak, sound absorbing, BenesserePiù treatment

### **- SPECIAL SOLUTIONS:**

big planks dimensions (up to 500mm width/ 5000mm lenght) and custom finishes

Herringbones and chevron layings, mosaics patterns and with bespoke drawings.

## SPECIAL PATTERNS\_HEXAGONS AND SAINT MORITZ

## EXCLUSIVE PRODUCTS\_SPECIAL WOODS

### BRICCOLE OF VENICE

Oak wood originating from the pillars placed in the Venice lagoon. The miscellaneous range of shades and the twisting traces left by the water woodworms are the natural charme of this wooden floor.

### MARBLE WOOD

This wood is obtained from died trees being perfectly intact and standing. These trees are unique pieces and after the recovering are transformed into wooden floors with a unique character.

### RECOVERED WOOD

They represent a precious raw material rich of history. The different colours, shades and imperfections are the distinctive elements and the marking of the passing of time.

### SMOKED OAK

Thanks to a modern vacuum assisted smoking technique and with the use of ammonia and ammonium salts the wood is colour dyed in depth through all its fibers.

## EXCLUSIVE PRODUCTS\_BOG OAK

This fossil oak wood is rare to find, as precious as the time that has kept it, and it remains among the best solutions for a prestigious floor.

This wood tells millenary stories and is obtained from the processing of logs that have remained sub-merged for a very long time. It shows characteristics of uniqueness and non replicability and this make every installation exclusive, unrepeatabe and full of charm.

Particularly sought after by those who like unique pieces and luxury furnishings, fossil wood parquet is a niche product that is increasingly appreciated and requested.

# EXCLUSIVE PRODUCTS\_BENESSEREPIU' *New!*

The new natural finish for sanitized, antibacterial and indoor wellness floors

**The spaces you have always loved, now twice as healthy**

***BenesserePiù*** the new oil finish treatment for wooden floors. An innovative treatment for the walkable surfaces of your daily time that combines, all at once, the sanitizing and antibacterial power of the active silver with the aroma-therapy benefits of the terpene.

For your life lasting living wellness.

# EXCLUSIVE PRODUCTS\_SOUND ABSORBING

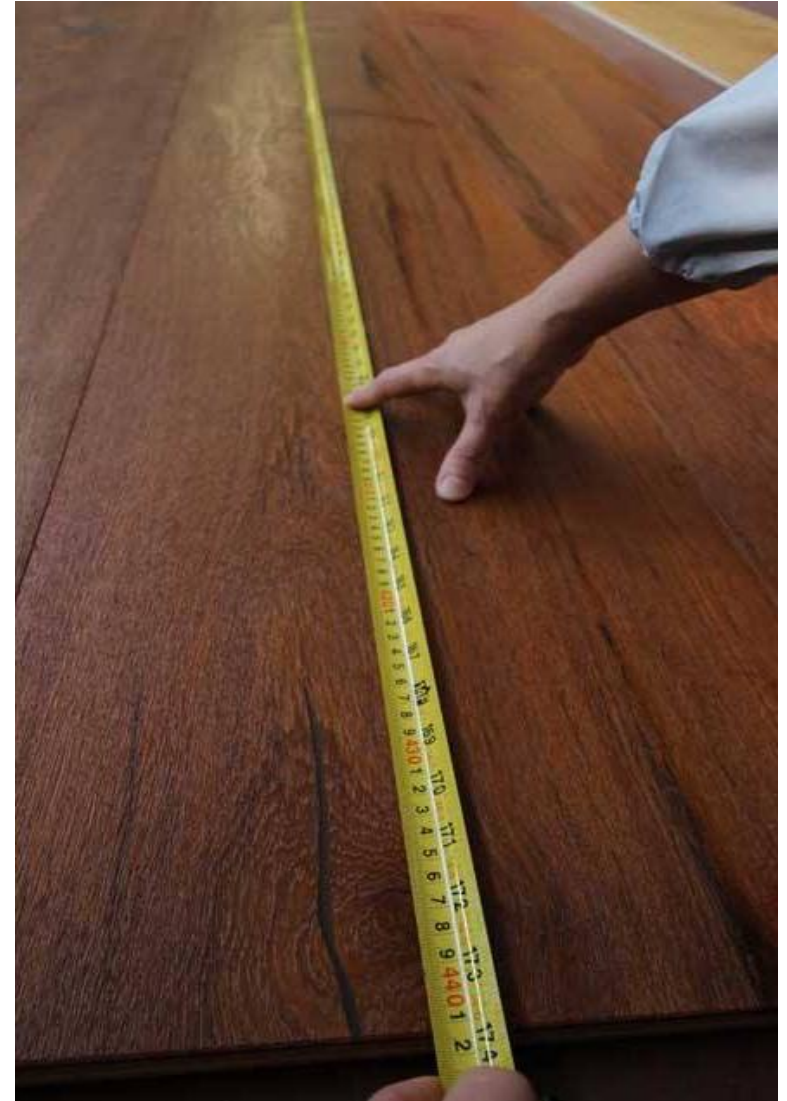

New!

An effective system for the attenuation of sound waves, easy to install without using the specific mattress.

The rubber cork represents an excellent solution either to absorb the noise of the daily trampling of the floor or to allow an acoustic insulation between the various floors of the house (floor and ceiling).

## SPECIAL SOLUTIONS\_BIG DIMENSIONS

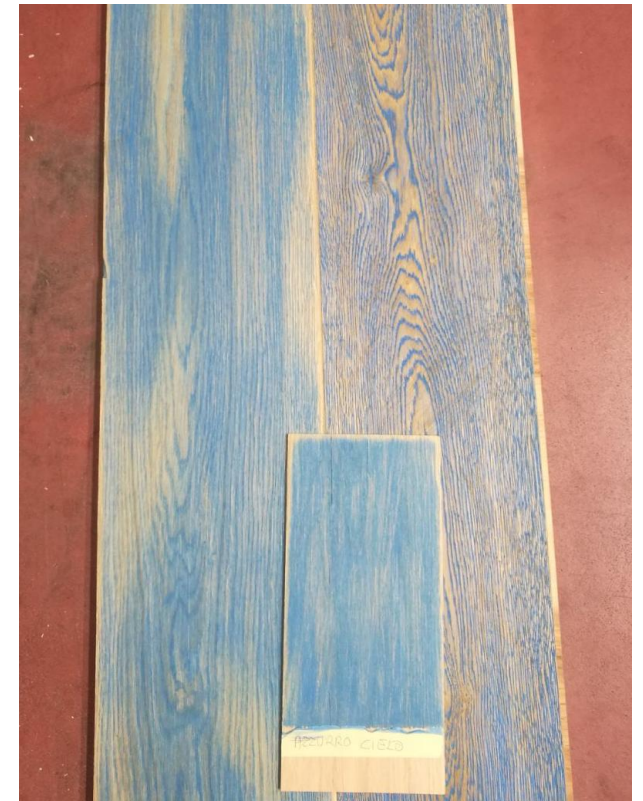

## SPECIAL SOLUTIONS\_CUSTOMIZATIONS

Unable to find what you are looking for? Lignum Venetia offers you the possibility to customize every wood specie with finishings and dimensions at your own choice.

Available on request also water based varnishings.

## NOT ONLY WOODEN FLOORS

We produce also boiserie, shelves, table tops, stairs and furnishing accessories for a «total-look» effect.

# CLEANING AND MAINTENANCE

To regenerate the wood and maintain its original aspect

## DAILY CLEANING

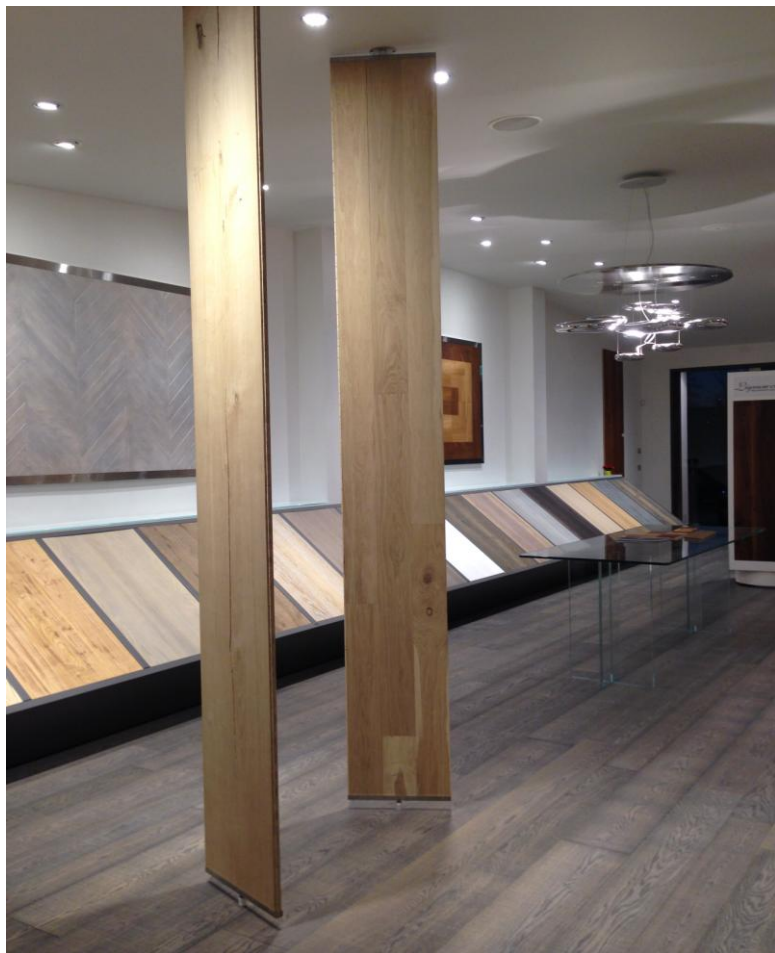

- Recommended use of lukewarm water
- Cleaning with a well-wrung cloth
- Use of a neutral soap, not aggressive, to be diluted in half a pail of water.
- Absolutely avoid to use aggressive chemical detergents

## PERIODICAL MAINTENANCE

- It is recommended every 18 months and could be done in complete autonomy without special equipments
- Lignum Venetia suggests the use of specific products for the cleaning and maintenance of the floor, such as PARQUET CLEAN KIT (water-based balsam for cleaning with soap and detergents) and PARQUET WAX KIT (toning and nourishing water-based wax), to preserve the characteristics of your parquet over time .
